# **Ombudsman** wants more

By Nicholas Timmins
Social Services Correspondent
The powers of the health
service ombudsman, which
have now been established for 10 years, should be extended, the retiring ombudsman. Sir Cecil Clothier, said yesterday. In his final annual report, Sir Cecil says the Ombudsman should be given powers to initiate investigations himself.
He should be able to look in

NHS personnel matters, and also examine maladminis-tration when the NHS is seeking tenders from outside firms - a growing area with the Government's drive to privatise cleaning, catering and laundry in the NHS.

In addition, he makes it plain that the office could easily take on complaints about doctors' clinical judgment, although he says it is for Parliament to decide whether he should do so. A third of all complaints submitted to him have to be

rejected because they involve clinical judgment and when patients are complaining about a hospital doctors' judgment they have either to sue or use the "second opinion" pro-cedure, in which other doctors review the case.

Sir Cecil cites a number of cases where the second opinion procedure has left patients dissatisfied. A lay adjudicator in such cases might well reassure the public and avoid much unnecessary litigation, he says,

# Owen 'role reversal'

By Philip Webster Political Reporter

The divergence of view between Mr Roy Jenkins and his successor as leader of the Social Democrats, Dr David Owen, about the future direction of the party was causing wry amusement among its Alliance partners yesterday. One Liberal MP remarked on

the irony of the fact that Mr Jenkins, who was considered to be the right-wing contender when he defeated Dr Owen for the leadership in 1982, had now seen fit to speak out with a warning against Dr Owen's apparent espousal of the free market approach. There has been a total role reversal in the

space of two years," he said.

But although there was some nbarrassent in the SDI leadership yesterday about Mr Jenkins's remarks in the first annual lecture to the Tawney Society on Wednesday, in which he offered a sharply different vision for the future of the SDP than that held by Dr

Owen, it was playing down It was being forcefully pointed out that Mr Jenkina's views on a closer relationship with the Liberals were well known.

There is no doubt, however that the fears of some leading SDP figures about Dr Ow.en's apparent rightward move on economic policy were reflected in Mr Jenkins's warning that the party should not adopt a "sub-Thatcherite posture". The whole spirit and outlook

of the party, its leaders and its members must be profoundly opposed to Thatcherism, Mr Jenkins said. It could not go along with the fatalism of the Government's acceptance of massive unemployment.

But the differences between the party's first two leaders are probably most pronounced on the finure of the Alliance, Dr Owen has long insisted

that they should maintain their separate identities, a view which Mr Jenkins clearly rejected when he said there was no sense in envisaging a future for four mainstream groupings in British policits.

It would be a great mistake, he said, to give the imperasion that marriage with the Liberals was one of short-term convenience. The Alliance in my view is for better or worse. There can be no SDP triumphs or defeats which are not also Liberal triumphs and defeats and vice versa.

#### Murray home

Mr Len Murray, general secretary of the TUC, left the National Heart Hospital in London yesterday but will not return to work at Congress House until next month. He has been under observation since he collapsed at a rally.

# Youth loses Alkameter appeal and judge fails test

Gloucester

A judge yesterday "ran out of uff" and failed an experimenial Alkameter test during a case at Gloucester Crown Court.

But despite his own failure, Judge Anthony Bulger, dismissed an appeal by Richard Dawes, aged 19, against conviction for failing to provide a breath specimen,

The judge had been told that Mr Dawes was asleep in his car in a sleeping bag when police knocked on his window at 1.30am. The car was in a public car park in Gloucester.

Police constable Keith Sumner told Davies to get into the Mr Dawes, an aircraft fitter, police car, and take the breath

It is not my policy to give people a second chance" PC Sumner said. Dawes was subsequently convicted by Gloucester magis-

trates of failing to give a breath specimen, but cleared of being in charge of a car with excess alcohol in his blood. Yesterday after Judge Bulger

of Romney Avenue. Locklesze, test. Despite being told what to failed to complete the test, Mr Bristol, loses his driving licence do, Dawes did not blow long for six months under the totting enough or hard enough. failed to complete the test, Mr Ian Glenn, representing Dawes, said: "Your Honour failed the test, with respect, and you wouldn't have been given a second chance."

But dismissing the appeal the judge said: "I know in experiment I failed too but these court tests are not very good. We shall

The cost of travelling: 1972-83

The main points

1. Abolition of road service

licensing (except for controls in London, which will stay). 2. More resources for tighter

supervision of quality and safety standards of public service vehicles and operators.

3. Many essential bus routes are not viable and local authorities will be able to

continue to subsidize services

that would cease in a free

market. But they will have to

seek competitive tenders for

4. Concessionary fare schemes

will continue and all operatory

5. More government resources for public transport in rural

areas. A special innovation grant and a transitional grant

of £20m a year reducing, and wider use of services run by

education, health and social services, the Post Office and

6. The National Bus Company

will be reorganized into smaller parts to be transferred into the

private sector. The government

will welcome bids from em-

ployees. "There is no good reason why local bus services should be provided by a

national corporation, nor is

there any particular reason why

such services should be the virtual monopoly of the public sector", the White Paper says.

Passenger transport executives

will be required to break down their operations into smaller units which will become inde-

pendent companies, and mu-

nicipal bus operations will be incorporated into companies owned by district councils.

will be able to participate.

contracts.

By Michael Baily Transport Editor

Town and country services throughout Britain face big changes after the abolition of bus service licensing pro-posed in a White Paper

yesterday.

For the first time in 50 years anyone with a bus will be free to operate it where he likes, subject only to safety requirements and registring the proposed route and timetable with the authorities. New operators of the present services of the stateowned National Bus Company, which is to be broken up and privatized, will be included.

There were immediate fears "cowboys" and "pirates" of the 1920s, with buses racing each other to pick up passengers, bunching at popular spots, widespread bankruptcies and the collapse of such integrated public transport as would But the White Paper brushes

aside these fears, promising instead a new era of free competition that will produce better services, cheaper fares and lower subsidies.

Since 1953 services have halved and buses' share of all travel dropped from 42 per cent to 8 per cent. But revenue support rose from £10m to £520m in the decade to 1982 and the cost in large cities is unacceptable, the White Paper

The present system protects the operator, allowing him to cross-subsidize from more- to less-used services, it adds. But the result of these "worthy" intentions is to maintain a pattern of services developed for a different age" and to inspire among operators a philosophy that is "defensive and inward-looking".

The freeing of express coach services in 1980 produced a 40 per cent drop in fares and 700 new services. The time has come to go further, the White

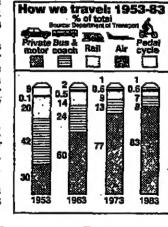

Paper says.

There is evidence, it says, that without the dead hand of restrictive regulation, local services too would improve and fares drop as happened in the trial areas of Devon, Hereford and Worcester and Norfolk.

Under a free system if one operator fails to provide the service the public wants, another will, the White Paper says. Different vehicles will be used for different routes - fast minibuses in cities, shared taxis in the country

In the 10 years to 1982 bus costs rose by between 15 per cent and 30 per cent above inflation and fares by more than 30 per cent, the White Paper says. Yet motoring costs hardly rose at all over the same period. The metropolitan counties

with 40 per cent of the population, took 80 per cent of subsidies - £400m in 1982 and the Government regarded that as unnecessary.

#### Critics condemn plan as recipe for disaster

The White Paper was attacked by transport unions and the public transport lobby, Transport 2000 last night, and reservations were expressed by the bus industry.
In a joint statement by the

TUC and the AMA (Association of Metropolitan Authorities) Mr Larry Smith, of the transport committee, described the paper as a "recipe for disaster". It was further evidence of the Government's apparent refusal to acknowledge the true value of public passenger road transport and would lead to higher fares and reduced services. "The intro-duction of a privatization programme will do nothing

waiting to pick off profitable elements of public industry" Mr

Transport 2000 said deregu-lation could kill off rural bus services and on the example of the Devon and Hereford trial areas, could be not only worse for passengers but downright

dangerous.
"What will happen to our countryside?" asked Susan Hoyle, director of Transport 2000." The trains have already gone, and now the buses are under threat of the axe. Are those rich and healthy enough to have cars?

Parliament, page 4

# Fine proposed for shoddy goods

Mr Alexander Carlile (Montgomery, L): How much further does she expect interest rates to rise before the pound becomes stablized against the dollar? What advice does she have to gove to those in business whose investment plans have been scuppered by the stark collapse of

Mrs Thatcher: It is disappointing that they have had to go up. How long they stay up will depend upon the industrial strikes we are now experiencing. (Labour protests)

For 17 weeks of the coal strike we ron 17 weeks of the cost strike we managed to withstand increases in interest rates and held them well below those of the United States. Becasue of the industrial strikes they

As for larger concerns, the IMF and reduced it to the level of a Chancellor has pointed out that debtor country. It is this Govern-profits are in good shape and inquidity of industries is good.

Mr Neil Kinneck, Leader of the ment and nearly half of it has been raid.

Mr Neil Kinneck, Leader of the Opposition: The Chancellor told the nation on television last night that nothing has gone wrong. Does she know that the money markets do not believe that; the banks do not believe that; the banks do not believe that; the mortgage companies do not believe that. Does she believe that? Does she believe that? Does she believe that? Does she believe that? The mortgage companies do not believe that. Does she believe that? The mortgage companies do not believe that? Does she believe that? The more ment and nearly half of it has been ment and nearly half of it hal

Mr Kinnack: I was listening. I have heard the Prime Minister before, What she did again today, despite what she always does, blame everybody but herself. (Loud Labour cheers).

Labour cheers).

Is not that really what is wrong with this Government? Is not that the reason for the rise in unemployment, for the morrgage rate increases, for the interest rate increases, for the falling pound, for the personal difficulties that people face? What is she going to pay the price with her own job?

panies do not believe that. Does she believe that? Does she believe nothing has gone wrong?

Mrs Thatcher: If he was listening to my previous reply, he would have had the answer to that. Perhaps he was not listening.

Mrs Thatcher: When interest rates was external, and also in stating our underlying situation is one of good steady growth and low inflation?

It is sickening the way in which the Labour Party gloats whenever Britain runs into difficulties.

Mrs Thatcher: When interest rates was external, and also in stating our underlying situation is one of good steady growth and low inflation?

It is sickening the way lost whenever Britain runs into difficulties. Mrs Thatcher: When interest rates go up it is bad news for Britain, It is bitterly disappointing. It is even more disappointing that bad news

for Britain is good news for the Labour Party. How can Mrs Thatcher come to the House on Tuesday claiming that the Mr Michael Meadowcroft (Leeds

reconomy is in good shape, and perhaps even more important that inflation is under control, and then two days later brazenty defend a situation in which interest rates have risen, the pound has collapsed and we face the prospect of higher

exactly when does she think the economy is going to be in bad shape and what is likely to happen on inflation in nine months time?

Mrs Thatcher. Gross domestic product is up 3 per cent over a year ago, industrial output is up 3½ per cent over a year ago, investment is up 10 per cent over a year ago, productivity is up 6 per cent over a year ago, profits are up about 25 per cent.

economy is going to be in bad shape and what is likely to happen on inflation in nine months time?

After repeating the percentages of her earlier answers. Mrs Thatcher went on: Dr Owen was a member of the government which took this country to the IMF so it became a debtor nation. He was a member of I am sure he will be delighted to debtor nation. He was a member of see the very good report about steel a government that has had to pay it and how steel is withstanding the back. We have halved it. (Conservative cheers)

Becasue of the industrial strikes they have now had to go up.

Mr Kinneck: Interest rates have spokesman on housing and construction: What is Mrs Thatcher will be in danger, particularly in effect for the British economy.

Small businesses, and that is one of Mrs Thatcher: It was the Labour devastating effect of the increase in

economic strategy :

mortgage interest rates that is likely to come about tomorrow (Fidey). It will put mortgage interest rates about 8 per cent above the level of inflation.

Mrs Thatcher: It is disappointing when interest rates rise, and particularly disappointing when mortgage rates also go in.

The account the strikes are over the scoper interest rates will come down. I hope the Opposition will start supporting the 23½ million in work, and working well, and not the 200,000 on strike.

West, 1.): The mercrable outcome of recent trends in inflation, exacerbated by increasing interest rates, is bound to be a 7 per cent rate of inflation by December. Mrs Thatcher: Inflation is at the lowest rate on annual average for 15 years. It is far lower than the rate under the Government the Liberals supported and helped to keep in

to stay up too long. That depends to some extent on how soon the industrial strikes are ended.

Mr Pater Thumban (Bolton, North East, C): Will Mrs Thatcher assure law abiding trade unionists that it is the law of parliament which prevails CHIERTOO UNION COURTS?

Mrs Thatcher. Yes, the law is made by democratically elected parlia-ment and administered by a totally independent judiciary and should be upheld.

## Chancellor denies there is a crisis

"This is in no sense a crisis." Those words by Mr Nigel Lawson, Chancellor of the Exchequer, were remember claiming that he earlier greated by howls of laughter by the Opposition in the Commons. Making clear he regretted the present level of interest rates — which was still lower than it was for crossing out? lich was still lower than it was for crowding out? a large part of the time when Labour Will he accept responsibility for were in power - the Chancellor said the increase in interest rates or there was one important develop-

but there had been such a Mr Lawson there are a number of substantial improvement in com- factors. It beloves us to control pany liquidity and company profitability that although this was a disappointment for British industry, it would not be affected by it enything like as much.

Mr Lawson said he hoped the present high level of interest and morigage rates would be relatively shortlived. He expected inflation to objective was stable prices.

In the exchanges, Mr Stephen Derrell (Loughborough, C) asked: Do not the fluctuations over recent days in the foreign exchange markets reinforce the case for Britain joining the European Monetary System?

Mr Lawson: There are always likely to be fluctuations in the foreign exchange market. The biggest fluctuation in recent weeks and months, and indeed longer, has been between the dollar on the one hand and other currencies. European in particular, on the other. That will in way be affected by joining the

The key currency in the system, the linch-pin, is the deutschmark. During the five years this Govern-ment has been in office the value of sterling against the deutschmark has declined by 5 per cent, during the five years when Labour was in office it declined by 36 per cent.

In the past this sort of level of interest rates presented a severe burden to businesses and industry, but there had been such

factors. It behoves us to control those factors which are within our control. There has been a considerable change. When the Laour Government left office American interest rates were 4 per cent below British rates. That sort of thing had been the historical norm.

Today, despite the recent rise in British interest rates which I regret, British rates are still marginally below American rates.

Mr Timothy Yee (South Suffolk, C): Without responsible control of the monetary aggregates in this country interest rates would be very much higher. If we were to follow the spendthrift policies advocated by to see and that I regret, but I hope face interest rates of 20 per cent. Mr Lawson: He is right. That is not to say that I welcome today's

interest rates. I do not. They are higher than is justified by monetary conditions in this country and hope they will not lest long. Mr Robert Sheldon (Ashton-un Mr Robert Snesson (Associational Lyne, Lab): Is not his optimism a little misplaced? Given the exchange rate and interest rate crises we had in the past during this we and in the past during this Government, which took place against a background of rising North Sea oil output and rising demand, this crisis is taking place against a background of prospective fall in North Sea oil output and demand.

Mr Nigel Forman (Carshalton and Wallington, C): With the unwel-come rise in interest rates particularly to house buyers and sections of industry, dies he recognize that the critical importance of setting stable prices has increased, and the sooner the economy?

Mr Lawson: Yes, I agree. It will of course take a number of years to get to stable prices, but we are determined to get there. Mr Richard Wainwright (Colne Valley, L): Since commentators agree that there is serious risk of the rate of inflation rising this autumn and earnings are rising out virtually double the current rate of inflation,

the only way of reducing unemployment would be to start a selective reflation, protected by a decentralized incomes policy. Mr Lawson: His recipe is, I know, deeply felt and deeply cherished by the Liberal Party, but it is a recipe for inflation and for industrial distortions and inefficiencies.

that the present high level of interes rates the increase in mortgage rate will be relatively short-lived.

Mr Anthony Beaumont-Dark (Bir-mingham, Selly Oak, C): The reason for the plight of sterling is nothing to do with internal factors so the response of and increase of 3 per Cent in interest rates is unwelcome.
Would it not have been better to encourage the enchange rate to bear the burden and the resk instead of endeavouring to change the policy which has been so successful on the inflation front at home?

Mr Lawson: He is unaccustomedly alightly mistaken. The pressure was not on sterling. The exchange rate

had been committe

and recovery, does he regard mass unemployment as a greater evil than gentle inflation?

to do so, but because they were under the delusion that inflation

That is why one of the key reasons for getting inflation down is to get the conditions in which

Mr Lawson Import prices have been coming down in sterling terms. Because of the decline in com-

firm grip that the Government has on the money supply which has brought inflation down to its present level of 5 per cent will be proceeded with, and will continue to bring inflation down.

# Thorn-EMI to buy Inmos

acting on their own initiative or on behalf of the Nigerian authorities?

TECHNOLOGY

The sale of the National Enterprise Board's shareholding in Inmos, the state-owned British micro-chip company, to Thorn-EMI for £95m offered a fair return for the Government's investment, Mr Norman Tebbit, Scoretary of State for Trade and Industry, said in a for Trade and Industry, said, in a Commons statement. -

Mr Tebbitt said: When the House debated Inmot, last month t explained that the Government had two objectives: to ensure the company's early transfer to the private sector, and to find a private sector source for the additional capital and support the company needs if it is to realise its full realise its

potential.

This morning Thorn-EMI and the British Technology Group announced that they had reached agreement in principle for the purchase by Thorn-Emi of the NEB's shareholding in Inmos at a price of \$15 m. price of £95m. A sale of the NEB shareholding to

Thorn-EMI would meet the objectives I set out. Thorn-EMI have assured me of their determination to develop Inmos and of the importance they attach to fulfilling the aims of the company's management. They have the financial, technical and managerial resource to do so. This proposal will assure the continued transfer of technology to Britain and British industry's access to this technology.

The House also expressed concern that the Government

should receive a fair price for Inmos. The Government's total investment in Inmos is £65m, in addition to which certain guarantees have been provided. The Thorn-EMI offer of £95m for the NEB's share of the equity implies a value of some £125m for Inmos.

Government's investment, and Thorn-EMI will assume responsibility for the guarantees. The offer will fall to be considered by the Director General of Fair Trading, who will advise me in due course. Tribute is due to the founders of lingues and to the workforce in Britain and America, who have created a company with a most promising future in shit advanced and fast growing industry. It is their skill and dedication that have enabled the Government's invest-

ment to bear fruit. i to tell the transaction has the support of both the British Technology Group and the Board of linnos, who Thorn-EMI contrast with the consider that the participation of Thorn-EMI will strengthen their company and help it to achieve its objectives. The Inmos Board have said they regard Thorn-EMI as an

I hope the House will agree that this represents a satisfactory outcome. Inmos has found a strong and committed parent company.
Thorn-EMI have gained an attractive investment in a key industry of the future. The Government has secured a fair return on the taxpayers' investment, which vindi-cates support within the UK.

Mr Peter Shore, chief Opposition spokesman on Treasury and economic affairs said the Oppo-sition and many Conservative MPs would welcome the promised continued UK ownership and control of Inmos.
Is he satisfied that Thorn-EMI, in

the light of its poor record in the high technology areas of nucleonics and body scanners, have the right people at the top level of management to take strategic decisions? What gustantees are there for continuing autonomy for sprawling Thorn-EMI group? It would have been prudent to have at least retained a holding share or its equivalent in Inmos to

subsequently sell it off to an overseas company and maintain its overall independent management within the Thorn-EMI group. realities. If Inmos is as good an investment as I believe it is, there is

nothing to suggest that Thorn-EMI would want to get tid of it. Mr Michael Grylls (North West Surrey, C): Most sensible people will recognize that this high technology company will be much better off in

the private sector and which it well under the successful management of Mr Tebbit: There is no good reason

why the taxpayer should be called upon to provide the investment for companies of this kind.

This was the remedy throughout the Bill. It had always been the Government's view that it was far better for the enforcement of the Bill to be in the hands of union tembers and not of some external Government sponsored institution.

He trusted the amendments
would bridge the gap which had
existed between the Government and certain conservative peers. He pointed out that Lord Beloff and Lord Rention had put their names

he courts.

to the Government amendments.
The amendments were agreed to. • The Finance Bill completed its passage through the Commons when it was read the third time by 331 votes to 168 - go

A host of Government amendment to the Funnee Bill were agreed to during the 19 hours of its report stage which ended at 11.45 am. Those dealing with VAT zero-rating for alterations to listed buildings and others relating to furnished holiday lettings attracted discussion.

# Complaints against senior officers

POLICE BILL

Lord Elton, Under Secretary of State, Home Office, moved a series of new government clauses to the Police and Criminal Evidence Bill during the committee stage in the House of Lords, relating to the handling of complaints procedures ing of complaints procedures against senior police officers.
These, he said, were designed to provisions with greater clarity and precision. Under the new clauses, complaints against officers of chief superintendent and above would have to be submitted to the Director of Public Prosecution unless satisfied no criminal offeno

The appropriate authority could deal with the complaint according to its discretion if satisfied the conduct complained of, even if proved, would not justify criminal or disciplinary proceedings.

appropriate authority. In the case of the Metropolitan Police that would be the Commissioner, and for other forces it would be the police authority.

had been committed.

No memorandum need be sent to an authority if disciplinary charges had already been preferred and the accused had admitted the charges. If the authority determined that after receiving a report indicating a criminal offence might have been committed, the officer ought to be charged, it should direct that a copy of the report be sent to the Director

# Ireland is favoured

An all-party parliamentary committee in the Irish Republic is to recommend that divorce should be legalized. The committee has been studying marital breakdown for

the past six months and disclosed yesterday that it was in favour of changing the law. There are an estimated 70,000 broken marriages in the Irish Republic and recent opinion polls have shown that up to 66 per cent of the electorate favours some form of

The committee has no asked its legal adviser to draft a report for the Dublin Government on the impli-cations of holding a referendum to change the constitutional ban on divorce imposed in 1927.

The opposition Figure Fail

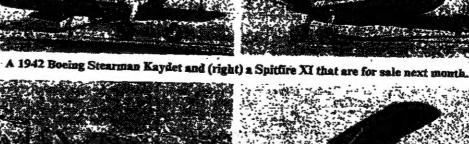

spokesman on Justice, Dr

Michael Woods, said yesterday

that the committee had reached

2 consensus that the ban should be removed. But they also wanted the rights of the family to be strongly protected. The committee's report is expected to be ready by

Also on offer are a 1941 de Havilland Tiger Moth (left) and a 1944 Fairchild Argus III.

A Second World War Spitfire, sold last year for £100,000, will be the highlight of a sale of historic aircraft being beld next month. The Spitfire was sold by Christie's last year as a fuselage and a pile of parts. It has been rebuilt and is airworthy new. An unarmed photo reconnaissance aircraft, it is the only machine of its type that can fly. It is expected to sell for £1,25m.

Rebuilt Spitfire has £1.25m price tag Other aircraft in the sale, which Christie's is holding at the Imperial War Museum airfield at Duxford, near Cambridge, include a Boeing Stearman Kaydet, formerly of the Israeli Air Force, There is a growing interest in early jet aircraft, and those will be represented by aircraft such as the North American Sabre and de Havilland Venom.

#### **Editor wins** libel case against Eye Sir Larry Lamb, editor of the

Daily Express, won undisclosed libel damages in the High Court in London yesterday over allegations that he took threehour lunch breaks and acquired a taste for expensive wines at his employer's expense. The allegations, which appeared in the Private Eye

magazine in April, 1983, were a scrious libel of him, his counsel, Lord Rawlinson, QC, told Mr Justice Comyn. He said the article refered to a libel action by Sir Larry against The Tatler magazine and repeated allegations made by The Tatler that he was known for "swilling expensive burgundy and taking three-hour lunches".

It went on to suggest that his alleged taste for expensive wine had been at employer's expense while he was editor of The Sun

newspaper
Mr John Wilmers, QC, for
the magazine's editor, Richard ingrams, and publishers, Pressdram, said they accepted that the allegations were "quite untrue" apoligized to Sir Larry. agreed to pay him the agreed damages and his legal costs and undertook not to repeat the allegations.

#### Record of 78,340 fire hoax calls

Fireman in England and Wales were called out on a record 78,000 malicious false alarms last year, Mr Peter Darby, Chief Inspector of Fire Services, said in his annual report yesterday, the figure was per cent up on the previous

Mr Darby said that figures showed only a very small proportion of successful prosecutions. However, fireman also attended a record 132,000 calls to burning property.

Early indications on the number of deaths last year showed a fall on the 1982 figure of 755.

Mr Billy Graham, the American evangelist, arrived in Liverpool yesterday and said he was feeling better after an intestinal fever last week that

In framing the charges of preparing to overthrow the state system by force, which carries a 10-year maximum fail term, the prosecution has already tried to ensure that a more negative image of the KOR group will emerge. The humanitarian activities of KOR, which helped the relatives of persecuted

workers after the food riots of 1976, have already been

Much hinges on the trial. The Polish Government has long hoped for a Western rehabilitation which would ease its economic crisis. At least two Western politicisms — Mr Andreas Papandreou, the Greek Prime Minister, and the West German Foreign Minister, Herr Hans-Dietrich Genscher — have expressed their willingness to visit Poland at unspecified dates in the future. Washington said recently it was looking into further ways of lifting sanctions, in a statement clearly intended to exert some leverage on Poland before the KOR trial begins. Much hinges on the trial. The

# Bonn takes the chill off

Mr Bohuslav Chnoupek, the veteran Foreign Minister of Czechoslovakia, held talks yes-terday with Herr ans-Kietrich Genscher, his German counterpart, at the start of a two-day visit that Bonn sees as an important result of its patient attempts to maintain good relations with Eastern Europe at

#### Iran closes Kharg oil jetty

Iran has closed part of its Gulf and imposed a limit on the size of tankers using it, according to reports coming out of

The reports, quoting diplomatic sources, say that the Sea Island jetty has been shut down ater a small fire last month which started when the Greek Tanker Alexander the Great vas hit doring an Iraqi air raid. Although damage was slight the Iranian Government decided that the jetty, which reaches into deep water was too

vulnerable to Iraqi air attacks. Now only tankers up to 300,000 tons can use Kharg Island. The previous limit was 500,000 tons.

seamen have decided to send tankers back into the Nothern waters of the Gulf, which they left two months ago for safety reasons. One tanker loaded with crude oil has left Kuwait for Japan and another may soon be on its way to the Gulf. It was disclosed in Tokyo that the Japanese recently bought 10.5 million barrels of crude oil from Iran at record discount prices. Lloyds marine insurers in

London have raised the risk premium for ships in waters outside Iraqi and Iranian ports from 0.25 to 0.375 per cent. This follows the attack on the BP tanker British Renown earlier this week. The vessel,

whose crew escaped the Iraqi air raid without injuries, was slightly damaged by two by any organization, but Dur-ban has become the main target rockets. BP engineers were due to inspect the damage yester-day. The tanker was anchored the outlawed African National nine miles off Dubai.

 Kuwait Iranian naval ves sels intercepted a Kuwaiti ship in the Gulf and forced it into an Iranian port, according to

# Israeli right-wingers accused of inciting election violence

With 10 days to go until Polling, Israel's general election campaign has begun to heat up, with increasingly frequent out-breaks of political violence, the censoring of television advertisements and allegations of anti-Arab incitement levled at the extreme right-wing Kach party led by Rabbi Meir Kahane.

At the same time two tent settlements have been estab-lished in the occupied West Bank in the last few days. It has been announced that eight more West Bank settlements will beestablished before voting takes

And once again, it will be before the House of

# 13% FOR

# MONGAN SI

The last MORI poll showed an overwhelming Lords have had the chance to examine the main 69% of Londoners are against abolishing the GLC **Abolition Bill.** elections.

A fact that's been totally ignored by the Government in their bid to get rid of the GLC.

Two weeks ago, the Government's 'Paving Bill' went before the Lords.

The Lords defeated the Government's plans to scrap the elections.

Next week, the Bill goes before the Lords again.

Yet once again the Government are proposing to cancel the elections.

The only difference is, the GLC councillors will be granted at least another year of office.

It isn't what the Lords wanted.

It isn't what the GLC want.

And it certainly isn't what the people of London want.

All they want is the chance to decide for themselves at the ballot box who's going to run London next year.

The Government won't give it to them.

Will the House of Lords? SAY NO TO NO SAY.

# Longo quits Cabinet over Italian P2 scandal but protests innocence

Signor Pietro Longo, yielding coalition partners about putting to his critics in the P2 affair, new momentum into the resigned yesterday as Minister of the Budget in Signor Bettino Craxi's five-party Italian co-

His position became intolerable after a parliamentary commission of inquiry into the members was authentic. Although Signor Longon has always denied it, his name was on the list as holding membership card number 2223.

This card, has handed its report to the presidents of the two have to decided when to debate have to decided when to debate

He has admitted having met, when the lodge was still active, the Venerable Grand Master, Licio Gelli, who escaped from a Swiss prison last August and is now said to be in Paraguay.

I have to decided when to decided the it. The report decided that the list of names, found by magistrates at Signor Gelli's Tuscan villa near Arezzo, was authentic and reliable. The lodge had already been banned under the

The jury has seen the most puclicized of the tapes showing Mr Delorean drinking a champagne toast as he sat with a case full of cocaine.

# The gas people-investing in tomorrow's world today

Gas is today's most popular fuel in British homes narrower-again possible with new technology-also -and a powerful and growing force in industry, too.

But the system of underground pipelines needed to bring this clean, controllable fuel to / homes, factories and offices all over Britain is largely taken for granted.

It represents a massive national investment. To replace the 150,000 miles of mains and service pipes into customers' homes, for example, would cost some £12 billion.

Naturally, the mains system needs maintenance -and the gas people, in the search for efficiency,

have developed many ingenious ways of laying new mains and of minimising the cost and inconvenience of repairing and replacing existing pipes as the need arises.

This essential work provides thousands of jobs for British workers- and first-class opportunities for British firms.

#### £1,500 MILLION PROGRAMME FOR BRITAIN'S **GAS MAINS**

Over the last seven years, more than 20,000 miles of mains have been laid and renewed. at a total cost of over £1,500 million.

And the carefully phased

√ programme to keep Britain gas distribution system in good order continues, alongside

further extensions to the distribution system. The next five years or so will see further massive investment in the mains system by the gas people on their customers' behalf.

As everybody knows, to repair agas main you usually have to diga hole in the road.

The gas people dug half a million trenches last year and moved 40 million tons of earth. Now, new technology has been devised to enable pipes to be laid or replaced without trenching -using mechanical moles or techniques for inserting new mains inside old ones.

Where trenches are inevitable, making them

saves expensive earth-moving.

Reinstatement is cheaper and faster, inconvenience to the public is reduced.

#### FEWER HOLES IN THE ROAD

Pinpointing pipes and other services underground has always been difficult-causing inconvenience, lost time, and higher costs. The gas people have developed a 🛠 new instrument for this purpose Called Gascopact, it makes use of advanced micro-electronics to provide much higher accuracy and greater "user friendliness" than anything known before. We'll still be digging holesbut there will be fewer of them. In fact, there will be fewer of

over the -

because many overseas utilities have expressed interest in the device, vhich will, of course, detect other sorts of pipes - and cables, too. There is also export potential in other specialist equipment invented by the gas people.

So yesterday's investment turns out to be tomorrow's export opportunity bringing more work for British industry, more jobs for British workers.

#### HOW THE GAS PEOPLE'S NEW VANS SNIFF OUT TROUBLE

In parallel with their far-reaching mains renewal programme, the gas people are using increasingly sophisticated technology for detecting early signs of possible trouble in the distribution system.

For example, special patrol vans carry ultra-sensitive detection equipment, capable of identifying minute quantities of gasescaping from damaged pipes-in

concentrations far below the level at which they could be detected by smell.

All this work is designed to make the nation's gas system even safer as well as more efficient for the gas people's rapidly increasing number of customersmore than 250,000 extra last year, and almost 3 million more over the past decade or so.

#### LMP/Blech **Oueen Elizabeth Hall**

The queuing, hand-shaking and embracing went on for 10 minutes into concert time; the giving of gifts continued for a responded to their genial kapell-good 15 minutes afterwards. It meister, hand to their genial kapell-was the farewell connected to their genial kapellwas the farewell concert to mark the end of Harry Blech's 35 years as musical director of the London Mozart Players, and Wednesday night was Mr Blech's 344th South Bank

Such is the consistency, the A new exuberance came upon assurance, the sense of solid them in the Schubert Great C achievement which pervades every one of the Players' major, perhaps because it led to the evening's true festivities, or perhaps simply because the work's authority, conviction and comparative lack of ambiconcerts now, that it is difficult to believe that, when they were founded in 1949, they were pioneers in British chamber guity encourages an unparticu-larized buoyancy of mood. At the centre of the evening stood the "Jupiter" Symphony; Mozart, in the hands of his orchestral repertoire. It is worth remembering, too, that as well as providing generous platforms for many young soloists and orchestral players, it was the LMP who made it their Players, the same yesterday, today and for ever - or at least business to take programmes to until Jane Glover gets her hands the provinces at a time when around the baton next season. . many an other London orchestra was dragging its feet.

It was doubtless all this, as

#### LSO/Armstrong and soloists

Barbican

On the surface there was a catchpenny air about the LSO's opera concert at The Barbican on Wednesday. The title of the evening "Golden Moments from Italian Opera", could have been borrowed from some musty playbill. Even more curious was the engagement of Mr Christopher Cazenove as the narrator to stitch those Moments together. Cazenove's complete inability to pronounce even the simplest names of the Italian repertoire correctly, coupled with his generally philistine approach to matters, puts him well in the running for the Least Necessary Engagement of The Year award for the present concert season. But he was, of course, only standing in for the previously announced

Musically matters were on a much higher level. The LSO brought in Richard Armstrong from the WNO, who has total sympathy with the nineteenth century Italian repertoire, and with him four soloists much admired by Coliseum audiences: Rosalind Plowright and Charles Craig were joined by Jean Rigby and Neil Howlett

#### Takacs Quartet Wigmore Hall

No reservations: the Takacs Similarly in the second move-ment of Bartók's Fourth Quar-Quartet, prizewinners at Evian tet, the violins' puctuation visitors to the Wigmore Hall texture. Some phrases I could over the last few years, are a not hear at all. very fine ensemble indeed. The sound is rich, the tuning clean enough for Haydn, the rhythmic attack fierce enough for Bartók, the warmth and sense of line ample enough for Dyorak.

But there were a few puzzles along the way, mainly concerned with tiny points of balance and dynamics. It is admirable for the leader, Gabor Takács-Nagy, to restrain himself when he does not have the most prominent material, but there was an odd tendency for all the players to recede to nothing when they did not have

the leading melody.

The point of the serene

Charming, witty and sparkling with life, The King and Mr Bird is the work of one of the few still active representatives of the enchanted generation that dominated the French cinema in the late thirties and forties.

cessful American tour.

It was fairly clear that the evening was built around Miss. Plowright, who received almost twice the stage time of her partners. It has been a good year for her, starting from the Trovatore recording made in Paul Grimault was born in 1905, studied applied arts, and started his career designing furniture. He moved on to an advertising agency where his fellow employees included Jean Anouilh and the future screenwriter Jean Aurenche. When they joined in the activities of "Groupe Octobre", an anarchistic experimental theatre and literary group, the Grimault gang also acquired the brothers Jacques and Pierre Prévert, ts and surrealists.

In the early thirties the group, further augmented by Marcel Carné and Jacques Brunius, established a studio to make advertising films. Grimault definitely committed himself to animated film making after 1936, when he established a cartoon studio, "Les Gémaux", in partnership with André Sarrut. The reputation he rapidly earned as one of the finest animation artists in income Europe was sustained after the film. war with films like L'Epouvanwar with films like L'Epouvan-tail, Le Voleur de paratonnerres rights expired. Grimault was

and Le petit soldat. dapper conductor, happy even in such a popular programme apart from some fluffs in "The Dance of the Hours" and well aware that he could work the LSO at full throttle with such sturdy soloists. John Higgins

note over two decades, and must be rated among the most significant figures of the classic

Treach nim.

The King and Mr Bird is the outcome of a collaboration with Prevert on a project that was initiated 38 years ago. After Lepetit soldat Grimault, and Prevert decided that they would like to work together again, and embarked on a feature length cartoon based on Hans Andersen's The Shepherdess and the Chimney Sweep. In preparation they spent a year writing and sketching ideas for a film which eventually wandered a long from its original source.

When much of the film was already shot, Grimault quarreled with his producers and left Les Gemaux to form his own studio. The film was finished by others, released as La bergère et le ramponeur, and promptly won the Jury Grand Prix at the Venice Festival of 1952. Al-though the film became an instant classic of the animation repertory. Grimault repudiated it totally and began an unsuccessful action against the com-pany. He and Prévert remained nconsolable for the loss of their

A characteristic of Grimault's Another 13 years passed how-A characteristic of Grimanit's Another 13 years passed now-work was his emphasis on the scenario, and on these three films he worked variously with Jean Aurenche and Jacques Prevert, who between them were associated as writers with practically every French film of

the finished film, he continued to work on it until the time of his death in 1977. From the 62minute film released in 1952. the collaborators salvaged some 42 minutes which they recognized as their own; and proceeded to shoot as much new footage again to realize their own first conception.

Now renamed Le Roi et l'oiseau to avoid confusion with the repudiated version, the film finally emerged in Paris in 1980 and soon afterwards won the Prix Delluc

What is most remarkable in The King and Mr Bird is there is no sign of the quarter of a century hiatus in the production of this difinitive version. Every-thing matches: material shot on the old three-negative Techni-colour process blends perfectly with the new Eastman Colour shooting. None of the graphic work has dated; and everything is consolidated by a sympath etic new score by the Polish composer Wojciech Kilar, best known for his work with Wajda and Zanussi. Only the sories are retained from the Joseph Kosma's memorable 1952 score, which was presumably insufficient for the longer

Prevert shared with Grimault not only a taste for poetry, talking animals, fairy tales and

version of the film.

the King, symbol of oppres who seeks to steal the little sheperdess from her true love. The palace that provides the setting for the drama is a

marvellous invention, a mountain top folly that might have been built by Mad Ludwig with help from Le Corbusier and thefts from Venice and Fritz Lang's Metropolis. A voice in the lift that rockets up through its 96 floors announces each in turn as if it were a department store: "... state prisons, sum-mer prisons, winter prisons. The characters, the comedy,

the touches of romantic melan choly all evoke memories of Prévert's cinema. It is a nostalgia that enriches the film's texture, even for those who cannot know its origin, but simply yield to the charm and magic and humour of Grimault's undating moral fairy-

Combining a lot of sex and a little art, in his earlier Turkish Delight and Spetters. The Dutch director Paul Verhoeven discovered a lucrative formula. In The Fourth Man the arty - in the form of a lot of fantasy and dream sequences - rather overwhelms the sexy, even though the film is adapted from a book by Gerard Reve, a Dutch homosexual novelist known for his desire to shock

sleeping with a beautiful woman. Afterwards he stays on in hopes of seducing her fiance; but learns with growing tector that all the former bed-fellows of this true femme fatale have met abrupt and terrible ends.

The misogynist castration symbolism is all too obvious and the visions and dream sequences (including erotic fantasies of the crucifixion) are heavy handed; but the film has pace, a professional look and a good central performance, at once tormented and comic, by Jeroen Krabbe.

The Mikio Naruse season at the National Film Theatre continues throughout the month, and this week includes Lightning, made in 1952. The story is by Fumiko Hayashi, but is central to Naruse's own dark vision of the family as an inescapable trap, devised out of affection, jealousy, obligation; deceit, resentment.

Here the story is about a woman whose three daughters and four sons, all from different fathers, accommodate them-selves in different ways to the snares of home and marriage. It gave Naruse the opportunity to sketch four of his best portraits of women, to explore, in unemphatic detail the atmospheres of lower middle class life; and to end with a touching scene of the resignation and reconcilliation which offsets the pervading pessimism of this ingular Japanese master.

David Robinson

#### Television Hip hop, ooh-ah

Hip hop might have been expressly designed for consumption by Arens (BBC2), so flamboyantly mindless are its already codified forms. Arena. on the other hand, might have been expressly designed to celebrate hip hop: no other series is so perfectly attuned to socio-artistic fads. Egged on by the ever-eager Radio Times which itself had drawn support from a judgment by the New York Village Voice ("could be considered the most significant artistic achievement of the decade"), last night's breathless programme implied that for young blacks in the Bronx the we were introduced first to

the prophets of this millennium (the doggerel-spouting Cassius Clay among them) and then to its current high priest, a ruminative creature in black leather plumage whose odyssey from gang warfare, via a trip back to his Zulu roots, had led him to preach the virtues of pacific musical fantasy. A DJ called Gary Byrd told us the tale, matching his tirelessly near-rhyming couplets to a throbbing background beat:
"And so it became hip to hop/In the land known as Planet Rock.

Dwellers on Planet Rock are easily recognizable. They are often to be seen on pavements, body-popping (see the RT for a definition) to the sound of their ghetto-blasters (see ditto). At moments of extreme exaltation they spin on their heads, all four limbs whirling spiderishly in the air. They make their music out of other people's music, shoving pairs of records rhythmically back against the needle to release rasping bursts of sound. Fantastic? Well, moderately.

The social component in Arena's message was well-worn but still worth repeating. A teenage graffiti artist gazed at the barbed wire fences the authorities had erected round their precious trains: "When I see this it burns me up, so I want to go out and paint".

Painting popping rapping and scratching had apparently reduced the crime rate and greatly increased the self-respect of the young, which could only be a good thing. It would be interesting to see a grown-up programme about it, minus the partisan gush and the ooh-ah Star Wars photography.
Poor Little Rich Girls (ITV)

has been cooked up "from an idea by Maria Aitken and Jill Bennett" for those who like that sort of thing. The in-group reference to Miss Bennett's wonderful performance as Hedda Gabler six years ago was a rather unfortunate note to sound in the context of this upmarket sit-com. Telephone bills (groans!). Husbands (tee hee!). Pet snakes (ho ho!). Busted zips (titter!). Phooey!

them to apply to discharge it. Succircumstances did not exist in the present case and to that extent there was an irregularity.

The present position was that the court was satisfied that there was jurisdiction to make an order against the 14 lecturers as agents of the polytechnic who were in possession of knowledge and that prima facie such an order should be made if it was necessary for the achievement of justice.

What remained to be decided was

whether there were any consider-ations, whether of public policy or otherwise, which would require the court to refrain from exercising its

jurisdiction to make an order for discovery, or, since the order had already been made, would require the court to discharge that order. Mr

Justice Mars-Jones adjourned con-sideration of that aspect to a later date. At that further hearing the

The police officer had seen the appellants walking along a street and had noticed what he thought was a record or records maked down inside the appellant. Mackay's trousers. He had saked Mackay what it was, and Mackay had tried to run away.

The appellant Hausamann, on its profilents was that the appellants would not be put in appellant would not be put in appellant would not be put in appellants would not be put in appellants.

The appellant Hausanianin, on Mackay's instructions, had tried to run away with the officer's briefcase, After a struggle, the officer, with the help of some members of the public, had succeeded in detaining the appellants, and as soon as he had done so he had said to them: "You

are being arrested on suspicion of theft".

The Judge had thought, quite wrangly, that in order to constitute wrangly, that in order to constitute an arrest it was necessary for the person concerned to be told in words that he was being arrested. To constitute a lawful arrest, he must normally be told the reason for his arrest at the time of the arrest riself

or as soon as possible thereafter, but the arrest itself could be effected without any words being spoken.
The judge had roled that no arrest had been made before the struggle had taken place and that the appeals

The appellants conceded that he had been in error in his view of the law and that, from the prosecutor's point of view, there had been a breach of the rules of natural justice.

The appellants submitted that they had been tried before a court (the crown court) that had jurisdiction to try them, that had accepted jurisdiction to as to put them in jeopardy, that had embarked on hearing the case on in merits and that had unambiguously acquirted them. Against an acquirtal in size circumstances, they said. in such circumstances, they said, there was a well-established principle that the prosecutor had no right of appeal, except under certain

stantiony exceptions none of which applied here, and they referred to the maxim nemo debet his security pro una et eadem causa.

There were two answers. Both depended essentially on the fact that depended essentially on the fact that
the procedure in the crown court
was not a trial by a court of first
instance but an appeal. The fact that
it was by way of rehearing of the
case, and that it was a rehearing on
the evidence, did not distinguish it
in any relevant respect from the
more usual procedure of rehearing
on documents that was followed in
ordinary civil smorests.

on documents that was followed an ordinary civil appeals.

The first answer was that, although the crown court had emberized on a rehearing on the merits, it had never completed the rehearing. The judge had supped it before the evidence had been complete, and the consequence was that there had been no decision on the merits. Accordingly, it fall into the same class as R v Ridgway ((1822) 1 D & R 132), where Mr lostice Bayley had said, at p 139.

"I am of opinion that the conviction in this case was improperly quashed, and that it is our duty to sand the appeal back to the court of quarter sessions, in order that it may be heard there upon the steries."

ecopardy, in the relevant sense, by a further rehearing by the crown

Lord Justice Donaldson in R v
Wolverhampion Crown Court. Exparts Crofts ([1983] 1 WLR 204,
207) where after referring to the
"overriding principle of English law that no one should be put in peril of conviction twice in respect of the

For my part I accept that that principle is one of the most important principles of English criminal law and that if there is a conflict between that principle and the principle that courts will intervene in order to quast the decisions of infector courts which are obtained by fraud, it is the former principle (that no one should be put in peul twice) which should prevail.

"But in you independ that does

"But in my judgment that does not my judgment mat does is concerned with an acquittal by a crown court on appeal from justices, for this reason. If the crown court decision is quashed, and this will only occur when it is the beneficiar of the crown court's decision wh has been guilty of the fraud, the result will be not that the defendant

result will be not that the defendant is twice put in peril, but that he remains convicted as a result of the first and only occasion upon which he was put in peril."

Lord Justice Donaldson had referred to decisions obtained by fraud no doubt because on the facts of that case the appellants had succeeded in obtaining a decision of the crown court in their favour by perjury. But his remoning seemed to his Lordship to be equally applicable to decisions that his Lordship to be equally applicable to decisions that were

quashed on other grounds.

Moreover, as Lord Brightman had pointed out during the argument, there would be no question of double jeopardy if the Davisional Court's orders of certo-rail and transferous trock offers. rari and mandanus took effect, because the appellants were under no obligation to pursue their appeal before the reconstituted crown

not, the only conviction against them for this offence would be the original conviction in the magistrates' court, given on the only occasion when they had been put in peril. That conviction would stand mlets it was quashed, and if the appliants chose to surrow their appeal to, the reconstituted crown court, they would not be in peril of

Lord Diplock, Lord Keith, Lord

order that it may be heard there upon the merits."

The statement was in principle applicable in the circumstances of comments of comments of comments. The statement was in principle applicable in the circumstances of comments of comm

#### Leave to appeal from consent order

Toleman v Toleman

A former husband was granted leave to appeal out of time from a consent order transferring proceeds of sale of the former matrimonial home to the wife where she had remarried three months after stating, in answer to a-request prior to the making of the order to disclose her intentions, that marriage was not contemplated.

The Court of Appeal (Lord Justice Cumming-Bruce and Mr Justice Park) held on July 11 that Jenkins v Livesey (The Times, December 22, 1983) where leave to appeal from a consent order had been refused, was distinguishable as there had been no obligation in that

intention to remarry.

MR JUSTICE PARK, giving the judgment of the court, said that the issue in the appeal would be not so much whether the effect of the order much whether the effect of the order had been aftered by an event supervening after the consent order had been made. but whether the inference could safely and properly be drawn from the known facts that, at the time the order was made, the wife had misled the husband when, through her counsel, she gave the assurance about her intention not to remarry. That was a question which could only be resolved by the court after evidence had been given before after evidence had been given before

#### Separate offences

It was a matter of fact whether two separate offences under section 143 of the Road Traffic Act 1972 arising out of the use of two vehicles were committed on the same occasion for the purpose of endorsing penalty points under the Transport Act 1981, but it was proper to say that two offences of using two vehicles on the road without a policy of third party insurance contrary to section 143, where the two vehicles were used by the defendant for stripping parts from one wehicle to sepair the other,

HER LADYSHIP said that the HER LADYSHIP said that the mother was not a party to the proceedings although she was entitled to meet allegations made against her. It was preferable in care proceedings to hear all the evidence and the words of Mr Justice Scarman in Bond v Bond ([1964] P 37) applied to care proceedings as well as to matrimonial proceedings.

It was open to the justices to make an order placing the children in the care of the local authority when they knew that it was the intention of the local authority to

the Ford Cargo 1617 shown here is I running at 22 tonnes gross and is packed with fridges, freezers, and cookers.

But, unbelievably, it's a 16 tonne rigid, doing more than the work of a forty foot artic and saving thousands of pounds for the South Eastern Electricity Board

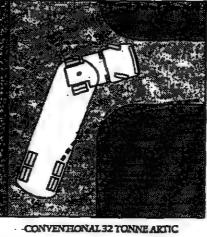

Fordare opening up some remarkable opportunities to save money, with the widest and most efficient range of drawbar configurations on the market.

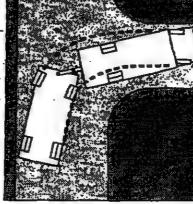

We have National type approval on all Cargo trucks up to 32.5 tonnes GTM. Making the Cargo system the most flexible

More loadspace less tax.

A drawbar offers you up to 50 feet, or more, total body length giving an extra 25% more usable loadspace than an artic. This means you can carry more on every trip, reducing the number of journeys necessary and saving money on running costs.

As well as saving running costs with a drawbar you also save tax. The 1984 budgetgave even greater annual tax savings, against an equivalent weight artic, of up to £1,270° per truck. And that can save a lot of money for a large fleet operator.

CLOSE-COUPLED CARGO DRAWBAR

# More manoeuvrable than an artic.

Thanks to Cargo's superb manoeuvrability and the latest drawbar linkages our drawbar trucks are outstandingly easy to drive, even in urban conditions.

According to a recent Motor Transport article on drawbar handling. "The trailer... followed very well cut-in even on sharpbends was minimal ... At no time during the 50 mile run was I conscious of the length." On top of that a drawbar can bedriven on a class 3 HGV licence.

#### The Seeboard story.

South Eastern Electricity Board are completely reorganising their appliance. distribution around Cargo 16 tonne drawbar trucks and a demountable body system.

Local distribution is handled by a fleet of Cargo 7.5 tonners. They project savings of thousands of pounds a year.

In addition, Seeboard will make major cost savings on new district depots since appliance stores buildings will not be required.

#### Unbeatable experience and back-up.

Other Cargo drawbar operators include Rank Hovis McDougall, the Co-operative Wholesale Society and Associated British Foods.

In fact, Ford's experience in this market is unrivalled by any other British manufacturer. And, naturally, Cargo drawbars have the benefit of the best and most extensive dealer back-up in the country.

Drop in to your local Ford Truck Specialist Dealer,

He'll show you how much you can save by taking advantage of the Cargo drawbar range and the taxman.

"Savings refer to a Cargo 1620 with GTM of 32.5 tonnes

## **SPECTRUM**

Portrait of the girl who answered the controversy surrounding her arrival in Britain by letting her legs do the talking

# How Zola Budd made the running

s a baby, Zola Budd was tiny, smaller than her brothers and sisters had been at birth. The nurses Frank, she would be a "stayer" though for days the family did not know if she would survive. Frank Budd had felt sure that the baby would be a boy and had already chosen the name Zero. He decided to keep the "Z" and called her Zola after the French novelist. Her family lived at Bloem-

fontein on the South African veldt. On her father's side she came from British stock and, on her mother's, from a Dutch religious family who came north on the Great Trek of the 1330s from Cape Province. Within the family Zola's

father had always maintained his links with the "Old Coun-try" by insisting his children speak English at home, though out of lack of choice they attended Afrikaner schools. Zola was steeped in the English way of life. As a girl she remembers her parents returning from trips made to England

"The impression my father gave me of England was of the cold, the greenness and the lovely parks", recalls Zola. "Of course, I miss South Africa, I certainly miss the weather and mybrothers and sisters. Before I came to Britain I didn't know much about it beyond what I had learnt in history classes and most of that seemed to be about Bloemfontein that she got into

the fights they had in South

Her promise showed early: At three and four years she would race away from the taller girls", remembers her father, One day I collected her from school and she said, Tve just won two races. I just said, "Good, you should always try and do that' But I never thought any more of it. Then she kept racing against her friends. She started to win diplomas at school for running. We still didn't think we had a Wunderkind on our hands."

For Zola there was a specific moment when she felt she was destined to become a runner. "if my mother hadn't noticed that my toes pointed inwards when I walked, I might never have become a runner. I was 12 then and had never competed in a proper race outside school

"The doctors found there was a little bone growing out of the insteps of both my feet and these bones were forcing me to walk pigeon-toed. I couldn't have run like that. It seemed a big thing at the time to me but it wasn't a very difficult operation. I'm just glad my mother noticed when she did.

"Now my coach always points me out to the other girls as a good example of how to stand. He's often criticizing some of them for running with their feet pointing at 'ten to

Tomorrow

to be won now

Sortfolio: £22,000

the habit of running barefoot: "I'm always barefoot around the bouse, in the garden, everywhere. It was natural for me to run barefoot on the track. I only wear shoes when I train, because the sharp stones cut my

Pieter Labuschagne, a history teacher who voluntarily coached the children in athletics at Bloemfontein, first spotted her true potential. But when he first met her she wanted to be a netball player. "She might have made the 'D' team at netball. She was so small she would have been knocked from pillar

to post", he says.
But Labuschagne saw where her future lay when he watched her in an inter-schools 12,000 metres race. Zola was running for a rival school. "I noticed her because she

beat one of my own girls for third place. She was 12 and looked nine. I asked my own girl who she was. Then a year later the girl she had beaten mentioned that Zola had

transferred to my school, Bloemfontein Central High. So I asked her to join a cross-country group. She did, but made it clear that she really wanted to play netball. Her mother would see to it that she never missed any of my training sessions, but often she would hang around at the back of the field. She had this independent streak. She wanted me to know that it was

she who would make the

Zola acknowledges Labus-chagne's role in leading her into running rather than netball "Pieter's a man who gives you great confidence in yourself. and he kept telling me that I was a faster runner than any he had ever seen. I hadn't realized it but then I was only 13."

And it was at 13, after the operation on both feet that she broke her first track record, a schools state-age record. At 15 she broke a South African junior record, but her first major achievement came at the same age when she knocked 9.9

seconds off her own best for 1,500 metres with a time of 4 minutes 9.1 seconds, just half a second off the South African senior record.

Her progress became unstop-pable, helped by her extraordi-nary seriousness. Even at 17 she had shown no interest in fashionable clothes, make-up and pop music. She says she is the outdoor type, quite content in shorts and T-shirt. "Make-up? In hot weather at

home it got all sticky and ran down my face. I don't wear it I have a few dresses, but I'm happiest in running gear. I don't have to worry about my diet. I cat what I like because I burn it off running."
She is usually in bed by nine

because she's always up for practice soon after dawn breaks. From high school she matriculated with three distinctions, one in history, and won a place at the Orange Free State University, studying political science and the native language

seen driving to campus in a Bakkie, a second-hand pick-up truck she bought herself out of prize money paid into her trust fund held by the South African Amateur Athletic Union.

This fund was later frozen by the SAAAU which felt betrayed by her flight into a new land. ibsequently she also gave up her studies at the university because she couldn't concentrate on them as well as running: "Running is where my future lies. As my coach says, I can always go back to studying, but once I'm past about 28 it will be too late to continue

The training ritual established over the years was for her father to drive her into town from his farm for a 5.30am rendezvous at her coach's apartment. From there, it was only 300 yards to Naval Hill and the 10-kilometre course through the game reserve on the table-flat top, where she ran under the gaze of springbok and

"We had to run then because marriage of convenience from a of the heat in the rest of the day. Pieter had to be at school by eight o'clock", says Zola. Often she would take breakfast with her elder sister, Estelle, at her apartment in town before attending morning lectures at her university. She would be out running again on the veldi around her home in the afternoon and along the over-baked roadway of Route 30 towards Bloemfontein.

The work paid off. In 1983 she won six national athletic championship titles, set five world junior records and an all-African record, five South African senior records and was chosen as South Africa's Sportswoman of the Year. She is unbeaten in races of 1,000 metres and above since November 1981, a period in which she has won more than 70 races. And the year culminated in her becoming the fastest woman on earth at 5,000

metres race for women at this year's Olympic Games, there will be in Scoul, South Korea, in

On January 5 this year Zola Budd knocked 6.45 seconds off Mary Decker's world record for 5,000 metres and suddenly she was the centre of massive international interest, Ironically it was Decker's picture she had always kept on the wall of her bedroom.

At home, her father found he was constantly answering the telephone. It could have been Puma, the sportswar maker, asking solicitously: "Does Zola like our products? Has she signed with anyone yet?" The race to be involved with Zola was well into its evide.

was well into its stride.

But she was stuck behind South Africa's political barriers. Within the country she had only the clock as competition. She would never be able to run in Springbok colours at the Olympics or in Europe. In March at Port Elizabeth she finally made up her mind that her future lay overseas. She ran only the fourth fastest world time over 5,000 metres and the crowd of 13,000 groaned with disap-"That really upset me. They

had started to expect me to break records on my own every time I ran. I felt I had let them down. I knew I couldn't go on running this way. I had to go where there was competition and Britain was the answer."
Her spreading fame produced nnexpected responses. One shock was a proposal of a

DOWN

65-year-old Birmingham man, Henry Allen, passed to herfamily through a newspaper. "Ifound that very embarrassing as any girl would." A day later one-of the family's black servants: a sked: "Miss Zola you're not... going to marry that old man, are you?" Zola's comment on the cheeky but well-meant offer to give her British citizenship was: "I think I am too young for marriage".

he decision was made for her to apply for British citizenship, basing her case upon her paternal grandfather, who was born in Hackney, London, then emigrated to South Africa, Opponents of apartheid in ritain objected to the speed. with which her application was dealt with and she became the centre of an ugly political row.

She answered her critics with:

"Apartheid and other things began before I was born and will probably be resolved long after I die. In the meantime I want to run and I will run with or against anyone of any colour, anywhere at any time and may the fastest win.'

One thing she does owe to South Africa is the altitude. Living all her life at Bloemfontein's altitude of 4,568 feet above sea level is thought to be one of the factors contributing to her phenomenal running ability. Like the Kenyan and Ethiopian black stars of longdistance running born atrasimiliar altitudes in Africa;" Zola's lungs have had to become more efficient than average, making the best use of the limited oxygen in each breath. Indeed her times at altitude in Bloemfontein; and Pretoria. suggest that even her best times. now will come tumbling down; as she runs more often at sea

"There is a 15-second inter-"val between her best 3,000 metres at high altitude and at sea level", says Labuschagne.
"If she ever runs a 1,500 metres
at sea level we might even see her beat four minutes."
Zola comments: "I haven't

run yet as well as I feel I can. Pieter thinks and I think I can go a lot faster. My best will come at longer distances."

Adapted from Zola. The Official: Biography by Brian Vine, to be published by Stanley Paul Ltd on July 16:

The baby Zola held by her mother. Tossie, at her christening. Had she been born a boy, she would have been named Zero. And Zola with the family wire-haired terrier, "Franier

# FRIDAY PAGE

# New hope for the young innocents

After 100 years of trying to prevent child abuse in Britain, the National Society for the Prevention of Cruelty to Children has

launched a £12m campaign to establish a nationwide child protection network. In a mood of optimism, the society wants to run a preventive service for families in distress

rather than respond, as in the past, to child abuse by taking the victim away from the parents. Caroline Moorehead reports on one couple who have already been helped

The first time Susan met Peter was over Sunday tea in the suspenser of 1968. They were both 13. Susan's father, divorced for many years, insisted that she accompany him to meet. Peter's foster mother, whom he was planning to marry. By the spring of the following year Susan was pregnant. "I thought I could manage. I wasn't bothered. We both wanted children." Peter adds: "Before it was born we always called it a boy I wanted a lad." They boy I wanted a lad." They didn't get married, "In any case, my dad wouldn't have let me."

That autumn, Susan and Peter moved from Nottingham to Suffolk to live with her mother. Peter had lost his job and was fighting badly with both families. His foster mother had taken to referring to Susan as "that prostitute" and her older sister wouldn't speak to her in Suffolk they hoped for a new start. It was while home in 33 Nottingham for Christmas with Peter's aunt that they got a that they were no longer welcome with her. Then, early in January, six weeks prema-· ture Adam arrived.

"He was small, but he was strong and he slept all the time", says Susan. They had no choice but to stay with the aunt and she and Peter, who couldn't and cease. "But Peter was so pleased with the baby. He took him everywhere. He changed him. I didn't really have much to do with him; it was always Peter. When the baby was just six weeks old, Peter threw him up him again. They noticed that we'd have him again," says Adam's right arm looked a bit Peter. "We really thought we limp. They called a doctor. At would." the hospital the X-ray showed

explained by saying that he had fallen awkwardly, into his father's arms. But when they looked more closely at the Xrays, they also found nine broken ribs and a fractured leg, all partially healed, suggesting the breaks had occurred at different times over the pre-

"The next day we were taken to the police station", says Susan. "We were put in different rooms. I was with two blokes and a woman. At first they were quite kind. Then they started shouting at me, saying they'd beat me if I didn't tell the truth. One of the blokes slapped me. At 9 o'clock they let us go

vious three weeks.

Adam went straight from hospital to a foster home. For the first few months Susan and Peter visited him: "But after a bit, he didn't know who we were. He wouldn't let me touch him. Icouldn't pickhim up.

"They told us that if we went

convicted on four charges of grievous bodily harm. The judge, taking into account that he had just turned 17, put him on probation for two years. Soon afterwards, they learnt that the had put was to go out for adortion. The judge of the probation of the probation of the put of the probation of the probation of the put adoption. "I just couldn't believe it," says Susan.

Six months later, Susan was pregnant again. "I had hated Peter, I didn't want a baby. It didn't seem right, with Adam put away." But Peter wanted another child, their relationship was rocky, and a friend had told her a new baby would make her a new baby would make them happy again.

It was at this point that the NSPCC entered the case. Nottingham has one of the society's 14 special units, designed specifically to deal with child abuse, and set up in the early 1970s after an American paediatrician from Denver called H. Kempe had coined the emotive term "battered baby syndrome" to joit the public into taking note that great number of children's injuries were in fact wrongly being diagnosed as accidental.

Today, says David Jones, the unit leader, some four cases on week of injury inflicted on children comes to their attention. Many are minor - bruises, slight burns - but at least one child a year dies, and that is almost always a baby. Nationalthe fourth commonest cause of death among infants. Five thousand more are seriously njured by those who care for them - so severely many suffer permanent brain damage.

Once the NSPCC became Susan and Peter regularly, both to assess whether a second baby would be safe in their care, and A year later, Peter was to help them prepare for the fear of what he might do to her, to cover their new house.

While the subject of battered babies remains intensely com-plicated, certain particular characteristics among many battering parents have now been indentified: Peter, fostered since birth with an unhappy and nomadic background, and Susan, severely lacking in self assurance, parents too young of a premature, illegitimate baby, fall well into the vulnerable category.

Peter says the NSPCC, both in helping them to find a house and in-reassuring them about the future, were extremely important. When Clare was born, someone visited them

ne 12 now 1 \ moninz o good tempered neat baby who goes willingly to either parent. has no work and doubts he will Peter says that he has lost his ever find a job that pays enough

removing the family from the Central Child Abuse Register they hold for the area. Later this year the register will be extended to include not just battered children, but those sexually abused and neglected, numerically a far more considerable problem but harder to qualify This year, the society's centenary, will see a streamlining of its many services. These services are no less necessary today than they were when the

its inception for legislation against cruelty to children. To some extent, Susan and Peter's story has a happy ending. Others on the red-brick estate where the couple live know nothing of the past. And et a sad note remains. Neither Susan nor Peter is yet 20. Peter

society lobbied so vigorously at

Susan says emphatically that she has no wish to do so. Susan longs to work herself, perhaps in a boutique, but says Peter will never let her. "I don't really want a lot out of life. I used to dream of being a social worker, but that's all gone down the drain with Adam.

"I think we could have kept him - after all, I hadn't hurt him - but that would have meant giving up Peter. I couldn't do that, could I? We just didn't have any back-up.

"I suppose if Adam hadn't been premature, maybe that would have been different. I don't know. It's not as if we planned to hurt him. It just

 The NSPCC was granted a Royal Charter in 1895 but has never used it. It can be contacted at 67 Saffron Hill, London ECIN 8RS. Telephone

# Twilight robbery on the green

After the play at the Bush Theatre in west London, I sat outside the pub (the evening of Monday July 2 was hot) for half an hour or so with a friend whom I'd taken to the press night. Doug Lucie's Progress was short, and I didn't have to write my review until the Astrid for nealy 20 years, but a fellow critic had taken her to be my wife and there was, absurdly, a degree of embarrass-

As Astrid and I sat outside the pub, the Shepherd's Bush traffic thundered by. We tried, in a short time, to catch up on our respective lives over Ile last

A man with a face like an overdone baked potato lurched above us and asked, most conrteously in a sozzled way, if we could spare him a coin, I dipped my hand in my pocket and handed him 10p, which made me feel both philanthropic and

Astrid and I kept talking and the man continued to swing and lurch over us, thanking us

At about 10pm we parted. Astrid lived near, and barned into Goldhawk Road. With some difficulty (the traffic is relentiess), I crossed Shepherds
Bash Green and began to walk –
as I had done many times
before, after a visit to the Bush – across the common towards the

The sky was still quite bright, and I was thinking of Astrid, our lives in Edinburgh more than 20 years before, when I noticed without paying much attention, a man get up from a bench to the left of the path I tred and who waited at a brick trad at a bench to the left of the path I trod and who walked, at a brisk pace, more or less in the direction I was going.

He was stocky, sturdy, scruffy and unshaven and proved to have an Irish accent. Suddenly he was to front of me, close up: "Can you give me a pound?" It half-crossed my mind that this was no way to beg a coin. I replied, that I could not. (For once my wallet was well-laden, my wife had slipped me the housekeeping before going on holiday, and I was doling the cash out to the children on a daily basis: there lodged about £60 close to my

quickly than I could think - he jostled me as I tried to push past, assuming I'd succeed: I was, by an inch or two, taller than he but he was heavier. His my Adam's apple, pressed it and pushed and I was thrust backwards on to the grass, losing my spectacles.

#### FIRST PERSON

Giles Gordon

Somehow the two others who had been sitting on the seat beside him were behind me, and I was pinned to the ground. Swear words and expletives were spat in my direction with venom. Without my glasses, I could see little. Had I thought, perhaps I'd have said: "Take my wallet, let me be," As it was, I thrashed about on the groun determined not to lose.

Laughably, my first concern was for the notes I'd taken at the play: the pages of my shorthand notebook were strewn about. Then instinct persuaded me to turn on to my stom and with right elbow tucked in I tried to guard the wallet, I was surprised, as someone who takes no exercise, how strong I was, relatively speaking. The first man held my throat, so I couldn't cry out, while the second man held my arms.

Eventually they rolled over and the woman took my wallet. She ran towards the Shepherds Bush Road with it taking my Barclaycard, cheque card, and various membership cards. The men let go of me (at least I wasn't kicked for luck) and I scrabbled around, trying to find the notes of my review. Then I saw my glasses and stood up, groggily. I watched the three run away, towards the

distant traffic. I made it to the nearby police station, and I was driven around the area to see if I could identify the brave trio. I could not. The lars, and said he assumed my assailants were coloured. I said they seemed to have Irish accents. "Are you sure that wasn't a con?" Perhaps, be confided, they were pretending to be Irish. Maybe they were pretending to be white, too, I

They'd left, in another pocket, my Underground pass, and as I travelled home some ba-leathered, sub-Hell's Angels handed out a leaflet. "Policing London", it began, "by coercion. The liberties of all Londoners are again under attack. Protect London: oppose the police Bill."
The man sitting next to me muttered angrily and asked what I thought. I hadn't read the new Bill, I said.

At ten to midnight, back home, I tried to phone Barciay-card. The number rang and rang. I dialled again and woke Northallerton (one digit different), who said not to worry, it happened eight

#### MEDICAL BRIEFING

# Sugaring the Pill over breast cancer

2 (1.27) | 1.17

- #J

: 200

The biggest study yet of oral contraceptives and cancer has provided some reassurance for women taking the Pill. It has

failed to show any link between the combined (oestrogen plus progestogen) Pill and breast cancer. Last October brought the disturbing news that taking the combined Pill from an early age could lead to breast cancer. Dr Malcolm Pike, now director of the

Imperial Cancer Research Fund Epidemiology Unit, at Oxford, together with colleagues in California, had evidence to suggest that taking certain Pills before the age of 25 increased a woman's chances of developing the disease. They singled out-Pills which contained so-called "potent" progestogen hormones as being the most risky Women under 25 taking these Pills for five years were four times more likely to get breast cancer, it was said. In the heated debate which followed, Dr

Growing up ... and up

With the memory of John McEnroe's triumph inspiring many amateur tennis players to try harder, there are a few who Since 1904, the taller American presidential candidate has won in 80 per cent of elections and according to Dr Paul Saenger, associate professor of paedia-trics at the Albert Einstein College of Medicine, New York, rest and physiotherapy. But this some aspiring parents who are either short themselves or find sufferers and their doctors that their children are unexpectedly small, are now requesting human growth hormone treatment to improve their children's career chances.

Growth hormone is already

available from two companies who provide human extracts obtained at autopsy, primarily for treatment of hormone gradully returns, but may not if the course has to be repeated. As the correspondent point out, this may be unsightly and deficiencies. But Genentech one of the leaders of the genetic engineering field - are awaiting approval from the Food and Drug Administration to market a synthetic variety, which Dr Saenger believes may be more appealing to concerned parents and lead to an increase in

Ethics aside, there is no firm cvidence that the treatment always works with naturally short children - and you have to treat a child for at least six months to see if it is successful. A report in the New England

Journal of Medicine concluded: we have more "Until indiscriminate knowledge indiscriminate treatment of short normal children with this potent hormone is premature and unwarranted."

Klim McPherson, from Oxford Univer-sity's department of community medicine and general practice, also detailed preliminary results of research which suggested that women who take the Pill before their first full-term pregnancy may risk breast cancer. The findings implied that a woman taking the Pill-for more than four years before her first child increased her chances of developing breast cancer

> But now a huge survey at the US Centre for Disease Control in Atlanta has failed to substantiate either study. The Cancer and Steroid Hormone (CASH) study group there has looked at the Pill-taking history of nearly 6,000 breast cancer victims and the same number of healthy women of s similar age (20-54 years).

... It emerged last winter that Dr Pike's results were based on an out-of-date method of assessing the potency of the progestogen hormones in the Pill. Yet even when Dr George Rubin and colleagues in Atlanta analysed their data using the same criteria, they found no evidence that Pill-use before the age of 25

No smoking: the benefits

7.000 lung cancer patients. only slightly improved their The study, published in the chances of avoiding lung cancer

ing to a filter-tipped brand will

Cutting down on British Medical Journal, shows

Long-term smokers who give

up, people who cut down or switch to filter-tipped cigarettes, only slightly improved their

or taking pills containing any particular progestogen resulted in breast cancer. Similarly, a look at the data using Dr Klim McPherson's method did not highlight any increased risk as a result of

using the Pill before having a child. Overall, Dr Rubin could find no evidence that the Pill causes breast cancer no matter how long a woman takes it, at least in the 20-54 age group.

The group's findings cannot entirely refute any possibility that the Pill causes breast cancer. But there is no doubt they make a very significant contribution to the growing evidence to the contrary. Meanwhile, none of this confirms or

refirtes the other fear - that the Pill could increase a woman's chances of developing cancer of the cervix. Although a World Health Organization (WHO) study due out soon is not expected to hold any really bad news on this subject, doctors still fear that the link with cancer of the cervix may be real. Any woman on the Pill should therefore make sure she has a regular cervical smear

#### Beware of the dog

A survey pub-lished in last month's Journa of the American Medical Association suggests that each year more than 10

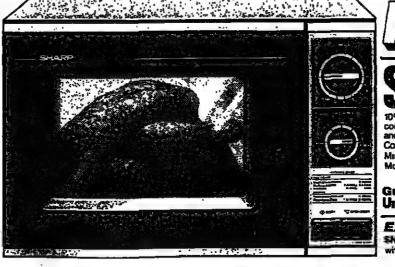

children out of every 1,000 aged under 14 receive serious dos bites on the face that need hospital treatment. The most severe injuries, and potentially the most disfiguring ones, were to children under ten, especially the under-fours.

That these injuries are caused because a youngster pulls a mongrel's tail or teases it seems unlikely, since as few as 5 per cent of bites are thought to be made in anger or fear.

More probably the child becomes innocently involved in rough-and-tumble between two dogs. The injuries, often to the lips and cheeks, are caused accidently when the dog excitedly bites the child - as if it were worrying another dog. Warning a child never to go

too close to a much-loved pet's jaws makes sense but is difficult to enforce. If you have young children and a dog, it may be wise to choose the breed carefully: small pedigrees and hounds tend to bite less than young, large working and sporting breeds.

#### The axeman cometh

Mown in a hit-man from Australia to wield the axe on London's four symphony orchestras. Neil Duncan, whose post as "musical adviser" has still not been officially announced, has been told to lop £280,000 in Arts Council grants from the orchestras. effectively silencing one, as outlined in its recent blueprint, The Glory of the Garden. Duncan, who left the Lyric Opera in Queensland as its general director to take the job, was apparently shocked when, on arrival, he was asked to name the losing orchestra by the end of this month. Although he has staved off the evil day, he tells me ominously "The council doesn't want to postpone indefinitely coming to a decision..." His contract runs until next March....

#### Barking for Ken

The GLC, meanwhile, continues to outwit Patrick Jenkin and Co. In the Commons on Wednesday junior environment minister Sir George Young hinted at changes in the local government act to limit what the GLC can spend on "propaganda campaigns". Too late, Last Friday, according to a document in my according to a document in my possession, Red Ken and key Labour cronies met privately at County Hall and discussed the possible rapid transfer of a sevenfigure sum to the Labour-dominated Association of London Authorities. To be made, presumably, as a grant for "non-specific purposes", it would be anything but. The minute the GLC is muzzled, the ALA would take over the Save the GLC

Confidentially . . .

My disclosure that ITN's Glyn Mathias is standing for chairman of the parliamentary lobby on an on-the-record-briefing ticket has, I'm told, sent seismic palpitations through a body so secretive that even election manifestos remain undeclared. The Standard's Robert Carvel, who had proposed Mathias simply on a Buggins's turn principle, apparently withdrew his support immediately, horrified at a proposal which threatens to scupper a surefire source of stories in time for evening paper deadlines. Traditionalists are now believed to be rallying to the flag of the Birmingham Post's John Lewis, who is bent on preserving the status quo. Sources close to the lobby say it's becoming the most exciting campaign in years - so much so that Lewis supporters are sprouting badges proclaiming "Lewis on Lobby Terms" and "Lewis Off The Record".

 A deaf and dumb production of West Side Story opens at the Arts Theatre in London on July 25. The songs in sign language. Let me add, to silence sceptics, that they have aiready successfully performed The

Details of Operation Tabarin – the secret 1940s' campaign to check Argentine penetration of British Antarctica – are to be disclosed despite a recent ban on publication under the 30-year rule. The details. contained in an article by Dr Peter Beck of Kingston Polytechnic, were withheld from publication after the privately funded British Antarctic Survey Club, which commissioned it, discovered that certain files had not been released under the rule. Contrary to reports that it will appear in *Polar Record*. I can reveal that the disclosures will now appear in Dr Beck's forthcoming book, The International Politics of Antarctica.

BARRY FANTONI

Whatever happened to the winter

 Hodder, publishers of Brian laglis's recent book on the para-normal, Science and Parascience, are obviously more sceptical than he. An American foundation which wrote a copy was told the book does not exist.

#### Backing

As Arthur Scargill awaits delivery of his NUM-paid £19,000 Daimler, his striking miners are astonished to find Cambridge academics repleneshing their coffers. Joseph Needham. ex-Master of Caius, and Professor Raymond Williams, Fellow of Jesus, are among 60 dons who have signed a declaration supporting the miners and given more than £1,250 to their hardship fund. What's more, they have invited Scargill to Cambridge to

Assuming, as we surely may, that Miss Sarah Tisdall has been a model prisoner, and done nothing that might result in any disciplinary proceedings being instituted against her, she will have earned the maximum remission of her sixmonth sentence (one-third), and will therefore be released very shortly,

after serving four months. I have nothing to add to what was said on various hands at the time of her trial and appeal; I believe the sentence was much too severe, and although four months inside is hardly a life sentence, and in her case it was served in an open prison, it can hardly have been anything but very unpleasant for her. But she has served it, and she is now entitled to the protection of the principle (imperfectly applied, to be sure, but very important none the less) which lies behind our penal system: that anyone who commits a criminal offence and is punished for doing so wipes the offence off the state by undergoing the punishment, and starts again as though he or she had never been in the newspapers at all.

Thus let it be for Miss Tisdall; but I fear that for her it will be very unthus, very unthus indeed. So much so that those with access to official underground bomb shelters would be well advised to avail themselves of their privilege, those who have long been meaning to take a world cruise on a ship devoid of any means of two-way communication should embark at once; and those who are not in a position to do anything like this ought, if they are prudent, to close the curtains and go to bed, taking care to pull the blankets well up over the head.

I do not think that many of even my far-steing readers can have any idea of what is going to happen. First, there will be the release itself, word will have got to interested parties well in advance, and there will be an immense throng, festively attired and almost certainly incorporating at least one brass band, waiting at the prison gate. For a few hours, those in charge of cruise missiles will be able to move them around the countryside at will, for the entire Greenham posse will have gone to welcome their heroine's release from durance vile, accompanied by thousands, perhaps tens of thousands, of sympathizers. Mr Wedgwood Benn will be there, eyes roving for the television cameras, Monsignor Bruce Kent and Mr E. P. Thompson will be well in evidence, the former ready to lead the crowd in a rendering of For all the Saints, Who from their labours rest, the latter no less prepared with a speech comparing her to the Tolpuddle Martyrs, Mrs Pankhurst, Dimitrov, Joan of Arc, Rosa Luxemburg, Fidel Castro, Vanessa Redgrave, Byron, Shelley, Marie Bashkirtseff, Galileo, Wat Tyler, St P. Thompson will repeat his prison-Francis of Assisi, Beethoven, Oliver

Bernard Levin

# Such shocks in store for Little Miss Mole

Before going to jail: perhaps she should stay

Cromwell, Aneurin Bevan, George Sand, Martin Luther, Socrates, Pastor Niemöller and Dame Nellie

She will then be draped with garlands, carried shoulder-high to a flower-decorated open car, and driven to London; in the car will be a message from the editor of *The* Guardian, assuring her that ample financial compensation will be awaiting her as soon as the details

can be arranged with her solicitors. Arriving in London, she will be accommodated in a suite at the Savoy, where for the next few hours she will receive a stream of visitors come to pay homage - among them bishops, MPs, professors, the Mss Greer and Steinem, and delegations from the World Peace Council, the Archway Road-Widening Protest Group, the Non-Aligned Nations and the GLC. The flowers brought by all these admires a will state of the state of by all these admirers will make a pile several feet high, and she will ask, with a sweet smile, that they should all be sent to the Great Ormand Street Hospital for Sick Children. Throughout the afternoon, television cameras and radio microphones will be in constant attendance, and she will be interviewed by, among others, Mr Melvyn Bragg, Mr Terry Wogan, Mr Kenneth Robinson, Mr John Pilger and Mr Austin Mitchell, MP.

At the banquet in the evening, E. gate speech, this time comparing her

in addition to Jesus Christ, Abraham Lincoln, Ho Chi Minh and Marie Stopes, and Monsignor Kent will, after saying grace, lead the singing of How bright these glorious spirits shine, Whence all their white array? The banquet will conclude with a bombe surprise, from which Mr Michael Meacher will emerge and allege that Miss Tisdall was

awaiting trial When she gets home, this time carried on a palanquin, she will find an immense pile of letters from publishers wanting her to write her memoirs, and from the editors of newspapers wanting to serialize the

beaten up by the police while

There will also be documents giving her the Freedom of Liver-pool, Sheffield, Islington and Barns-ley, notification of her appointment as an honorary member of the Swedish, Tanzanian and Greek parliaments, and 17,881 proposals of marriage.

Next morning, she will receive visits from Mr Andrew Lloyd-Webber, to ask her to star, as herself, in the musical he is writing about her, under the title Sarah!, followed by representatives of Central Television, to invite her to write and present a series of 13 one-hour programmes on her life; the excitement and strain of the previous day may have meant that she has risen late and thus not had a

advertising suplement on her in The

Offers of employment will arrive Offers of employment will arrive in their hundreds by every post. The BBC, the ICA, the Royal Court Theatre, the British Council of Churches, the Equal Opportunities Commission, the National Union of Mineworkers, the ILEA, whatever organization Mr Des Wilson will be running by then – these and many more will be anxious to add her to their staffs; at the same time, the their staffs; at the same time, she will receive offers of a lifetime's free supply of furniture from Habitat, of underwear from the Beauchamp Place Association and of meals at

And so it will go on. Sonnets will be written to her by Mr Adrian Mitchell, a locomotive will be named after her by British Rail, she will be invited to stand for Parliament on a CND platform, and the Labour candidate for the seat will promise to withdraw in her favour if she accepts the nomination. Annigoni will be commissioned to paint her portrait and Mr Oscar Nemon to make a statue of her. Mr Dennis Potter will write a television play about her, and Sir Richard Attenborough will make a film; Colonel Seifert's next office block will be called Sarah Tisdall House; at the Chelsea Flower Show there will be new strains of roses, carnations, tulips and lilies bearing her name, and scholarships will be founded at Dartington with a similar designation, she will be invited to open shops; to endorse shampoos, to model clothes, to address the British Association; her name will be linked with that of Prince Andrew, Prince Edward and Prince William; she will be given honorary degrees from the universities of Essex, Reading and Keele, streets in Hampstead will be named after her; and no doubt, quite certainly, beyond argument, ineviably and without fear of contradiction, she will be awarded the Nobel Prize for Peace, together with, if she should accept one of those pub-lishers' offers, Literature as well.

The effect on those of us whose admiration for her is limited may be, or more precisely may not be, imagined. As I have suggested, the bunker, the world cruise or the bedelothes must be our recourse But as for Miss Tisdall herself, I can only suggest that she should at once commit a couple of unprovoked and particularly brutal murders. True, if four months in prison was un-pleasant, a life sentence would be enormously more so. But I suspect that, if she is wise, she will realize that it will be far, far better than enduring the din, the heat, the glare, the manipulation, the flattery, the lies, the propaganda, the deceit, the tedium, and above all the heaps, the piles, the mountains, the rivers, lakes, seas and oceans of cant, humbug and hypocrisy that are now lying in wait to engulf her.

# Why Heseltine laid that ambush

Prime Minister's meeting with the Chiefs of Staff last week, at which they made formal objection to some of Mr Heschine's plans for reorga-nizing the Ministry of Defence, must have seemed like a pleasant Sunday-

school outing... To resort to their ultimate deterrent to prevent another mar-ginal increase in political control (which is what Mr Heseltine is basically proposing) would not have any credibility even in the Tory party. We have come 2 long, long way from 1916.

Nevertheless the whole incident is important and interesting for several reasons. Even at the most trivial level, it casts a good deal of light on the strengths, weaknesses and general prospects of Mr Heseltine (who is, after all, commonly supposed to be one of the possible contenders for Mrs Thatcher's succession). First of all there is no doubt that he has executed a brilliant tactical coup. By the simple expedient of writing his own reorganization plan and telling nobody else about it until it was published as an "open government" discussion document in March, he ambushed the Chiefs completely.

It is worth noting with some care his artfully ingenious explanation of this manocuvre to the Commons Defence Committee: "I could have gone through the process of produc-ing a document worked out in considerable detail within the Ministry which would have been widely available within the Ministry and therefore widely available outside the Ministry and would have created little short of an oproar However I decided the best way forward was actually to work within the very small environment and to put forward what were essentially my own ideas and to recognize that they would be the subject of analysis criticism and, who knows, possible change".

That "who knows" is a small masterpiece; for in fact everyone knows that while there may be changes at the margin, the main outlines are, in the nature of things, irrevocably fixed by the minister's public commitment to them.

Ruthlessness, then; together with extreme adroitness in bureaucratic n-fighting and excellent public relations, are shown once again to be the main Heseltine assets. He has also displayed his habitual obsession with "management" questions, spending, according to his own account, countless hours talking to relegious traffin an effort to relatively junior staff in an effort to work out the organizational struc-

ture of the ministry.

There is nothing intrinsically wrong with that. Yet funnily enough this "managerial" approach looks curiously old-fashioned - the style of Tony Benn at the Ministry of Technology, which was itself derived from all those Californian analysts like Hitch and Enthoven in the Pentagon of the 1960s.

Moreover, there is a definite price in time and attention to be paid for it. Members of the Commons Defence Committee found his evidence to them on the Defence Estimates disturbingly superficial on questions of strategy and policy and as even the Daily Telegraph reported, he was cut to ribbons on his overall defence budget arith-metic by Dr David Owen in the recent defence debate. If Mrs Thatcher were to move him in the next shuffle, he would, as Dr Owen

remarked, be free at one bound; but the reorganization plan so obviously needs to be followed through by its inventor that he has made his own release more improbable before his sins, if that is what they are, catch up with him.

This last question raises the most substantial implication of the reorganization affair. The point is this. It is rapidly becoming clear that another major reassessment of Britain's defence commitments will become necessary within a couple of years if the sums are to add up again. Mr Heseltine or his successor cannot meet the cost of the Trident nuclear missile programme, and the cost of major conventional expenditure for the defence of Europe and the Atlantic (to which we are committed), within present budgetary plans. Even if this knot is cut, for the time being, by the abandonment of Trident the chances are that before the end of the century Britain will be forced to abandon its most cherished military totem - the idea of a balanced, "all-round" defence capability - and the choice will have to be made between a predomi-nantly land strategy (based on forward defence in Germany) and a predominantly maritime one.

Such a choice would have been virtually impossible to make under the defence organization that existed before 1981, because until the reforms then brought in by Mr John Nott and Admiral Lewin, then Chief of the Defence Staff, the chiefs of the individual services - army, navy, and RAF - were equal in rank and power. As the former Cabinet Secretary, Lord Hunt, remarked in the House of Lords the other day, it was a miracle this system worked at all, for it abandoned policy to the struggle between vested interests and almost invariably ended in bland compromise between them,

The Noti-Lewin reforms made the Chief of Defence Staff the principal adviser to the minister in his own right rather than simply the representative of a collectivity. They gave him his own Central Staff, and thus made central choice-taking easier, but not compulsory in that they still left the individual service chief responsible directly to the minister for his own service across the whole range of resource allocation and strategy.

Is this his motive, then? Not, I imagine, explicitly. It is much more a question of his own temperament and the irredeemable tendency of able and ambitious ministers, however committed in theory to devolutionary principles, to increase their own power and create means for increasing it still further - all this combined with an awkward political predicament

Mr. Heseltine knows he has been handed a poisoned chalice by Mrs Thatcher. If he goes down in Tory mythology as the man who decimated the armed forces he will never become prime minister. If, on the other hand, he tries (as at present) to keep within his budget with the help of mirrors, he cannot be sure of getting out before the sleight-of-hand is exposed. All he can do if he cannot be honest is to screw the maximum savings and revolution" and see to it that if unpleasant choices are finally forced on him he is in control of the situation and can impose his own solutions with the best gloss upon them. It will be interesting to see whether he is lucky as well as adroit.

## Richard Lowenthal on one of history's great imponderables

Goering, Himmler and Hitler outside the rubble of the Fuhrer's headquarters soon after the explosion, Right, Count von Stauffenberg. who planted the bomb. Centre, a plaque to the conspirators in the courtyard of the former Defence Ministry in Berlin

The conspiracy that culminated, on July 20 1944, in Klaus Schenk von Stauffenberg's attempt on Hitler's life proved a failure within a few hours. The Führer survived the bomb explosion at his headquarters and the orders sent by the conspirators' military command centre in Berlin for disarming the SS were not followed. The war in Europe continued to claim its toll until May 1945 - the dead including thousands of victims of Hitler's terrible revenge. In the end, Germany surrendered. The sacrifice of the men of July 20 had been in

vain - or so it seemed. The drama of that day has left in the minds of many contemporaries, and not a few historians, a seemingly unanswerable question: if the plot had succeeded, what difference would it have made? The conspirators could not have prevented unconditional surrender, still less could they have achieved a separate peace with the western powers, as many of them had originally hoped and as the Soviets suspected at the time and still regard as the true aim

of the conspiracy.

The western allies had long been firmly committed against a separate deal with any German government, and had for years refused to react to the messages that reached them from the conspirators. In the final phase the men around Stauffenberg had abandoned those illusions and decided that the supreme risk must be taken without any enouragement from the allies, not only to end the war but to demonstrate their moral determination to cleanse their country of the crimes of Hitler and

his followers. The big question, then, is not what difference Hitler's death might have made to the outcome of the war but the impact the conspirators would have had on post-war Germany, in which they might have played a leading role.

To attempt to answer the question, we must first form a realistic picture of the breadth of the conspiracy and the variety of its composition. Hitler's first speech after the explosion and the subsequent Nazi propaganda described it as the action of a small and isolated clique of officers. In fact, as research has shown in the past 40 years, and as a few of us knew earlier, the conspiracy was based on PHS the broadest cooperation of resist-

# If only the July plot had succeeded...

ance groups from widely different of trusted reprsentatives in the social origins and political tendencies that had ever occurred in the Third Reich: soldiers and civilians, men of a generation still rooted in the old imperial Germany and younger men formed in the crises of the Weimar republic, nationalist conservatives and democratic socialists. Protestant and Catholic churchmen and militant trade union

Among the army officers and the civilians alike, political views of the future differed strongly according to generation. Most of the older men nerals such as Beck, who had been head of the general staff until he clashed with Hitler in 1938, and civilians such as Goerdeler, who had been active before and during the war in writing memoranda at home and seeking contracts in Britain were from the start opposed to Hitler's gamble on war and looked for an authoritarian restoration of

the rule of law under a monarchy. But the younger officers most active in the final phase, such as Stauffenberg and Tresckow, and the Vounger intellectuals of noble origin in the Kreisan circle, such as Moltke and Trott, had moved away from carlier nationalism to belief in cooperation among the European istance movements, and from earlier support of authoritarianism to a conviction that Nazism could be replaced only by a broad popular movement with a strong programme of social rights and social progress.

In this, they were supported and indeed influenced by militant social democratics such as Carlo Micreodorff, Theo Haubach and, above all. Julius Leber, the last of whom took part, as a friend and counsellor of Stauffenberg, in his preparations for

Finally, and beyond those leading

circles, there existed a large network

provinces, again in the military as well as the civilian fields, who were supposed to take regional responsibility for the dissolution of Nazi organizations and winning over people after the coup. Most of the sivilian representatives appear to have been former regional officials in either the socialist or the Christian trade unions, whose former leaders had agreed that there should be a single, united trade union movement after liberation. The central selection of those people had been chiefly arranged by the former union leader and social democratic minister Wilhelm Leuschner, who was also projected for a top position in the post-Hitler government, in cooperation with the Christian trade unionist Jacob Kaiser, who survived to become a minister under Konrad Adenauer. But the Kreisau circle had also a network of trusted men in the regions and here again social democrats such as Micrendorff and Leber were most active in maintaining contact with them.

I vividly remember how I first heard of the existence of that civilian network a few weeks after the attempt on Hitler. I was then living in London as a socialist political exile and working for Reuter's news agency. One day Erich Ollenhauer, then London representative of the German Social Democratic Party, whose chairman he was to become in the 1950s, told me of a letter he had received from a party activist - the constitutors' civilian representative in Mecklenburg - who had managed to escape via occupied Denmark to neutral Sweden after the failure of the plot The letter described the nature of the civilian network, and my story about it was printed in two London newspapers at the time - but it made

no impact on the general indiffer-ence of the British public to an event that was already past and seemingly

that was already past and seemingly of no further consequence.

Yet I believe – and here begins my present answer to the big if – that July 20 was part of a broader, subterranean development that has had consequences in post-war Germany, and more particularly in the Federal Republic, to this day. What proved seminal in it, despite its failure, was precisely the first cooperation among elements of the widely diversified, political background that I have described. Despite their disagreements, they Despite their disagreements, they respected one another and were jointly committed to cleansing their ountry of Nazism.

In this cooperation it was the traditional conservatives who changed most. Throughout the Weimar Republic, the conservatives had been opposed in principle to the young democracy, even if they worked in its army, its bureaucracy or its judiciary; and when the final crisis came, they all longed for an authoritarian regime that would restore law and order. Many hoped that Hitler would provide it. The Nazis' crimes and arbitrary rule cured them of that hope; by the time of their cooperation with men of the democratic left and correction the democratic left and centre in the conspiracy, all the conservatives of the younger generation, and quite a few, though not all, of the older ones had understood that their common aim, the restoration of the rule of law, could be achieved only by winning the active consent of the cocratic framework.

I believe, then, that the real significance of the conspirators' ilure was to delay by several years the commitment to democracy by the mass of German opinio including the conservatives. The process could have begun immediately, had Hitler been killed. In fact it had to wait, to be built slowly, and under the direction of the Allied occuration forces, smid the ruins of a nation in defeat.

It happened, nevertheless. Looking back, we can trace the desire for the democratic order based on the rule of law, that has inspired the Federal Republic to this day, to July 20, 1944. Stauffenberg and his colleagues did not die in vain.

#### Philip Howard

# When no cover is hard enough

Longparish has been grambling about it for ages. But I realized that the rot has spread to the roots of the game the other day, when I saw a 12-year-old boy putting on his batting belinet before walking out to face the fusillade. I dare say that the belinet was not essential protection for him, beneath the glow of lunch, and the one at the bowler's end started to but a status symbol and comforter, such as gaudy new batting gloves were to us when schoolboys. I used to recite Latin elegiacs at his age, as a totem and to take my mind off things on the long walk out to the

The curse has spread even to the annual match between The Times Literary Supplement and the Publishers one of the events of the literary season. We have been playing for many years, and the TLS had never won until this year, partly out of courtesy to our guests, and partly because the Publishers play once a week through the summer, managing to get their work finished before a long lunch when cricket li is an old-fashioned occasion:

the ideal of an English cricket match. The sun shines. The editor of the TLS dispenses drinks and aphorisms from the Pinnn's tent. And the bravest and fairest in the literary world flop in deck chairs talking about money. At the end of the game a silver bowl of an oriental less is awarded to the planer. cast is awarded to the player who, in the opinion of the judges, has done most to grace cricket and literature during the course of the afternoon.

When we arrived at the pavilion for hinch last week, it was evident that our TLS side had a wolf among the sheep, in the person of the editor of The Chib Cricketer. He is John Nagenda, a jolly man who has played for East Africa in test matches, but is not one of the regular reviewers for the TLS.

The Publishers won the toss, and chose to bat the match generally lasts longer if it can be arranged for the Publishers to bat first. Nagenda was put on to take the first over, and

Unremitting fast bowling is the marked out a run stretching nearly curse of modern cricket. The Sage of back to the sight-screen. back to the sight-screen. He came bounding up to the wicket, like a mettlesome combi-nation of Hercules and Venus Anadyomene, and delivered a ball faster than anything any of us had ever been on the same cricket pitch with. The Publishers turned pale

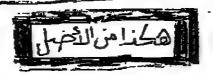

the said

The same

mutter something that sounded like Lucretian hexameters. Nagenda proceeded to bowl unchanged throughout the Pub-lishers' innings, becoming, if poss-ible, even faster as he warmed up. He bowled 18 overs on the run, pausing only occasionally to exclaim that he felt like a quadruple whisky. The Publishers ducked and prodded at the red bullets, and sometimes made contact with het or body Only made contact with bat or body. Only one person was taken to hospital, and he was one of the fielding side hit on the back of the head by a throw from another of the fielding

It was arguable whether it was more frightening to be batting or fielding to Nagenda's bowling. If anything remotely sounding like a smale went whistling through the silvs. slips or wicket-keeper to the boundary, Nagenda addressed the fielders in range in terms more crisp than even TLS critics are accustomed to. But on balance we were pretty relieved to be fielding, not

We won, of course But I am afraid that there will be fearful retribution next year. In the dressing room afterwards, while comparing bruises, the Publishers were mutter ing darkly about ringers. I have an ugly feeling that Joel Garner is about to be signed up to write a book, or have one ghosted if he is too busy. merely for the game with the TLS. We shall all be wearing batting helmets next year. And most of us already have enough trouble assembling flannels, boots, box, pads, and faded caps for the annual match. No good will come of it.

that the Labour party's promise to get the troops out of Lebanon within six months is a votewinner.

However, that promise rests on the assumption that Israel can make alternative "security arrangements" in South Lebanon, which may be much easier said than done. The defence minister in the present government, Mr Moshe Arens, says it may take two years, and that by fixing a time limit Labour would make it harder for itself, by weakening its negotiating position. That argu-ment has some force. The trouble is that there is absolutely no reason to suppose the problem is going to get easier with time. On the contrary, the longer Israel has to maintain her tenuous control of South Lebanon by the methods our Middle East correspondent has described the more intractably hostile the local population will become and the slimmer the chances of peace and stability after her eventual departure.

It should therefore be a top priority for both Israelis and Lebanese to facilitate the formation and deployment of Lebanese army units, effectively under the control of the new government in Beirut, which will be capable of maintaining order in the south when Israel leaves. The Lebanese government has quite as strong an interest as Israel in preventing the south both from being infiltrated anew by Palestinian guerrillas and from falling under the sway of fundamentalist Shiite warlords taking their inspiration from Tehran, and in the last resort that task can only be undertaken by an effective Lebanese army

acting with Syrian approval.

The role of the United Nations force should be secondary and temporary, consisting above all in the protection of civilians during the very dangerous period that is bound to follow any Israeli withdrawal, until the various militias (many of them set up and equipped by Israel) have been either disarmed or integrated into the army correspondent's reports on the under proper discipline and

important minority rights and are there corresponding obligations?

The members of the two min-

minorities with most to achieve. The story of Haringey could probably be told of other

London boroughs and certainly of several divisions of the Inner London Education Authority; its elements are visible in some of Labour's big city strongholds. The inspectors' report follows hard on recent work carried out under the auspices of the Chartered Institute of Public Finance and Accountancy linking education spending and qualitative performance.

The pointers are clear: within gross limits it simply is not true that high or extra expenditure is needed to secure good schooling. What matters is the effectivenes with which teachers are deployed, the zest with which education is managed. But behind management stands the ideology of the new left's educational normlessness. Until that is replaced, until the parents of Haringey and areas like it rise up and demand a system based on merit and achievement the inspectors' hopeless verdict will stand: "regardless of ethnic background, few pupils were receiving overall the quality of education they need and have a right to expect".

Unless the Commons reverses

From Mr Eldon Griffiths, MP for Bury St Edmunds (Conservative)

From Mr Roy Jenkins, MP for Glasgow, Hillhead (Social Demo-crat)

Time for Britain

to join EMS

Sir, If Britain is ever to become a fully participating member of the European Monetary System, now is surely the time to do so. The Fontainebleau settlement has been reached, and the argument that we

should not go in over-valued has been largely eliminated.

Sterling has declined in value again the dollar by some 10 per cent over the course of this year. It has also declined by around 6 per cent against the Continental currencies a little more against the Deutsche Mark, rather less in relation to the

French franc. Membership of the EMS would considerably assist us to weather what is likely to be a particularly turbulent period for the international monetary system. The US dollar is currently over-valued by about a third, and some substantial correction of its value cannot be long delayed beyond the presidential

election in November.

The confusion which may ensue in world currency markets as this correction takes place could be adequately contained only if there are concerted efforts on the part of the main currency blocs - the US, the EMS (which must for this purpose include sterling) and Japan

to impose a degree of stability.
Such a tripod of currencies could form the basis of a new international monetary system, and we ought in our own narrow interest as well as wider ones to take the first step ourselves by aligning sterling with

the European system now. If the Government thinks up a new argument why the circumstances are still not propitions, let it have the honesty to cease pretending that it will ever take more than an off-shore attitude to Europe. The virtues of independence are hardly demonstrated by the recent manage ment of sterling on the part of Mr Lawson and the Bank of England. Yours faithfully,

ROY JENKINS. House of Commons. July 12.

#### A flag for Europe

From Mr Cosmo Russell

Sir, The question of a European flag was raised, it seems rather cursorily, at Fontainebleau. It was probably forgotten that such a flag has existed for more than 30 years. It is called the flag of the Council of Europe but has been widely accepted and flown in the member countries of that institution as an emblem of European unity.

In this country some will have noticed it flying in Parliament Square during Europe week in May alternately with the Union flag, its description - 12 mulletts on a field

SZUT. Recently the European Parliament decided very sensibly that it should fly together with national flags outside the Parliament building

in Strasbourg.

For some trivial and unexplained reason the Community has never accepted this flag officially. It is never flown outside the Berizymont building in Brussels. Time and usage suggest that the European Council should now accept the flag of the Council of Europe as the European flag of the Community, and decide that on appropriate occasions it should fly with national flags outside the Berlaymont and Charlemagne buildings in Brussels. Yours faithfully, COSMO RUSSELL Parapet House,

#### July 1.

MPs' dress From Dr Aileen Ribeiro

Sir, Apropos Richard Alexander's remarks (report, July 6) on the sartorial aloopiness of some MPs, it would be difficult if not impossible to impose any kind of sumptuary legislation. Presumably he would regard as suitable the rather dreary darkish suit which men since the industrial revolution have regarded as formal wear. Equally uniform for some left-wing MPs are tidied-up versions of nineteenth-century working-class dress such as leather jackets open-neck shirts and

corduroys. In any case, complaints about the dress and behaviour of MPs are not new. A German clergyman visiting the House of Commons in 1782 was horrified to find them in great-coats, boots and spurs, lying on the benches eating nuts and oranges. Yours faithfully, AILEEN RIBEIRO, History of Dress Department, University of London, Courtsuld Institute of Art,

#### Training by example

From Mr Geoffrey Thompson Sir, Roger Scruton's generally unhelpful rhetoric ("Teacher, edu-cate thyself", July 3) must have made many school teachers smile because of its caricature of teacher

It is unfortunate that teacher training courses and those who run them should be held in low esteem by the profession. This is not as Mr Scruton suggests, merely because courses involve the study of educational theory, but rather because the theory is not balanced by enough practical preparation for the day-to-day problems of the

Their Lordships object to the police being able, in exceptional circumstances, to hold a subject without charge for up to 96 hours, even though this requires the sanction of a very senior officer and complete the necessary investi-gations in time and the guilty might sanction of a very senior officer and two separate court hearings. But should the police in the current Dikko case have released the men they found in the crates with the Nigerian before he had sufficiently recovered to be questioned about his kidnapping?

Detention for long periods is extremely rare and must always be

adequate time.

The proposal is that in cases when more time is necessary the police should have to bring prisoners before a magistrate within 24 hours, not to be charged but for review of the weet for further description (mithing). there are cases, notably involving suspected murders and child abduc-tion, where long periods of detention

is to be done.

2 The Lords have passed an amendment (rejected in the Commons standing committee) forbidding police to "stop and search" gations). Such a magistrate's review is already a requirement of the Bill after 36 hours' detention. To bring forward the review by 12 hours (rather than to leave the 24 hours' review to a police superintendent) would not be burdensome adminis-tratively, since Mr Hurd tells us that

> To do so would, however, be a ance before a magistrate is a check against possible mistreatment by the police.

Yours faithfully, EDMUND GRAY. 85A Stockwell Park Road, 5W9

From Professor Norman Hammond Sir, Sir Eric St Johnston's characterization of ethnic minorities as being among the "inadequates in society"
(July 9) makes it clear why we need
the Police Bill – the more so if, as he
says, some serving Chief Constables endorse his views. Lam, Şir, your most obedient.

NORMAN HAMMOND, Wholeway,

#### The case for PR

From Mr J. R. Burg Sir, Mr William Cash (July 2) was perhaps too modest to mention that his preference for the current electoral system is supported with a fervour equal to his own by Mr. Benn, Mrs Thatcher, Mr Scargill, Mr. Gummer, if not by all party politicians of the die-hard right and left; and they all make it clear, as he does, that they rest their cases on cogent arguments of principle which have nothing to do with party

But if the arguments are indeed so convincing, and the system so demonstrably superior, is it not strange that there is not even the slightest movement in any country now using a PR electoral system to replace it by the method used in Great Britain.?

# Old Town Hall sale

From Mr M. N. Honkins Sir, I fail to understand Nicholas Freeman's satisfaction (July 6) at the demolition of that once most attractive of buildings, Kensington

Town Hall The purchase price is irrelevant since ratepayers will doubtless never feel any benefit from it. Instead I look forward to the day when vandals of both kinds, urban and vanish will be forced to rebuild or rural, will be forced to rebuild or replace as before that which they have unlawfully attempted destroy for their own profit. Yours sincerely, M. N. HOPKINS, 42 High Street, St Martins.

# Claims on countryside

Stamford.

Lincolnshire.

From Mr Peter Lewin Sir, I am glad that Sir Andrew Gilchrist (July 4) only "suggested"

of the seemingly universal view

insufficient practical advice about dealing with pupils' misbehaviour. This imbalance may be the cause

among school teachers, unjust though it may often be, that people who teach teachers are remote from current classroom problems and frequently could not cope with them themselves. All this could be avoided if education lecturers were obliged to divide their time between their colleges or universities, on the one

teachers might more willingly come hand, and permanent part-time forward to contribute to the training teaching posts in schools, on the other. In this way student teachers of newcomers, if they did not have to give up school teaching comcould attend lectures on education pletely, to join a section of the in college and then watch their profession for which, at the moment, they have little regard. lecturers putting their methods into practice in schools. Yours faithfully,

Such training by example is common in other professions. It could scarcely again be said that lecturers did not appreciate current problems and, if any of them were indeed incompetent school teachers.

House of Commons. July 10. Sir, The Home Office Minister, Mr Hurd, argues in his article of July 5 that if the Police Bill were to contain

thus escape justice.

As a member of the Lambeth Community-Police Consultative Group I would like to draw attention to a proposal by the group which would set a 24-hour limit but avoid the risk of denying the police

would sometimes be unable to

the need for further detention (within proceedings in camera if a public hearing would jeopardize investi-

only 2 per cent of prisoners are held over 24 hours.

significant gain in the safeguards for prisoners, bearing in mind that detention in a police cell is of its nature a harsh and even traumatic experience and also that an appear-

> Perhaps persuading EEC partners to adopt the electoral system enjoyed in England, Wales and Scotland is what Conservative and Labour "Europeans" mean when they talk about the influence of British example from which lucky Continental countries will be able to

If that is what they have in mind they will have to make a considerable effort. At the moment many Continentals believe the troubles in Northern Ireland might never have begun had PR been introduced there after the war, and that the whole UK economy would be quite a lot stronger today if the country had been spared pendulum politics over the past 40 years.

I am, Sir, yours &c, J. R. BURG. 13 Lingfield Road, SW19.

that cathedrals and hedges had ceased to be "functional". His suggestion is surely nonsense. A cathedral still has, in the majority of cases, many functions. It gives inspiration to many, is often a delight and retreshment to the eye and spirit, encourages theological and non-theological pursuits of knowledge and is a focus of wide

interest Even a thoughtful town dweller knows that hedges provide cover for nesting birds which help to abate pests, give added attraction to the countryside and where wide areas of hedgerow have been obliterated there has often been a local change erosion and other climatic disasters. Let us agree that, here and there, a hedge may be removed with benefit but to say that they have no function" surely is nonsense.

I am, Sir, yours truly, PETER LEWIN The River House, Sudbury, Suffolk,

they would hardly last long in schools under the critical gaze of their college students. Education lecturers are normally

former school teachers, who pre-sumably have a liking for schools and school children and should not object to part-time school teaching if it involved no reduction in pay, but an increase in prestige within the profession and the constant opporrunity to put their theories to the In addition, talented school

#### Fire in York Minster

From Mr Eric Crew Sir, Is God trying to tell us something? The day after York Minster was damaged, apparently by lightning, the Science Report in The Times described new astronomical observations of huge filamentary

structures previously hidden in the Milky Way of our galaxy. The report suggested these may be caused by a black hole and magnetic

fields of immense strength.

For many years the late Dr C. E.

R. Bruce and I have tried to persuade astronomers that such ideas are very fanciful and that filaments of this type are in fact the channels of lightning on a cosmic

scale. There are very many observations that support this view and it is time astronomers made a serious effort to investigate this subject. Yours faithfully, ERIC CREW.

of David 2 Diane

Broxbourne, Hertfordshire. From Mr George Chowdharay-Best Sir, Perhaps Dr Runcie is being 100 cautious in dismissing the notion that the sad havoc wrought to York Minster yesterday was an act of God. It was, after all, one of his predecessors of whom it was said that had it been reported to him that the last trump had sounded he would immediately have set up a commission in order to discover if it

was the last trump or the last trump but one. Yours faithfully, G. CHOWDHARAY-BEST, Walpole Street, SW3.

July 10. From the Reverend F. G. Hunter Sir, Mr Anthony J. Pettirt (July 11) must recall that the Lord's fire from heaven which consumed Elijah's altar and sacrifice was a sign of divine *approval*. Yours faith-fully, GEOFFREY HUNTER,

By Pearce Wright

One of the most exhaustive

experiments by particle physicists has ended with the

discovery of one of the timest building blocks of matter. It is called the sixth quark.

As a result, scientists now

have an arrangement of so-

called elementary particles

which is similar to the periodic

table, in which the more commonly known chemical

clements are grouped together

according to their chemical behaviour.

The discovery of the new

object, now called the top

quark, was made by analysing

immense amounts of data

gathered by a team of 151

scientists from nine countries

who collaborated in an investi-

eation at Cern, the European

Laboratory for Particle Physics, near Geneva.

Apart from adding an

important piece to the jigsaw

of the most basic components from which all the chemical

elements of the universe are

#### **OBITUARY**

#### ADMIRAL OF THE FLEET SIR CASPAR JOHN

Forceful advocate of naval air power

Admiral of the Fleet Sir Caspar John, GCB, who died on July 11, aged 81, was one of the line of unconventional, original and intellectually rebellious naval officers, whose principal founder was Nelson and who exercised an influence over the Royal Navy and strategical thought out of all proportion to their small number.

Although he became a notable First Sea Lord, from 1960 to 1964, at a critical time in the Navy's development, his Service will remember him primarily as a great naval aviator, one of a few forceful and intelligent officers who, in the face of obstacles, devoted their careers to the introduction of a new dimension into maritime strategy.

Despite a physical appearance that seemed the epitome of the stern admiral of popular imagination, John recognized that his basic unorthodoxy was due largely to his upbringing in the Bohemian disorganization of his father's household. Augustus John, the painter, was not an attractive father and, while he enjoyed seeing his children around him, they were not to interfere with his painting or with his, social scenery and he seems to have made no great effort towards intimacy with them when

young.

John was born on March 22, 1903; his mother died when he was four and for the next eight vears he and his four brothers were brought up by his stepmother, of whom he became very fond, in studios, a caravan, in Chelsea, in what John later described as "a strange uncouth house in Dorset", and in France.

At the age of 12, John rebelled against domestic un-orthodoxy and his revolt was given direction by a chance reading of Jane's Fighting Ships which introduced him to the precise disciplined pattern of the Royal Navy. His father, although astonished, agreed to John's entry into the Royal Naval College, Dartmouth, in 1916. Another influence now made

itself felt in the forceful personality of John's greatest naval hero "Jackie" Fisher, who, on meeting the boy, stressed the importance of thinking forward into the future rather than dwelling on past naval glories. His inherited streak of non-

conformity together with Admiral Fisher's inspiration bred a thoughtful, gentle rebel. He questioned some of the roman-ticized naval history he was taught at Dartmouth and, when a midshipman in the battleship Iron Duke, he questioned the need for the elaborate ceremonial and trappings of the

This questioning of tradition

#### Hugh Morton, the actor, diedon July 11 at the age of 81.

He had a career spanning more than 60 years and was working up to this spring, when he completed an episode in the Hammer House of Horror and Suspense for television. His films went back to the silent days, and he played regularly in the theatre, but he will probably be best remembered for his work in radio, where he made more than 3,000 broadcasts.

Hugh Morton was born in Devon on June 28, 1903, the son of a naval officer and first cousin of the former Prime Minister, Sir Anthony Eden (Lord Avon). He was educated at Haileybury and Queens' College, Cambridge, studied at the Royal Academy of Dra-matic Art, and had his first professional acting experience n a touring company run by the Vanburgh sisters.

Apart from straight plays, his

early career took in musicals, revues and cabaret, and during the 1920s he appeared at The Midnight Follies, a famous London night spot frequented by the Prince of Wales. In the theatre he took over from Alastair Siru as Captain Hook in a touring production of Peter Pan, with Ann Todd as Peter,

the partisan of the battleship and the bomber. John took the side of the bomber and, in 1925, himself trained to become a

naval pilot. The hitherto somewhat remote, although affectionate, relationship between father and son had now matured with mutual respect, and Augustus John encouraged his son's rebellion against accepted naval doctrine and himself repeated. Fisher's advice, Although naval aviation was then often regarded as a sideshow in the Royal Navy and as a career unworthy of an officer, John was one of the dedicated minority who created the new Fleet Air Arm.

In 1936, as a commander, he served in the Naval Air Division of the Admiralty before, as was the custom, being sent back to sea to renew familiarity with the traditional skills of the naval profession. Thus, John spent the first 18 months of the Second World War as executive officer of the cruiser York,

Although he was to com-mand a small aircraft carrier at the end of the war, John's main wartime work was in expanding the Fleet Air Arm into the major force, largely equipped with American aircraft, that it was to become in readiness for a long naval campaign against Japan, First, he served as Director General of Naval Aircraft Development and Production, and, in 1943, went to Washington as Head of the British Naval Air Service in the United States and Assistant Naval Attaché (Air). By the time he attended the

Imperial Defence College in 1947, the Fleet Air Arm had at last been accepted as the Navy's principal offensive arm and his next appointment to command the Royal Naval Air Station at Lossiemouth, carried with it the same prestige as had, in the the command of a DASL battleship. John then became Deputy

Chief of Naval Air Equipment and afterwards Director of Air Organization and Training. On promotion to Flag rank he took command, in 1951, of the Third found a cause in the conflict
after the 1914-18 War between Heavy Squadron, the core of the

#### Fleet, before coming ashore as Chief of Naval Air Equipment. When the links between the Ministry of Supply and Admiralty were reorganized, John became Deputy Controller of Aircraft at the Ministry. In 1954, he was promoted to Vice-Admiral and, next year, was appointed Flag Officer (Air)

Three years later, John was promoted to Admiral and appointed Vice-Chief of Naval Staff and, finally, First Sea Lord and Chief of Naval Staff in 1960.

These last two appointments coincided with the great debates on the future of the aircraft carrier and the controversy over the adoption of the Skybolt aircraft-borne missile or the Polaris submarine-borne missile as the delivery system for the British strategic nuclear wea-pon. In John, the Navy found a cool and ciever spokesman. While pointing out the advan-tages of Polaris over Skybolt. John did not make any demand for the system which, like many naval officers, he regarded as being, from the Navy's point of view, a sideshow which would take skilled men and money from the development of a Fleet based on ship-borne air power,

It was John himself who presented the case for the ircraft carrier to the Cabinet so effectively that, despite opposition from the Royal Air Force, the Prime Minister, Mr Macmillan, there and then ordered work to go ahead on the design and production of a new generation of big carriers. It was three years after John had been succeeded as Fleet Sea Lord that this decision was reversed by the Labour Government in its Defence Review and subsequent government decisions completely deprived the Navy of the Fleet aircraft carriers capable of operating all types of aircraft.

However, the fact that the Fleet Air Arm reached a peak of efficiency with effective aircraft and carriers and played a vital part in a series of world-wide crises was due in good measure to the foresight and long-term planning of John.

Having been promoted to Admiral of the Fleet in 1962, John did not formally retire, although his active naval career ended. He took up other official work, becoming a member of the Government Security Commission from 1964 to 1973, and Chairman of the Housing Corporation from 1964 to 1968,

Although his life was devoted to the Navy, he retained a hankering after the artistic Bohemia and maintained links with it through his father and artist friends. In 1944, he married Mary Vanderpump, the sculptor, and there were a son and two daughters of the

#### **HUGH MORTON**

with Arthur Askey.

He made his first radio broadcast in the early 1920s from 2LO on Savoy Hill and soon become one of the most familiar voices on the air. He later worked in Children's Hour and formed a quartet with Violet Carson and two others called Four in Hand, In 1938 he created the part of the amateur detective, Paul Temple, in the thriller serial written by Francis Durbridge, and during the war was one of the stalwarts of the popular comedy show ITMA.

Morton supplied several voices to ITMA, of which the best known were the phoney Welshman, Sam Fairfechan, and the Shouting Man, who started his sentences quietly and ended up shouting at the top of his voice. Other comedy programmes in which he made regular appearances included Life With the Lyons and Hancock's Half Hour.

He acted in many films, where he often played butlers or cise was cast as professional men - judges, magistrates or bank managers. He was on television almost from the start of the service in the 1930s and among his more recent work Choo L: C.C.L. Choong M; T.H.R. Chung M; Jennifer M.L. Chye G;

and was in a long running West were appearances in The Pro-End comedy, The Love Racket fessionals, Fame Is the Spur, Rebecca, Lloyd George and Suez He is survived by his wife, Monica.

the Government has insisted on the removal of the generous conditions applying to civil this year. servants' pensions, whereby a Further tax-free income is permitted in Hainburg. addition to the pension. Another legacy of the Kreisky era, which is likely to be resolved less amicably, is the question of Austria's energy priorities and, in particular, the future of the country's only

lighten its share of this burden,

atomic power station at Zwentendorf, which, following a referendum in 1978, has re-mained unactivated. The cost of keeping Zwentendorf in a condition whereby it could actually be used in the event of the 1978 decision being reversed is estimated by the Government to have been more

Dr Sinowatz and many members of his party have made no secret of their belief that the power station should be activated, and a second refer-endum is widely expected later

Further down the Danube, at Hainburg, another energy issue, the proposed construction of a hydro-electric power station in a nature reserve, has fiercely divided Austrians, resulting in an impressive demonstration even if staged with government encouragement - by thousands of trade unionists, a rare event in post-war Austria. Those who are against the

power station can boast Prince Philip and the World Wildlife Fund among their number, as well as most of the inhabitants in the area, from aging countesses fearing for the purity of People's Party.
the waters which since the Romans' day have enriched the Liberal Minister of Defence,

nearby spas of Deutsch-Alten-burg, to the anxious villagers of Hainburg who are horrified at the potential destruction of their centuries-old view over the Depuths

Even though it has the support of one of Vienna's most support of one of Vienna's most widely-read papers, the anti-Hainburg power station lobby is up against most of the Socialist Party, which is committed to the project. The party is strongly backed by the trade unions, which see it as a means of ich creation. of job creation.

As Dr Sinowatz is fully committed to an Arbeitsplatz Politik (job-creating policy), few doubt that the scheme will be given the green light, although this will be contested and will seriously embarrass the junior member of the roling coalition, the Liberal Party, which has always opposed the plan.

The emergence of the small Liberal Party as a political force in the Government of the country has been one of the more remarkable and, at times entertaining, features of the post-Kreisky era. The refusal of the Vice-Chancellor and leader of this party, Dr Norbert Steger, and his Liberal colleagues to fight, tooth and nail, projects like Hainburg and to prevent the tax on savings books has cost the Liberals dearly. At the recent local elections in Salzburg the party was almost annihilated by the opposition

Two landmarks of Vienna, Left, the Upper Belvedere, a palace built for Prince Eugene of Savoy offinition Prince Engene of Savoy (1663-1736) which today houses nineteenth and twentieth century Austrian art. Right, the giant wheel of the Prater, familiar to cinemagoers through The Third Man.

Herr Friedhelm Frischenschlager, to grant the Austrian army a day off to attend peace demonstrations last autumn further horrified party stalwarts, several of whom are on the extreme right of Austrian politics.

The Third Man.

Despite the flak the Liberals in the Government have had to face, most politicans concede that Dr Steger and Herr Frischenschlager, who are both in their thirties, have succeeded in giving their party for the first time in its history a genuinely liberal tinge. By encouraging young appointments, they have banished the long-held image of the party as one composed mainly of disgruntled former Nazis.

Serious differences between the two members of the coalition have yet to emerge in a crisis and both Dr Sinowatz and Dr Steger are convinced that they never will. Emotive issues such as the 35 - hour week, though just as important for Austrians as for Germans, will be settled without the strife Austria's neighbour has suffered in recent weeks.

# Ham and eggs at the café

Dr Fred Sinowatz, the man who support necessary but unpopustepped into Bruno Kreisky's shoes after the May 1983 election, took over the Chancellorship of Austria in far from ideal circumstances.

Having studiously kept a low profile for 14 years as Minister for the Arts and Education, Dr Sinowatz had to follow a man whose charisma and presence had given the status of Austrian Chancellor almost mythical values both at home and abroad. In addition, the new 55year-old Chancellor inherited a £700m budget deficit which, because of the power of his predecessor's personality, most Austrians had chosen to ignore.

If that was not enough to contend with, the loss of the Socialists' overall majority in the election meant that the party which had ruled Austria single-handed for 14 years had to work with a coalition partner in the form of the Liberal Party, a hybrid mixture of protest voters, pan-Germans, ex-Nazis and environmentalists with no experience of government, a party which was strong enough to hinder whatever dismayed its supporters but too weak to

lar legislation.

If less of a showman than Dr Kreisky, the man who inherited these problems is in many ways eminently suitable to cope with them. Although no one can describe Dr Sinowatz's political career as meteoric, he has become a man who has earned respect and trust from all sides of the Socialist Party as well as from several of his political opponents since he played an important part in winning the traditionally conservative prov-ince of Burgenland for the Socialist Party in 1964.

Coming from a poor family in Burgenland, one of the most backward parts of Austria even today, Dr Sinowatz can justly claim to be a man of the people. His dress and manner have no trace of the smart pin-striped figure Dr Kreisky cut in his later years. In appearance the quietly spoken new Chancellor is the first to admit that he is a typical Burgenlander whose face betrays more than just a hint of the Croat, Hungarian and Gypsy blood which runs

On important issues such as the revival of the capital market, interest rates, budget developments and tax reforms, a third differ more than tenths of a sub-committee, composed of central bankers and economists,

> The social partnership has rightly been seen as assuming the role of a super-government

vote and, for all practical es they are unremovable Both Mr Benya and Mr Sallinger have outlasted several

An indication of the system's power on issues unrelated to wage bargaining came two years ago when the minimum rate of interest on savings accounts

The power of the social partnership apparatus is not unlimited. In emergencies the Government must act swiftly. Faced this year with a budget deficit of 5 per cent of the gross domestic product, the govern-ment increased value added tax from 18 per cent to 20 per cent and from 30 per cent to 32 per cent, bypassing the formal

Much informal consultation took place, however, so that despite the regressive nature of this rise, the presidents of the two chambers accepted it.

Inflation and unemployment rates both testify to the sound working of the system, although both are rising (memployment in 1983 was 4.5 per cent and in 1984 4.7 per cent; inflation in 1983 was 3.3 per cent and in 1984 5.5 per cent).

Despite this trend the figures

compare favourably with most other European countries, while Austria's average increase in productivity over this period (5.1 per cent) was second only to

Austria's performance in industrial relations is even more impressive. Between 1966 and 1982 the loss of time through minutes in neighbouring Italy.
At the same time, real wages rose in Austria by four per cent.

Everyone concerned clearly recognizes that both managers and workers benefit from this. As a result, although the social partnership can only

advise the Government, no politician would ignore its advice. The member of any majority party who did so would find his political career swiftly

In this way Austria reverses the normal procedure of a parliamentary democracy in which legislation is the sole prerogative of members of parliament.

The restraint shown by the parties to this social partnership is paid for by the active participation of trade union eaders in the Government. As well as being president of the union of white collar workers, Mr Sallinger is Minister for Social Affairs. The chairman of the metalworkers' union Minister for Technology and Public Building, while Mr Benya, president of the TUC, is Speaker in Parliament.

Invested with this political responsibility, these men would

strikes was on average 4.6 be the first to suffer the minutes compared with 630 consequences of extravagant or immoderate wage demands. Union power is commensurate with responsibility, somethir better understood in Austria

than in many other countries. The social partnership is not without disadvantages, chief of which must be counted the loss of full sovereignty by voters in all economic policy issues. The system also reduces the capacity of business and labour to adjust to market fluctuations. It delays the laying off of workers and

Finally, there is the effect of voluntary benefits, which are accorded to workers in times of prosperity but which have proved impossible to reduce in

increases redundancy among the

the present recession Despite the fact that many politicians resent the prerogative of the social partnership. the system remains popular with the majority of Austrians and is unlikely to founder in the foreseeable future.

Max Thurn The author served as an economist in the Austrian Government between 1951 and economist in the 1975 during the implementation of the social partnership.

# An undiscovered green province

If Vienna. Salzburg and the Tyrol have long been familiar landmarks, Styria remains, even for many Austrians, relatively unknown. This is despite the fact that the province accounts for more than half the country's heavy industry and is the richest in mineral deposits.

"green province", as = Styria is affectionately called on green, seems to have struck a successfully defended the city account of its impressive fine balance between Teutonic forests, is reached from Vienna discipline and Latin indolence. by the spectacular Semmering Railway, which threads its way Empire, Graz's sleepy character revenge for Styria's stubborn through no less than 15 tunnels attracted the retired officer class and across 16 viaducts

Dr Bruno Kreisky, Chancellor from 1970 to 1983 Dr Fred Sinowatz, Chancellor since May 1983

through the veins of Austria's Austria, are quick to seize on easternmost inhabitants.

Austria, are quick to seize on rumours and highlight the So informal and modest is his cracks as they appear, all the fe-style that to the thinly-dismore so as rumours of severe life-style that to the thinly-dis-guised horror of his aides, the differences of opinion within

tucking into ham and eggs at the Cafe Landtmann opposite his Chancellery.

Such self-effacement, if rare among many of Austria's politicians, is nonetheless, a politicians, is nonetheless, a finance. Dr Salcher, who has a slave been committed to a common thread in the fabric of always been committed to a Austria's political life. As Dr severe programme of tax re-Sinowatz explains, decisions in form received a job last Austria are not accompanied by dramatic and baroque pro-

partnership illustrates. The Chancellor is prepared to

of the daily art of improvis-

anything approaching a real crisis in the internal affairs of the Socialist Party abound.

A true man of the people

One recent example of this occurred last month when a month when Dr Sinowatz insisted to journalists that there dramatic and paroque pronouncements but rather, emerge during informal meetings. The tax reform in the near future.

What followed was classically would say

Austrian, some would say ation, as the system of social Balkan, in its inevitable, if meandering conclusion. Dr Salcher intimated that he would admit that even a system as seemingly flexible as this has its drawbacks. Hiccups occur and the Austrian press, deprived of Kreisky and Mr Anton Benya,

the president of the Chamber of Trades Unions, insisted that the politicians should be sunk in the broader interests of the party. Within a week of the rumours of Mr Salcher's impending resignation, the entire affair was closed, although it is expected that Dr Salcher will be moved on in any cabinet

With the experience of the 1930s indelibly imprinted on the minds of most of Austria's Socialist ministers, stability and continuity are valued more highly than the principle of ministerial responsibility.

With such a strong system of government responsibility. Dr Sinowatz is convinced that, whatever the differences between individual members of his Government, any talk of a crisis is wishful thinking on the part of the Opposition.

Richard Bassett

At the 1981 high point of much higher. Some help comes from international refugee agencies but Austria provides most of the money itself.

At a time when Austria is feeling the bite of recession that plagued other Western coun-

about £40m, much of that being swallowed up by the Poles who arrived the previous year. In

issue, the country is fortunate that only a small proportion of refugees settles in Austria. The vast majority of the almost two million refugees it has received since the Second World War had moved on to third countries, the most favoured being the United States, Canada and Australia.

However, there is also a political cost for the policy, highlighted in May by a Czechoslovak attack on the harbouring of dissident emigres and a pro-Western neutrality. Prague media accused Dr Fred Sinowatz, the Chancellor, and Herr Erwin Lane, the foreign minister, of using the term publicly and of trying to split the communist states by dividing them into good and bad along US policy lines,

Both men denied this and soon afterwards Herr Rudolf Kirschläger, the Austrian President, emphasized that Austria would maintain its commitment to humanitarian ideals.

Herr Lanc followed by declaring in parliamentary question time that refugee assistance would remain the permanent task of an Austria

A Special Correspondent

A new start. Refugees arrive in Vienna on the "Chopin Express" from Warsaw. The number fleeing Poland dropped from 29,000 in 1981 to under 1,900 in 1983 but is increasing again this year.

#### In the footsteps of Mahler and von Karajan, how Lorin Maazel tripped up

Lorin Maszel, the American conductor who was forced to resign as director of the opera before the end of his second

Politics in Austria may seem relatively crisis-free these days, but the affairs of the Vienna State Opera, the flagship of Austria's culture, continue to be a source of innumerable scan-

dals and rumours.
It is widely rumoured that when Lorin Maazel finished conducting Turandot last month, his last appearance as director of the opera, champage corks flew in a nearby hotel as those who forced him to abandon his four - year contract before the end of his second season celebrated his final performance in the Vienna

The 54-year-old American's brief but dramatic sojourn in Vienna fuelled a series of planning debacles and political battles which, even by the normally Machiavellian standards of intrigue set by the Vienna State Opera, will go down as a milestone in the histone of mederates and pointed and the standards of mederates. history of modern opera controversies,

The clamour for Maazel's resignation gathered momen-tum as productions were canceiled at the last moment and singers collapsed or lost their He had reduced the number

of operas performed in the house by a quarter in attempt to raise standards. He had recklessly promised, in a euphoric interview before arriving in Vienna, that every night

would be a gala evening.
His most unforgiveable act of all for the Viennese was his claim to be the second most important man in Austria. The first was the Chancellor - no mention was ever made of Austria's President, Dr Rudolf Kirschläger.

One mishap followed an-

# The man who wanted to be Mr Vienna

time - the character assassin- a lack of any musical experiation of maestros, Spearheading ence, the minister accused this attack was Dr Franz Endler, Maazel of biring singers who the *éminence grise* of Vienna's music critics and the cultural editor of the conservative Vienna daily, Die Presse.

Dr Endler, who is quick to emphasize the role of his paper in the termination of both Gustav Mahier's and Herbert von Karajan's careers as opera directors in Vienna, feels personally grieved that Maazel did not seek his support as soon as he arrived. Mahler, he notes mournfully, saw the critic Hanslick within hours of his arrival in Vienna,

Though Dr Endler is Hanslick's direct successor, Die Presse is a mere shadow of its former self, boasting on average only between seven and eight pages a day. Its editorial content only underscores the melancholy absence of any serious

quality paper in Austria.

Dr Endler's theme was taken up, not least by the small but vociferous claques in the standing audience whose speciality laughter alternating with boos resounding from the most resonant quarters of the house became a regualar feature at several of Maazel's performances.

alliance The cemented between Dr Endler and Herr Helmut Zilk, the Minister for other, and the Viennese settled Cultural Affairs, was more down to their favourite past- effective, if less public. Despite

were untried on stage, although, according to Maazel, they turned out to have 200 performances and a Glyndebourne season behind them. Un-abashed, Herr Zilk announced that the director's contract

Maazel's reaction was to issue an open letter to five Austrian newspapers protesting at unwarranted interference in his affairs. Only one, the Salzburger Nachrichten, published the letter, while Dr Endler daily renewed his attacks in Die Presse.

would be under review.

His stamp on the opera

Although, some disasters aside, Maazel's directorship had blown away the cobwebs which had gathered around the house. the conductor felt compelled to resign.

Despite reports in American newspapers of anti-semitism, Maazel is adamant that his resignation was the immutable result of only one thing interference in the running of the opera. "I had to resign," he told *The Times*, "to draw attention to the fact that what was bappening here was a

Two of Maazel's predecesse who fell out with the Vienna opera: Mahler, director from 1897-1907, and von Karajan (1957-64).

violation of a director's prerega-

The conductor is convinced of his success during his time in Vienna, despite the claques and the behaviour of the Viennese, which, with rare understate-ment, Maazel describes as bad manners. "What other house in the world," he asks, "can boast over a period of two months, Abbado, Muti, myself, Sinopoli, Pavarotti and Domingo?

However, Maazel admits he underestimated his opponents and the great difference between the Austrians and the Germans, 'l never realized how Balkan this place is," he says, acknowledging that he learnt too late the truth of Metternich's dictum that the Balkans begin at the

Attempts to reform the house, confronted by a system of laws which gave most employees of the opera house the complacent diffidence of permanent civil servants, which in Austria they are, inevitably foundered.

Whatever the controversy raging over Maazel's director ship, not even his staunchest critics can detract from his two main achievements. He has left the opera house with its accounts showing a record profit and he has been responsible for bringing the Italian, Claudio Abbado, his artistic successor, to Vienna. No one has suggested a return to the repertoire system which Maazel abolished.

Maazel's reign may have been one of the shortest in Vienna's history, but his stamp on the state opera will be visible

# CAREPOR

Airports around the world provide the services you need during your journey. Some provide less, some more. Many airports add extras like: Conference facilities, direct raillinks, a chapel, hotel(s), shopping arcades, cinemas, even a discol Most of these you will easily recognize. They are busy, far too busy. So they don't have time to CARE. It's a pity if you can't choose but use them.

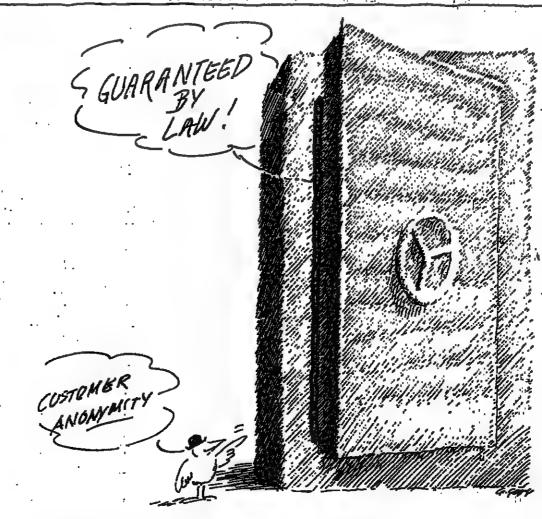

But: Sometimes you have a choice. For instance when changing planes. It makes a great deal of difference if, rather than having to take a Shuttle bus or perhaps run for your life from Terminal A to Terminal B, you can spend a relaxing half-an-hour with everything handy for your convenience: Transfer desk, Cafeteria, Shopping Arcade, Newsstand; Toilets (yes, we dare

Or take another example: the Airport-get-toge-ther, where people from different places look for a location to meet (but to avoid the timeconsuming rush-down-town-finish-early-rushto-the-plane-thing). All they want is a reasonable conference site in an airport, not too busy to spoil the human aspect of a meeting, but capable of CARING for their needs: special business facilities, bar and restaurant services, communication and presentation devices.

'It's good to find such an airport that CARES! It's even better to know that it is situated in the very heart of Europe, on the crossroads of International Air Traffic and

easily accessible from anywhere.

#### FINANCE AND INDUSTRY

**Executive Editor Kenneth Fleet** 

# Building society rates move to centre-stage

The response to higher bank base rates in the stock and foreign exchange markets yesterday was not flattering. Markets loathe uncertainty more than anything (almost) and the continued insistence of the Chancellor of the Exchequer that higher rates were really only the market's doing, were not justified in the eyes of all right-thinking men; and would soon be a

Holio.

, IDENDA

equired for

ild ring (1254-5).

, <u>1</u> [4]

 $\mathrm{Politic}$ 

TRACERS

G ADVERTO

thing of the past, only added to it.
All eyes today will be on the decision of the building societies whether to raise rates and if so, by how much, They might choose the politic line of accepting Mr Lawson's prediction of an early fall they would then either bide their time or opt for something lower than their true instincts probably dictate. No-one can disguise the "reality" of home loan charges or dismiss higher mortgage rates as a market whim.

We must hope that the Chancellor is right in his prophecy. The last thing industry wants is dearer money. It is easy to overestimate the significance of the extra-arithmetical cost of borrowings but not easy to exaggerate the impact which higher interest rates may have on business psychology and attitudes to growth and

Companies fortunately are in a good financial situation and profitability, with exceptions, is still rising. They might however feel impelled to raise the level of their bank borrowing because the latest rise in interest rates has killed for the foreseeable the revival in the corporate bond market, on which the Government incidentally had set such store. The equity market, for the same and other reasons, is also a joyless place for would-be capital raisers, as well as for investors.

The forlorn state of markets is obviously not going to help the mammoth floating of British Telecom, an important factor in the Government's budgeting as well as for its privatisation programme. If the BT issue has to be postponed and if inflated bank borrowing puts yet more pressure on the money supply aggregates, Mr Lawson will not be able to afford a

summer holiday. The Bank of England's money market tactics yesterday reinforced the Chancellor's statements about lower interest rates. The three month interbank rate still went up, short-dated gilt-edged stocks still fell nearly half a point and sterling barely held its own. The struggle is by now means

#### W H Smith sinks Yorkshire float

Yorkshire Television, maker of the Emmerdale Farm series and the First Tuesday documentaries, was to have been floated on the stock market this month. The plan has had to be shelved indefinitcly because of Trident Television's sale to W H Smith of its key 29.8 per cent

shareholding in the company.

Trident was contemplating making available about a half of its shares for sale to investors for £3m. With the blessing of the Independent Broadcasting Authority, it has now disposed of the lot for what appears to be the very good price of £8.5m. The sale puts, a total value of £28.3m on a company which was to have been floated with a price tag of £20m.

Yorkshire was putting a brave face on it all yesterday expressing "delight" with its new found shareholder but its directors soon to be joined by a W H Smith

pointed. Their company is one of the big five commercial television channels which supply around half of the networked programmes and they probably would have preferred an independent existence on the stock market.

Trident's wish to dispose of its stake gave W H Smith an almost unique opportunity to pursue its media ambitions. These are wide-ranging though recently obsured by the company's failed £34.4m bid for Martin the Newsaget. In the last year W H Smith has gone into cable television, sport and video games and specialist computer retailing. The company is also spending heavily on revamping its 40-strong do-it-self chain of

shops.

W H Smith's explantion – that the media is a logical extension of the communications business with which it has been intimately involved for 200 years. through the printed word - is a little tongue-in-cheek. That being said, there are beneficial trading links in video and there is a spin-off for Screensport, the cable

station with which it is already involved. Meanwhile, Trident which intends to concentrate on its casino interests, comes out of it well. The sale pushes up its cash balances to well over £20m.

#### Unqualified success for Telecom

Beneath the gloss of British Telecom's massive advertising campaign there is an important undercoat which is helping "make good" the company for privatization. It takes the form of major improvements made in BT's accounting

and finance techniques. In 1969 When BT's accounts were audited by Coopers & Lybrand for the first time, the audit report contained qualifications on about 60 counts. This number has been steadily whittled away and when the 1983-84 accounts are published next week there will be no qualification and audit report for the first time will take on a more traditional appearance.

A clean audit report is not, however, proof that BT has finally got its accounting right. There are still improvements to be made, particularly on procurement and billings. A new finance director has already been recruited to strengthen the Local Communications Services division and BT is also in the process of headhunting a new man to head the corporate treasury function, which will have a much wider and important role after privatization.

It would be perhaps too unkind to suggest that inspiration for improvements counting pracitees is privatization but it is a fact that the critical City would not have accepted the slipshod approach of

There are still some doubts surrounding the changes in accounting policy which have been made, in particular the sudden abandonment of the current cost accounting's additional depreciation adjustment. Appropriate for BT while in public ownership, it seems the adjustment is no longer relevant for a company in private hands, for the business will not change.

The management has already expressed its distaste for the current cost statements. This could be because of genuine technical difficulties but it might just be that they show BF in a less favourable light than the board and the Treasury would wish.

# Government nets £95m from Inmos sale to Thorn EMI

rochip manufacturing company, was finally settled yesterday when the Government an-nounced the sale of its control-ling interest to Thorn EMI, the

British defence, electronics and

leisure group.

Thorn EMI is paying £95m for the 76 per cent shareholding currently held on the Government's behalf by the British Technology Group, The offer will be extended on the same to the three founders. terms to the three founders and 300 employees of Inmos, who together hold the remain-

The founders, Mr Iann Barron, Mr Paul Schroeder and Dr Richard Petritz, will all have the chance to become multimillionaires as a result of the deal, which values their individval holdings at approximately

ing 24 per cent of shares.

Yesterday's announcement by Mr Norman Tebbit, Secretary of State for T-ade and Industry, ends a protracted debate in Whitehall about the future of Inmos, which was originally set up in 1978 by the

Rank shines

with £10m

profit rise

in first half

By William Kay, City Editor

In an otherwise black day for the stock market, Rank Organ-

isation shares stood out like a

beacon with a rise of 8p to 220p.

The inspiration was a set of half-yearly results which did

much to allay the recent unrest

of institutional shareholders and City confidence in the hotels, electronics and Xerox

up from £249.8m to £268.4m.

As a token of the company's

reviving fortunes, the interim dividend is being increased from 4p to 4.8p a sbare.

Sir Patrick Meaney, the

chairman, added that the most

notable improvement came

from the directly managed operations, where profits rose 66 per cent to £21.8m. Hotels,

bingo ciubs and film laboratory services led the way. But even Xerox halted its long decline with a £1,2m profits improve-ment to £35.6m.

This goes far to meet the

demands of the City insti-tutions, which own 25 per cent

of Rank and last year forced boardroom changes. Mr Jim

mofficial leader, said yesterday:
"On the face of it, the figures
look very encouraging indeed.
The new team have only been

in the driving seat for eight months or so, and Rank is a very large group. But so far they have done all we could have

Mr Michael Gifford, Rank's chief executive, pointed out that he had sold 40 businesses worth

£46m - "about one every 34

days" - and he was about half-

way through. Then he wants to expand in the leisure and

entertainment areas, probably

in the US. "We are under-rep-

resented there for a group of our

ie Prudential, th

The fate of Inmos, the previous Labour Government controversial state-owned mic-Selling it to Thom-FM Selling it to Thorn-EMI means the Government has finally achieved its target of privatizing Inmos, while at the same time avoiding the political embarrassment of seeing it fall into foreign ownership.

American Telephone & Tele-graph (AT&T), the United States telecommunications group, has made repeated offers to buy Immos's manufacturing activities. A plan to raise new capital for the company via a placing of shares with City investment institutions was vetoed by the Government last

The terms of yesterday's deal value the entire inmos business at approximately £125m, and means the Government will be getting out at a profit of around £30m. The Government has pumped £65m of capital into Inmos since its foundation, and Thorn will be taking over Inmos's debts and liabilities of around £40m.

Thorn first approached the Government about Inmos six weeks ago, when it proposed taking a 10 per cent stake for

Mr Sibley: attracted to

£10m. It has now agreed to buy out the whole company, al-though it hopes the Immos founders will opt to keep their investment and stay with the company

Sir Malcom Wilcox, Inmos chairman, said yesterday the company was pleased by the ne-up with Thorn. "Immos is at the

Mr John Sibley, a director of Thorn EMI insisted yesterday that the acquisition of Inmos was not a substitute for Thorn's failed plans to merge with British Aerospace, which were formally abandoned last week.

He said: "We were attracted to Inmus some time ago".
The Government believes the offer is fair and gives it the

funds it wants without resorting to what Mr Sibley called the "slightly speculative" method of a public flotation in the The method of financing the

deal will be worked out over the next week. A straightforward cash deal is possible but other methods will also be considered. "Obviously the Government will not want Thorn EMI shares," said Mr

Meanwhile Thorn EMI pub-Meanwhile 1 norn and published its full year figures yesterday, which show profits of £156.8m against £122m, broadly in line with City expectations, and a dividend up from 15.75p to 17.5p.

# Mills & Allen links with Tokyo broker

By Richard Hanson and Peter Wilson-Smith Mills & Allen International,

the money broking and finan-cial services group, is moving into the fast-growing Japanese market through a link-up with one of Japan's most active

It has agreed to form joint ventures in Tokyo and London with Ueda Tanshi, a familywith Usua Farsin, a miniy-held company which ranks among the top three Japanese brokers. The deal will cost Mills & Allen about £4m. Mills & Allen will be the third British money broker to sater the Japanese market and Rank profits for the six months to May 12 rose from £37.5m to £47.8m on turnover

enter the Japanese market and its move comes shortly before an important stage in the liberalization of the Tokyo financial markets. From August 1, the Tokyo foreign exchange is being opened to international broking business. Brokers will be able

to put together deals between Japanese banks and banks in the domestic market. Mr Clive Hollick, menagin director of Mills & Allen, said the group wanted to have a sizable interest in what prom-ised to be one of the biggest financial centres in the world.

Mills & Allen is paying about £5m for a 26 per cent stake in Ueda Harlow, a new company which will take over the foreign exchange and foreign money broking business of Ueda, Meanwhile Ueda will now about £1m for 5 new cent of pay about £1m for 5 per cent of a new Loadon company, Har-low Ueda Savage, which will acquire about one-third of Mills & Allen's worldwide money broking business. Mills & Allen's other international operations will be tied in to the Tokyo business to give a worldwide network. Exco International's Astley

and Pearce, the first foreign money broker to set up in Japan, in 1978, merged its local interests with Nippon Discount two years ago. Marshalls, owned by Mercantile House, is also believed to be reconstituted as a local transfer and trans negotiating a joint venture with a Japanese firm to strengthen its position in the market.

Some of the big Japanese brokers have also taken stakes in London money brokers directly. Tokyo Forex, the biggest Japanese firm, has an interest in Tullett and Riley.

#### week's 3-2 vote by the US International Trade Com-mission (ITC) in favour of imposing higher tariffs and lower quotas President Reagan must decide on the ITC proposals by September 24.

The EEC has already tentatiely flexed its muscles by taking retaliatory measures against the US for imposing higher tariffs on speciality steels. It is prepared to go much further.

The Community would certainly tear up its voluntary restraint agreement on steel exports, reached only after a long battle with the US Adrainistration in 1982.

New York (latest): \$342.75

#### "Today I believe most South Africans of all colours desire a more just and equitable society" - G. W. H. Relly

Abridgement of the statement by Mr G. W. H. Relly, Chairman of Angle American Corporation of South Africa Limited.

The improvement of 9.3 per cent in group attributable profit to R554.1 million arises from an increase of R45.6 million to R494.8 million in investment income; this was due mainly to the higher distributions received from gold mining companies, directly or via Anglo American Gold Investment Company. Those higher dividends in turn were made possible by the increase of 15.1 per cent, to R474 an ounce, in the average rand price of gold in 1983, which flowed from a 12.7 per cent appreciation in the average dollar price, to \$424, and a 2.7 per cent depreciation of the rand. The fall in the dollar price since then, to an average of \$381 for the first half of 1984, has been offset by the further depreciation in the exchange rate, the rand price averaging R479 an ounce.

FINANCIA	LSUMMARY

	<ul> <li>cents per share</li> </ul>	120 110			
Net asset value	- cents per share	4,238 3,321			
Net asset value	- cents par share	4,238 3,321			

The dollar price of gold has weakened for reasons similar to those that have depressed most of the major international currencies. The kernel of the matter is the strength of the US dollar, resulting from the combination of high real interest rates and its world-wide attraction as an investment medium In addition, sales of gold jewellery outside the United States and Japan have declined — owing largely to higher domestic gold prices in countries where disposable incomes were under pressure — leaving more gold to be taken up in a market characterised by investor indifference. So central is the metal to South Africa's well-being that the latest setback in the price, if it persists for any length of time, will of itself leave the authorities with no option but to tighten fiscal policy which would have further adverse consequences upon growth. At this juncture, however, it is as well to remember that the dollar's value will eventually be affected by the continuing US budget and current account deficits, particularly if the cost of financing them threatens to jeopardise the American recovery.

#### South Africa and World economy

The condition of the world economy, on which South Africa trading internationally more than 25 per cent of its GDP — is so dependent, has changed significantly in recent years, mostly to our detriment. We cannot take for granted that we will move into the broad-based and sustained recovery in demand for our exports that we experienced in previous cycles. Our manufacturing industries, for reasons unexceptionable in themselves, are going to be required to adjust to protection primarily by way of tariffs instead of quotas, at a time of intense international competition which threatens to erode their share of the home market and/or jeopardise their ability to expand into export markets. Compounding the problem is the fact that in all but a few cases our productivity is not as high as in countries at a broadly comparable stage of development. For this we have to blame, mainly, an historical neglect of education and technical training and misdirection of the skills we do have.

Against an average increase of 63 000 jobs a year we have to set projections of the growth in the economically active population in the rest of this decade, which imply a need for job creation averaging more than 300 000 a year. Agriculture can do little to alleviate memployment but there is no doubt that the informal sector, given the proper stimulus, could make a significant and cost-effective contribution to it.

#### Foreign investment

It is the more capital-intensive sector of the economy. however, that will remain a major engine of growth and employment creation in the longer term. That is yet another

reason why the issues of low productivity and the further erosion of comparative export advantage have to be faced. In a world that is growing both increasingly competitive and pro-tectionist, we cannot afford policies which impair our fundamental ability to pay our way. Failure to tackle the structural problems in our economy will effect the flow of foreign investment to South Africa just as surely as would heightened perceptions of political risk. It would be a tragic irony if such investment, so valuable to us still in terms of access to technology and employment, were to become less attractive on account of our relatively high costs, at a time when South Africa's acceptability overseas may be showing signs of improvement. Such improvement will not, of course, diminish calls for disinvestment from South Africa from people, particularly in the United States, who simplistically condemn any steps that lead to the economic upliftment of black South Africans as support for racism. Others, believing that such important issues should be viewed objectively, will ask themselves, inter alia, why the disinvestment lobby has failed to win any support among the vast majority of black South Africans whose interest it claims to represent.

#### Political developments

Today I believe most South Africans of all colours desire a more just and equitable society. Mr P. W. Botha has chosen to set the country now on a course of what might be called de-centralised democratisation which, while it maintains a substructure of racial self-determination, also appears to envisage a superstructure of national co-operation. If Mr Botha can mainta the thrust of his policy to embrace the urban black population and then move to some federal system to embrace the country as a whole, we may have reason to hope that these initiatives wil evoke the vitality and optimism to bring about a new era, with profound implications for southern Africa as a whole. Reform of our economic system will require no less courag

on the part of government, and from the private sector it will require a greater commitment to the principles of private enterprise than perhaps we have shown so far. The conflicts and contradictions in our economic structure are too deep-seated to lend themselves to easy and popular remedies. Hard and difficult decisions have to be taken. Time is not on

our side; the pace of industrialisation in the Far East is proof of that. Provided we are determined to maximise our economic growth by removing or significantly reducing all obstacles to the allocation of resources by the market — uncomfortable for many of us though that may be — there is no reason why success should elude us.

If we succeed in that aim, we shall also have succeeded in another, without which the first is of limited usefulness. A more whole-hearted commitment to the free market system cannot have the required effect unless its benefits are freely extended to the people who by law or custom are still denied full access to them. Their willing and constructive participation will not be obtained without concomitant advancement in political and social, as well as monetary terms. Given that, we may then feel that the foundations of our society are securely laid, for among the virtues of the free enterprise system is one that surely is of special relevance to all South Africans: that in decentralising decisionmaking it decentralises political, as well as economic, power.

#### appointee, cannot but be a little disap-NEWS IN BRIEF.

#### Tax blow for friendly societies

Lack of Parliamentary time during the final report stage of the Finance Bill has meant that limits on tax-exempt friendly society policies will be more than halved. The Bill's clause 70, reducing the maximum sum assured on tax exempt policies from £2,000 to £750, and several other clauses were passed "on the nod" after an allnight debate on earlier parts of

The effect of the reduced limits is likely to force many small friendly societies out of business because they cannot write such small policies and remain competitive.

 BRITISH LAND, the propcrty company, has been given the go-ahead by the Isle of Man Tynwald (Parliament) for an £11m development of the 22cre freeport site next to Ronaldsway Airport. The IoM freeport will not be ready before early 1986 at the earliest. Income tax for individuals and companies is 20 per cent

 ASSOCIATED NEWS-PAPERS is paying an un-changed interim dividend of 4½p for the six months to March 31, 1984, after reporting an increase in pretax profits from £6.99m to £8.36m. Trading earnings rose from £4m to £6.3m. Associated also forecast lower trading earnings in the second half, because of "compelitive conditions".

Tempus, page 23 • IMPERIAL GROUP, the tobacco and brewing giant, has increased pretax profits for the half year to April 30 to £90.7m up from £79.1m. Turnover increased to £2,191.7m from f2,126.4m. An interim dividend of 3p has been declared against 2.75p last time.

Rowton Hotels patched together a compromise solution yesterday to the row which had split its board, minutes before the annual meeting at which shareholders were to be asked to vote the chairman and two other directors off the board.

Mr David Hardy, Rowton's who bought Gresham House's chairman and also chairman of 25 per cent stake and who is Globe Investment Trust, told now believed to hold 29 per shareholders that the two cent, will also join the board, dissident directors, Mr Afred together with two colleagues.

JONES, STROUD (HOLD-INGS): Year to March 31. Turnover £36.6m (30.56m). Pretax profit £3.36m (£2.73m). Total dividend 6.5p (6p, including special, non-recurring dividend of 0.5p). The board expects future profits to reach a satisfactory level.

■ CROWN HOUSE: Year to March 31. Turnover £177.14m (£184.11m). Pretax profit £5.16m (£3.82m). Total dividend 6.4p

New chief for World Bank subsidiary

# Developing role for the IFC

By Michael Prest

Almost exactly two years ago, Sir William Rytic received a telephone call from none other then Mr A W "Tom" Clausen, president of the World Bank. Would Sir William be interested in running the Inter-national Development Association, the Bank's concessionary loan arm?

Sadly, Sir William says, he felt he had to decline. After only two weeks as permanent sec-retary to the Overseas Development Administration, a change of jobs might seem precipitate. But when in April of this year he met Mr Clausen in Washington, Sir William expressed interest in taking over as executive vice-president of the International Finance Corporation, a post made vacant by the impending retirement of Mr Hans Wuttke. The inevitable

was more fruitful the second time.
Sir William's appointment for comes at a delicate moment for the IFC and for the World Bank ast time.

I as a whole. The IFC was founded in 1956 as a vehicle for

telephone call from Mr Clausen

Sir William Ryrie: cuy about changes at IFC.

financing private entrprise in developing countries. Since then it has committed more then \$5.5 billion (£4.21 billion) projects. A fortnight ago, its capital was doubled to \$1.3 billion.

Just as the Bank has been rethinking its role in the light of a harsher political and econ-omic climate, so the IFC has recently announced a new Over the next five years it will pay particular attention to

World, enterprise in Africa, and restructuring companies, especially in Latin America. These and other projects will absorb \$7.4 billion. Sir William was economic

minister at the Washington Embassy from 1975-79, a post traditionally combined with serving as an executive director of the World Bank, the International Monetary Fund and IFC.
He his moreover committed to the value of the private sector

in development. "There's a genuine belief, which I share, that a vigorous private sector is indispensable to the fastest growing economies, he says. Nevertheless, Sir William is a civil servant and he is coy about what changes which might follow at the IFC. In principle, at least three areas come to mind: examining how the IFC finds and evaluates projects whether it should take more direct equity participations rather than merely provide debt finance and arrange finance packages; and how the IFC might encourage direct equity

# Ending the silence on Gower

Professor Laurence 'Jim' Gower had little doubt what the Government would do with his two-year study on investor protection. Calling on his experience as a senior academic advising politicians, he said: "I expect them to tear it to pieces and then present what is left as

Oddly, in the six months since he made that statement, the politicians have done neither of these things. In fact, those listening for murmurs of Government policy on the matter could have heard a pin

drop.

The silence will be broken on Monday with the first parliamentary debate on Professor Gower's report. It will be opened and closed by senior ministers of the Department of Trade and Industry. Yet even this is not expected to throw a great deal of light on Governnent thinking

Professor Gower's report was not a formal government investigation. It was made clear when he was appointed three summers ago that his was to be an independent view.

Cynics saw this as a neat political move by a Govern-ment unsure of what to do with investment advisers, licensed dealers, stockbrokers and commodity dealers collapsing round their ears, With the exception of the hammering suffered by stockbrokers, these crashes were leaving investors

The Prevention of Franvestnents Act, designed to protect investors from sharp practice but basically designed more than half a century ago, was hown to be inadequate.

Whitehall accepted that it would not be sufficient to tinker with this law again. So it was decided that a full review, with interim measures to control the behaviour of licensed dealers, was necessary. Just as Professor Gower was putting the finishing touches to his diligent work and incisive assessment of how the City structured and policed itself, the Government and Stock Exchange struck a deal which had the effect of broadening the investor protection

While Lloyd's of London was busy trying to distance the principal from the agent in insurance, the Stock Exchange was busy accepting as inevitable that to compete in international markets principal and agent would become one under a dual capacity system.

Mr Tebbit: Tebbit: vaguenes may hide conflict.

This move away from the existing single capacity system looked like dispensing with the competing stockjobbing system, which afforded a large measure of protection in that the stockbroker's interest was to ensure that the investor would at least deal at the best price possible for his shares.

In the event of a stockbroking collapse, the exchange's compensation fund would reim-burse the investor for losses. Even here, Professor Gower could draw on personal experience. He was one of the investors caught by the collapse of Hedderwick Stirling Grumbar just three years ago.

His money was returned. "But it took quite a long time, and although the sum was not large they had the use of that money for some few weeks. You see, even the Stock Exchange needs to be watched," he said

Professor Gower does not specifically deal in his report with the effects of the impending changes in the structure of scurities dealing, as traditional hard barriers are being replaced by "Chinese walls" between departments of firms. Although he allowed himself to be dissuaded from his original thoughts, these now have the support of a number of heavyweight organizations.

Possibly the most radical change is in the number of his proposed self regulatory agencies which will come under some form of umbrella organization acting as a buffer between the practitioners and the civil servants at the Department of Trade

Gower's

Professor Gower: still working on draft bill.

thoughts were to keep these selfregulatory agencies to about half a dozen, grouped by business function rather than by organi-zation. For instance investment advisers would form one group whether they worked in mer-chant banks or for unit trust

The City establishment had said that employees of different types of firms would not tolerate being lumped together. But the majority of responses to his report have, in practice, gone along with his original

The divergence of interest in the City resulted in a frag-mented and uncordinated response to Professor Gower when the deadline expired last

The pace began to drag, especially when the need became apparent to establish more protection measures in the new-style Stock Exchange, which is poised to allow in

The Governor of the Bank of England has now gathered together a special committee of ten to sort out these different interests and produce a work-able system. The committee will be near completing that task by the end of this month, four weeks ahead of its original

They are still working somewhat in the dark. Only the broadest government has so far been made public.

In his first public speech on the subject less than a formight-ago, Mr Norman Tebbitt, the trade secretary, set out five main objectives, which spelt out main objectives, which spelt out what he wanted in the most general terms. One reason for this vagueness, it is emerging

Tebbit and his under-secretary and the Minister for Corporate and Consumer Affairs, Mr Alex Fletcher, on the best way to

Mr Fletcher does not favour vesting the job of policing the City in the Council for the Securities Industry, sponsored by, the Bank of England of which Professor Gower has tive, will be the new chief executive. On the same date, Mr K. G. P. Crafter becomes deputy chief executive and been sharply critical. Mr Fletcher, by far the most publicly vociferous minister on the subject of City regulation, retains his responsibilities for sees a case for adapting the existing regulatory systems of the Stock Exchange and giving group finance.
National Association them the power to be the City's

That could make for lively debate next Monday. The Conservative backbench committee on trade and industry, lead by Mr Michael Grylls, is already pushing for some form of statute-backed self-standing

It has also been accepted as a possibility by the powerful Accepting Houses Committee, which represents the 16 most influential merchant banks.

For all these general ideas, no one yet appears to have worked out exactly which people will be covered by which of these new self-regulatory agencies. There is still, for instance, much argument whether life assurance commissions should be treated the same as those for unit trusts. and it is still unclear how the odity markets propose to establish a self-regulatory agency. Profesor Gower is still working on the detailed draft Bill which is to form the second part of his report.

Any new law should say quite clearly that clients' money should be held in trust for them and separate from any company account, and an adequate compensation fund should be arranged and made compulsory for anyone who wants to advise others where to spend their

Before further progress can be made a clear signal is needed from the Government on whether it wants an umbrella organization to be called a commission, weighted heavily with civil servants, or an enlivened version of the Bank of England's protege, the Coun-cil for the Securities Industry,

#### APPOINTMENTS

# **Director promoted** at merchant bank

offer. But the "sunrise" offer left bidders Sun Alliance down 18p at 338p. Other insurance shares to respond to the bid action included Commercial Union, up 6p to 215p, and Sun Life which rose 51p to 642p. Fleet Holdings eased 4p to 171p as the likelihood strengthened of Robert Maxwell winning control of Micror

Group Newspapers from Reed Thern EMI tumbled 37p to 480p following much-as-ex-pected results and the £95m acquisition of 76 per cent of Inmos, the hitherto govern-ment-backed micro chip group.

But Imperial Group, the brewing to tobacco business, suffered a 9p fall to 137p after interim profits of £90m (against hopes of up to £97m). Once the figures were known at least two lines of i million shares came on offer, Although Imps could have hardly picked a worse day for its figures, the interim performance is likely to leave the shares friendless.

Both Thorn EMI and Imps are FT-30 Index constituents and helped to drag the Index down more sharply than the general run of trading justified.

The shares of London &

Overseas Freighters were sus-pended at 8p pending the underwriting of a capital injec-tion by shareholders into the company. A further statement is expected in a few days.

Equity turnover on July 11 was £291.876m (15,708 bargains). The number of British and Irish stocks traded was 175.1 million. Gilt bargains totalled 3,723.

#### **TEMPUS**

# Now for the bad news at Associated Newspapers

Associated Newspapers yes-terday emphasized its recent market underperformance with a 10 per cent fall from 493p to 443p. The forecast of a second half trading downturn, added to characteristic Vatican-like reticence about the breakdown of profits, may have set up the shares for a further bout of weakness.

Associated, publishers of the Daily Mail and Mail on Sunday, is paying an un-changed dividend of 4.5p, after raising some £17m through the Reuters share sale. Its stake in Reuters is still worth 170p a share. That is the good news. The Mail on Sunday continues to buy circulation and take advertising at "competitive" rates. Both are customary Fleet Street practices: only the scale of the losses (£20m plus according to some estimates) is causing raised eyebrows. How long is Lord Rothermere prepared to let it happen? Perhaps until the rival Sunday Express is beaten and Lord Matthews retires from the

Outside newspapers there is speculation that the rundown of the North Sea Argyll oilfield, which has meant so much to Associated, has not been matched by higher production at Duncan, A second half oil earnings boost should stem from sterling's decline. The other side of the coin is rising newsprint costa. The effect of a prolonged dockers' strike on newsprint supplies must be an incalculable factor in the

rating.

Meanwhile, the analysts are

**Imperial Group** With the stock market in such

a foul mood, it is a bold company that fails to live up to expectations and when Imperial Group's interim figures fell well short of City estimates the share price was duly savaged. It dropped 15p to 133p but rallied, after the company made soothing noises about distortions in the tobacco division, to end the day at 137p.

The group produced pretax profits of £90.7m, 15 per cent up on last year but still around from short of most predictions. Most of this shortfall was attributed to Imperial Tobacco. which had a very disappointing first half. There is a suspicion that the reasons go beyond the drag on sales caused by a later price increase and earlier Budget and it may not be such an easy task to make up the lost sales in the second half,

The US subsidiary Howard Johnson also had a miserable six months and a small loss was transformed into a bigger loss of £2.8m

Even the brewing and leisure division offered some source of concern with most of the profit increase coming from add-

itional property sales, Imperial, having recovered from the traumas of the late 1970s and early 1980s when the company was floundering, now faces another crucial period. That recovery must be

shooting for a £700,000 dow- transformed into sustained nturn this year to £15.5m growth. Imperial wants to before tax.

The state of the s now needs to show that growth can be maintained. The many friends won during the last two years should be patient while the company sets about its

#### Thorn EMI

Thorn EMI insists that it has not just won second prize in a beauty competition: Inmos is an acquisition attractive in its own right and in no sense a substitute for British Aeros pace. Nor, says Thorn, does the acquisition of the Government's 76 per cent stake in lumos rule out an immediate bid for the next company on its list if the moment looks right.
Inmos will stand alone

within the Thorn empire and should show some exciting growth from its new high-tech products. It could make between £10m and £15m this

Thorn's full-year results, also published yesterday, were just about what the market expected, at £156.8m against £122m, though the total figure masks ups and downs,

This year's group performance is difficult to forecast because of the effect of interest rates, mortgage rates and the miners' strike on Thorn's diverse customers. Resolution of the country's industrial disputes and financial stability would make the shares look cheap at yesterday's 480p. down 37p.

#### In brief

PHILIP HARRIS (HOLD-INGS): Year to March 31. Turnover £24.83m (£21.26m). Pretax profit £612.000 (£487.000). Total dividend 7.25p (6.75p). Mr John Haller, the looks forward to mainsining the improvement in trading n the current year.

GREYCOAT CITY OFFICES: held by Year to March 31. Turnover £3.01m £6.89m. (£2.45m). Pretax profit £2.47m BEE (£1.82). Total dividend 1.4p (1 15p). year to RATNERS (JEWELLERS): Year to April 6. Turnover £27.61m (£25.94m). Pretax profit £1.06m (loss £350,000). Total dividend 2.3p (same). Trading continues at a satisfactory level during the current period, the board states, but the important part of sales and profits are achieved in the second half.

● BROMSGROVE CASTING & MACHINING: Year to March 31. Turnover £5.17m (£4.08m). Pretax profit £255,000 (£140,000). Total dividend 2.75p (2.25p).

Robert Fleming Holdings, the perchant banking group, increased profits from £12.1m to (£3.79m). Pretax profit £1.99m (£1.95m). Total dividend 8p (7.3p). At March 31, Western's listing investments, bank balances, cash and short-term deposits were \$5.77m - 109.2p for each ordinary share. Profits for the first two months of the current year did of reach the level of the similar period

in 1983, the board reports.

TRIPLEX FOUNDRIES
GROUP: Year to March 31.
Dividend trochanged at 0.5p a share. The board reports that as (£30.55m). Pretax profit £776,000 (loss £992,000). Subject to the fortunes of the economy and overnents in interest rates, the show continuing recovery.

• YEOMAN INVESTMENT
TRUST: Half-year to June 30. The
interim dividend is being raised

at 5.2p. Pretax revenue £570,000 (£617,000).

HASLEMERE ESTATES: Year to March 31. Pretax profit £5.83m (£7.08m). Total dividend 8.7p (7.9p). Haslemere's investmen properties were valued at the year-end at £270.75m. Other investment properties, held for, or in the course of development, total £5.55m. Stock

• BIRMID QUALCAST: Half-year to April 28. On turnover up from £89,6m to £108m, pretax profits more than doubled, from £2.01m to £4.78m. Recognising the profit imporvement - and as a move towards correcting the disparity between the interim and

0.660 a share. ● MITCHELL SOMERS: Year to March 31. Turnover £29,83m (£32,72m). Pretax profit £1.03m (£1.22m). Total dividend 3.25p

#### Group profit before tax for the six months ended 30th April, 1984 was £90.7 million (1983 £79.1 million). This represents a 15% increase over the first half of last year and was due to a combination of improved trading results and lower interest charges.

Imperial Brewing & Leisure Ltd, Imperial Foods Ltd, and Howard Johnson Company showed increased turnover. As for Imperial Tobacco Ltd, trade buying in October, 1983, ahead of manufacturers' price increases, resulted in lower volumes in November and affects the comparison between the two half-years.

Apart from improvements in trading, operating profit of the UK divisions continued to benefit from further cost saving programmes and from the reorganisation of production and distribution facilities over the last two years. In the USA, the Howard Johnson Company, under increasing pressure on margins, again made a loss in what is for them the low season of the year.

Substantial new investment programmes are being implemented in many parts of the Group, particularly in pubs, restaurants and hotels. Development of this kind inevitably has an impact on current profitability but will make a good contribution to Group performance in due course. The reduced interest charge was largely the result of higher cash balances

disposal of the Group's poultry business in the UK. Average interest rates were also down. The overall rate of Corporation Tax is expected to be lower in 1984. As a

during the period, due in part to the receipt during 1983 of £20 million from the

result, Group profit after tax for the first half, at £65.0 million, shows an increase of 23% over the corresponding period in 1983. Earnings per share, before and after tax, rose by 12% and 19% respectively. Barring major unforeseen circumstances, it is currently expected that Group

profit before tax for the full year ending 31st October, 1984 will show a rate of

progress approaching that achieved during the first six months. The Directors have decided to declare an interim dividend of 3.0 pence per share, as against 2.75 pence per share last year. This will absorb £22.4 million (1983 £19.9 million). Warrants will be dated 1st November, 1984 and will be posted to those shareholders who are registered in the books of the Company at the close of

business on 3rd October, 1984. By order of the Board

. Peter M Davies Group Secretary

2. The £15.8m charge for Extraordicary items includes £14.4m in respect of the reduction in the Group's deferred tax asset consequent upon the changes in the structure of UK corporate tention proposed by the Chancellor of the Exchequer in his Budget Statement in March, 1984. 3. The current cost profit before reaction was £68m (1983 £56m) after allowing for a gearing adjust ment of £64m (1983 £7m).

Imperial Group plc, Imperial House, 1 Grosvenor Place, London SW1X 7HB

At the Annual General Meeting held on 30th June 1984 under the chairmanship of Monsieur Mantelet all the resolutions put forward The dividend was fixed at Frs 4.00, the same as in the previous year which, with the tax of Frs 2.00 already paid to the Treasury, produces a total income of Frs 6.00. Payment will be made on 18

July against presentation of coupon No 14.

# Small firms creating the jobs

By Derek Harris

Almost a third of new jobs in the private sector are created by small businesses employing fewer than a score of people. Another 21 per cent of new jobs are generated by still comparatively small businesses employing between 20 and 99 people.

This first detailed insight into the role small businesses play in job creation in Britain comes from research by Colin Gallagher, professor in charge of the Department of Industrial Management at the University of Newcastle upon Tyne. The results were published yesterday in British Business, the weekly Depart-ment of Trade and Industry Maga-

David Trippier, minister for small businesses, welcomed the research as demonstrating that small firms would continue to increase their share of the labour market.

Until the Gallagher report the main indication of the role played by small businesses has been research in the United States which suggested that small firms with 20 or fewer employees generated 66 per cent of

The British research results are not directly comparable, being an analysis of the job generating performance of groups of companies of different size,

But the research underlines the crucial role played by small businesses in job creation in Britain even though it falls behind the US performance. It could have considerable impact in Whitehall where enthusiasm in some departments of state for supporting

growth of small businesses has shown the signs of cooling. The most recent example has been the watering down of the Loan Guarantee Scheme

The Gallagher research assesses the performance of companies in terms of their share of employment and covers the period 1971-1981. The smallest companies with 19 employees or less, while accounting for only 13 per cent of all employment in the sample, were responsible for 31 per cent of the job

Companies with 20 to 49 employees, accounting for 8 per cent of employment, produced another 11 per cent of jobs. In the 50 to 99 employees bracket firms produced a

further 10 per cent of jobs.

Professor Gallagher says: "The fertility ratio of job creation to employment suggests that with some consistency the smaller a plant is the greater is its potential to create jobs.

Job creation performance worsens with increasing size and for the largest firms that performance is very poor."

The data shows that companies with 1,000 employees or more, while accounting for 36 per cent of employment, generated only 17 per cent of jobs. Companies of between 500 and 999 employees created only 10 per cent of new jobs.

Many large companies have been affected by recession during the period researched, it is pointed out. Professor Gallagher adds: "The strong performance of small firms correlates with their growing contribution in the economy as a whole over the 1970s when their share of employment has increased after 40 years of decline. The move from manufacturing to the service sector will also have helped the small firms' performance."

 Share of Job Generation by Small Furns: by Professor Colin Gallagher and H. Steward British Business, July 13. Inquiries: Professor Gallagher, Department of Industrial Management, Stephenson Building, University of Newcasile upon Tyne NEI 7RU, phone (0632) 328511, ext. 2188.

'Ah! The highlight of my year - the works

#### £150 'carrot' to use BOTB services

 Although four-fifths of users of British Overseas Trade Board services are already small companies, the BOTB this week launched a campaign to woo more into the fold. An introductory voucher worth £150, made out to look like a cheque, is going to any small business with 200 employees or fewer using BOTB's main services for the first time, encashable against the cost of using any of the services

encashable against the cost of using any of the services. The idea sprang out of research by two small business heads, Roy George (he makes place mats at a 200-worker Consett, County Durham, factoy) and Gisela Burg, London-based marketer of audio and hi-fi equipment who was 1982's The Times Businesswoman of the Year. She said: "Too many small firms are reluctant to approach any Government department, This is a prejudice we need to overcome for friendly, experienced help is available that can save a lot of time and money for those breaking into and money for those breaking into

exporting."
The report's main conclusion is that the biggest need is to concentrate on reaching more of the smaller businesses which are potential exporters. It makes a number of detailed recommendations, including a speeding up in payment of travel grants to companies going on Others in speeding the speeding of the Outward export missions and joint

Gisela Burg: "too much reluctance"

Bigger discounts are also urged for first-time exhibitors at trade fairs supported by BOTB.
BOTE is also urged in the report to involve more closely other exporting organizations, such as chambers of

commerce, to gear up the campaign to launch more small businesses into

Contact: British Overseas Trade
Board, Room 235, 1 Victoria Street,
London SW2; phone (01) 215 5222.
Copies of report available. Details of voucher scheme siso available at regional

Small businesses expect production levels to confinue to increase over the next four months, although not at the record levels of the past tew months. More small companies also expect to hold their prices during the period. This emerged from this week's Confederation of British industry survey of 902 small manufacturing businesses. There were 68 per cent expecting not to raise prices in the next four months while 5 per cent forecast a reduction. There were 26 per cent expecting to raise were 26 per cent expecting to raise

prices.
Croter books remain about the same as in the last CBI survey but are high compared with 1983 levels. This applies also to export order books. Stocks remain around the desired level for small

businesses. But Alan Stote, chairman of the CBI's smaller firms council, warned: "The latest round of increases in interest rates will do nothing to help the recovery."

# CRICKET: WEST INDIES PRISE OUT ENGLAND TOP ORDER ON FIRST DAY OF THIRD TEST MATCH

worse. When England were 87 for four it looked as though it would be, but Lamb came to the rescue again, with a second bad light stopped play three-quarters of an hour carly, England's recovery in the third Test match, sponsored by Cornhill, was going pretty well. Not only that Marshall, who suffered a cracked thumb in the opening half-hour, is unlikely to

bowl again in the match. Having chosen to bat England must soon have been wishing they had not. The carly batsmen showed no conviction whatever. Even watching them was an ordeal. But Broad stuck it out until after lunch, and on a pleasantly sunny afternoon Lamb and Botham added a rapid and entertaining 85.

What an extraordinary game it is! Lamb would have trembled if Abdul Qadir had come on and bowled leg-breaks and googlies at him, yet against the most menacing attack in the world his bat at the moment has a fine ring to it.

The greens at St Andrews next week will not be much faster than Headingley's outfield. Take a putter from the middle and it would need headly need the state of t hardly more than a nudge to send a golf ball to the boundary. Lamb had no need to run for

#### Scoreboard

ENGLAND: First Innings 1-b-ur b Gerner d c Lloyd b Herper e Herper b Holding or I-b-ur b Gerner

HEADINGLEY: England have more than two or three of his 15 all the morning, had taken two fours. A good England having for 28.

It could have been a lot side against the West Indian

A quarter of an hour into the could have been a lot side against the West Indians go in light stopped play threeindict man two or three of his 15 all the morning, had taken two fours. A good England batting for 23.

A quarter of an hour into the afternoon, Harper came on wheretopon Broad relaxed. Having batted with courage and concentration for two hours and they will have 500 in their a light stopped play three-

ball through the covers and A long discussion preceded the announcement of the edged it to slip. This was disappointing. By now Marshall was back from hospital, his left hand, damaged while fielding in the England team, It took place next to the Test pitch and involved the four selectors and Gower. From the way Gower made off to join the rest of his team, who were doing their PT, he was denied his preference. If gully, in plaster up to the wrist. This eased the pressure somewhat, and Botham began at once to play very well.
When, in the same over, this, as I imagine, was for Cowans rather than Cook, it would be understandable. Since Garner bowled a brace of rare half-volleys, Botham thwacked

the first Test, Cook's seven firstclass wickets have cost him 62 runs apiece. Cowans, over the same period, has taken 19 at 16 apiece. The selectors, concerned with balance anyway, may have argued that by Monday the ball will be turning. Soon, though, it began to look as if the match might not last until then.

In the first over, Fowler was beaten twice by Garner. In Garner's fifth over, he was legbefore, playing no stroke. As Terry appeared, I thought of the prayer which Lord Birkett said every mother in the land might be offering up for lan Craig when, so young he came to England in 1956: "May God bless thy going out and thy coming in." Terry batted now for 35 minutes before being caught, as had begun to seem likely, at first slip, as he lunged

That was 43 for two, At 53 That was also fewo, at 33 Gower was also leg-before to Garner, playing no stroke. There were no complaints, that I heard of, about the decisions. I do know, though, how difficult Garner would find it - from his beight at his greed with his lift. Garner would find it – from his bet bet 5-172, 5-236, 1-13, 2-43, 3-53, 4-57.

Garner would find it – from his beight, at his speed, with his lift and without a batsman in the 5-172, 5-236, 1-13, 2-43, 3-53, 4-57.

Garner would find it – from his beight, at his speed, with his lift and without a batsman in the way – 10 pitch the ball six or seven feet short of the popping crease and still hit the stumps. Having spent 43 minutes getting off the mark, Broad was 26 at lunch, England were 68 for three, and Garner, who bowled

Lamb leads England away from slaughter

Lamb: first England player for 27 years to score successive centuries against West Indies.

# Williams swinging Lloyd hope in the rain

By Marcus Williams

UXBRIDGE: Gloucestershire, with hughes at mid-wicket, was leg-be-four first innings wickets in hand, fore to a ball that kept low, are 210 runs behind Middlesex. are 210 runs behind Middlesex.
Only 21 overs were bowled at Uxbridge yesterday, rain intervening in the morning when Middlesex were cutting their way through Gloucestershire's upper order, and causing a six-hour delay until pay restarted at 6:10 under a watery sun.
Williams, swinging the ball-away from the bat at a resting pace, had taken three wickets in 11 balls befoore the stoppage to reduce Gloucestershire from their overnight 44 for one to 71 for four, and Eight more runs were scored before the first of a succession of showers, which kept the umpires, Jepson and Palmer, occupying their joint birthdays with occasional and semingly hopeful forays from the pavison to the middle. Fortified by celebratory cakes (though no candles) presented to them by the Middleser club at scattere, they were able finally to decree that play

then Hughes struck twice in one over to knye them at 97 for 6 and in danger of following on.
After a delayed start, Deniel.

MAIDSTONE: Kent, with eight second innings wickets in hand, lead Derbyshire by 50 run.

Derbyshire seizing the initiative by declaring 28 runs behind, 10 minutes after tea, were deprived by minimes after tea, were deprived by maintenance gaining the maximum opportunity for their enterprise. Only 10 of the remaining 32 overs were possible, though in that time Kent lost both their opening batsmen, Taylor and Benson.

Thrill the light attenued towards

batsmen, Taylor and Benson.

Until the light worsened towards tea-time, batting usually looked easier than on Wednesday, Stands between Barnett and Hampshire for the second wicket and Fowler and Finney for the sixth provided the substance for Derbyshire, who recovered well from a mid-afternoon shamp. Elison looked the best of the faster Kent bowlers and Underwood settled into a smooth rhythm on a pitch which has started to yield turn.

Barnett's 84 was his eighth fifty this summer, and his consistency

Barnen's 84 was his eighth fifty this summer, and his consistency has been invaluable for his side. A doctor advised Barnett on Tuesday to rest a strained groin muscle for 10 days, but he showed no sign of being inconvenienced as he drove freely past cover with text book correctness and took runs off his legs.

Hampshire looked as solid as ever, particularly with strokes past mid-on and midwicket. It will always remain one of the game's misor curiosities that in his heyday he played in only eight Test matches. He and Barnett added 110 after Alderman had dismissed Hill.

Tavaré used his six bowlers in short spells and after lunch had started to look even more pensive than usual before Kent took four wickets in 40 minutes. Ellison claimed three of them in 44 balls.

Hampshire, who survived a chance to midwicket off Cowdrey when 33, was caught behind driving and Barnett, who batted 53 overs.

chance to midwicket off Cowdrey when 33, was caught behind driving and Barnett, who batted 53 overs, was also caught by the wicketkeeper, in the next over. Underwood's quicker ball beat Marris before Ellison had Miller leg-before as he pushed forward.

This, though, was the extent of Kent's success as Fowler and Finney settled into a partnership which put on 83 in 17 overs before the declaration. Fowler's firm stroke play against Alderman and Underwood was a revelation and he hit a six and 10 fours in his 60 not out. six and 10 fours in his 60 not out.

**Brown lines** 

# up second successive victory

By Mitchell Platts

By Mitchell Platts

Ken Brown survived an exacting time at The Belfry yesterday to compile a second round 71 and move towards a second successive win. The Ryder Cup player defied the windy conditions in the Lawrence Batley International and pieced together a solid score less than two weeks after he won the Glasgow open by eleven strokes.

He share the halfway lead with Sam Torrance, who took 72, on 140, which is four under par for the Brabazon course.

which is four under par for the Brabazon course.

Brown has moved unoothly into top gear virtually on the eve of the Open championship. Four years ago, at Muirfield, he emerged from the pack as Britain's strongest contender by entering the final round gallantly chasing Tom Watson. On the final day, as he painstakingly took 76, he provided a vivid illustration of his inability in cope with the pressure of trying to follow in the footsteps of Tony Jacklin.

Now he has a more authorative

Now he has a more authorative approach. There has never been any doubt about his salky touch on and around the greens, so the manner in which he executed three bunker shots on the outward half to salvage pars was nothing less than we have come to expect from hum.

Brown's ability to remain cool in a crisis has enabled him to make significant strides. When his drive at the last strayed into the rough he

significant strides. When his drive at the last strayed into the rough he accepted the situation and chipped back on to the fairway. He fired a three iron from 188 yards out to seven feet from the hole and made the putt for an unorthodox regulation four.

Denny Hepler, of the United States won a motor carayan valued.

States, won a motor caravan, valued at £10,500 when he holed in one at the 14th (194 yards) with a two iron.

#### Jacklin to pick three

By Mitchell Platts.

Tony Jacklin will select three players for the European 12-man team to meet the United States in the Ryder Cup at The Belify, from September 13 to 15 next year. But Jacklin, explain for a second successive time after taking the team to within one point of victory in the United States last October, at one stage offered to select the entire squad, during a two-hour debate of the PGA European Tour

What worried Jacklin was the prospect of taking all the players from the money list, as was done last year, thus automatically excluding some of the golfers who are likely to be competing on a regular basis on the American circuit. These players included Severiano Ballesteros, Nick Faldo, Bernhard Lonner, Batte Cortechting Bernhard Langer, Peter Oosterhuis and, possibly, Ken Brown and Sandy Lyle.

#### **EQUESTRIANISM** Biggest win for Richardson

Peter Richardson, on Foxwood, kept the Midland Bank Cock o' the North championship within Yorkshire when he had the only triple clear round at the Great Yorkshire Show at Harrogate yesterday

# Miss Gracie McEnroe hints at Davis Cup let-down

semi-finals Atlanta (Reuter) - John McEnroe Joins forces with Jimmy Coanors, whom he outclassed in last Sunday's Wimbledon final, as the United By Lewine Mair Lorrayne Gracie, a fine volleyer States seek revenge over Argentina in the Davis Cup quarter-final bere

who has done better in the senior areas than ever she did among the juniors, yesterday defeated the second seed, Pam Whytcross, of the United States, to reach the semi-finals of the Scottish champion-ships, sponsored by Ford, at Craiglockhart. After running away with the first set 6-0, Miss Gracie did well to survive a lively tie-break in the Davis Cup quarter-final here today.

The Argentines are a traditional thorn in the side of the US. Their most recent triumph over the Americans, who won the cup in 1981 and 1982, was a 3-2 first round win in Buenos Aires last year.

But this time the Argentines, who were riumphant in three of the last five encounters between the two countries, go into the three-day tie without Guillermo Vilas, who is ruled out of his thirtieth cup tie by injury and other commitments. lid well to survive a lively tie-break

injury and other commitments.

Against this, McEnroe admits that he will struggle to find his best form so quickly after peaking at Wimbledon. "I know there will be a let-down", he said. "It is tough to get up for it this week. It's not a good week to play." good week to play."

Despite Mcharoe's doubts, Argentina are in danger of being steamrollered. McEnroe is in the middle of a superb year, having lost just one match in 55. He also bolds the American record for most Davis Cup victories — 30 in singles matches and 43 in the competition. The medium-fast courts will help the Americans, In two ties played in similar conditions they ran out 4-1 and 3-1 winners over the Argentines

in Memphis in 1979 and in Cincinati two years respectively. Joining McEurne and Jimmy Connors will be Jimmy Arias and Peter Fleming, McEuroe's doubles

parmer.

The winner of this tie will meet either Australia, the holders, or Italy in the semi-fmal. Australia will need Pat Cash at his Wimbledon best to Pat Cash at his Wimbledon oest to avoid any slip-ups when they meet Italy on grass in Brisbene.

Cash reached the singles semi-finals at Wimbledon last week before losing th McEnroe. Italy, who without their injured

# Skin rash forces Ovett out of Talbot meeting

Steve Ovett has withdrawn from the 1,500 metres in the Pengeot Talbot Games at Crystal palace this evening, due to a skin rash. His projected appearance in the 800 metres for England agaismt Poland and Humgary in Birmingham on Sunday is not believed to be in jeopardy, but he seeds a race at his shorter Olympic distance.

lost 19-18 to Australia in Aberdeen. For the second game running, the Scottish pair, Willie Wood and David Gouriay lay three shots, which would have clinched the match at the final end, but were thwated by the last bowl from the Australian skip, Bob Middleton.

Now, following successive defeats by Western Samoa and Australia, Scotland have been relegated to the role of oursiders. He said in Lausenne, where he He said in Lamenne, where he easily outspirated most of tonight's 1.500 metres field - apart from the Yugoslav. Drasan Zdravkovic, who bear Scharten Coe at this meeting lest year - that he would not run in Edinburgh on Tourday, but he may need to consider that now, if not, the other independent meeting in Stockholm that smale evening. Gourley, the Scottish skip, said afterwards. We are really running out of time now and we simply cannot afford any more slip-ups if we want to reach the final.

Surve Crain tries to bey another pro-Olympic scare with the first of a series of three races in five days this evening, after his leg injury at the AAA championships three weeks ago. He runs in the 1,000 metres, and said yesterday he was more concerned about trying out the injured leg at full speed than about the opposition.

England, defending the world injes title, had to settle for a tie with Australia at 14-14 in section A. Alian Wells should get his first real test of the season, since his late return to competition last weak was only in a citle fixture. One of his only in a cirib fixture. One of his competitors in the 100 metres is Hasely Crawford the 1976 Olympic champion, of Trinidad. Wells's yardstick, however will be against Donovan Reid, who has run 10 point 3 sec so far this year, in beating Ronald Desruelles, of Belgium, who was an impressive winner against a very strong field in Lansance.

Neither Wendy Sly, nor Tatiana Kazankina, of the Soviet Union, winner of three Olympic gold medals, will be competing against

Zola, Budd in the 2,000 metres, as had originally been hoped.

The chances are that, with Seven Bubka and two former Polish olympic champious, Wdisław Koza-kiewisz and Tadeusz Slusarski, the kiewisz and Tadeusz Stusarski, the pole vault this evening will be as good as the one in Lausanne, where the Frenchman Pierre Quinon and Thierry Vigneron, jumped 5.80 metres and 5.70 metres respectively. The other big event of the weekend is the English Schools champioships, at Thurrock, Essential from Reading selected for the Olympic spint relay team, bridges the gap between schools and international standards. And she also runs in all three meetings this

at shorter distance.

# Olympic withdrawal

Athens (AP) – The former world record-holder in the women's javelin, Sofia Sakorafa, has dropped out of Greece's track and field team for the Los Angeles Olympics because of a shoulder injury, her coach said here yesterday.

Miss Sakorafa, aged 27, set a world record in 1982 when she threw 74.2 metres (243ft 3in), beating the previous record of 72.40 metres held by Tina Lillak of Finland. But the was injured at the end of July last year and although

IN BRIEF

she went to the 1983 world championships in Helsinki, she was unable to throw.

Miss Sakorafa, who said then "my dream is the gold medal at the Los Angeles Olympics", will have to undergo surgery on her damaged shoulder, her coach said. However her compairiot, Anna Verouli, who won the gold medal in the woman's javelin at the European Games in Athens in 1982, is a likely winner of a medal in Los Angeles next month.

#### Herdman in trial for NFL club Martin Herdman flew to Kansas

City yesterday to try and become the first British Rugby League player to establish himself in American football. Herdman, a American tootball. Heruman, a second row forward on the transfer list with struggling Fulham, has been invited to join the summer training camp of the Kanses City Chiefs on a month's trial. If successful, he could earn more than £100,000 a year compared with a £9,000 salary at Fulham.

£9,000 salary at Fulham.

Herdman bacame a grid-lion fan after warching the game on television. "I saw this character playing called John Riggins, who is considered a hero over there. He is practically the same weight and height as myself, and I thought I could do a similar job."

With help from a coach at the United States Air. Force base in High Wycombe, Herdman applied to a member of NFL clubs and the Kansas City offered to fly him over. Herdman, aged 26, 6ft 2ins and 17st and is being considered as a running back. "I'm the one who has to crash through tackles and make ground, he said. "It's hard, but not as hard as Rugby League, and they get paid an awful lot of money."

BOXING: The London welter-weight, Sylvester Mittee, has a new opponent for his televised 10-rounds at the Bloomsbury Crest Hotel, London, on Saturday

afternoon.

Floyd Mayweather, of the United States, has withdrawn with a damaged hand and is replaced by the former world champion, Perico Fernandez, of Spain, who has accepted the connest only a week after his unsuccessful, attempt to win the European title. Fernandez, aged 31, held the World Boxing Council light westerweight championship from 1974 to 1975.

# the first grand prix tournament in the United States to be played on

Newport, Rhode Island (AFP) – Scott Davis, the American who reached the last 16 of the men's singles at Wimbledon before losing in five sets to Ivan Lendl, was surprisingly beaten by his unseeded compatriot, Matt Michell, in the second round of the grand prix tournament here. Mitchell recovered from a set down to eliminate the No 2 seed 3-6, 6-3, 7-6, The ten and Tim Mayorte.

# Davis loses to outsider

6. The top seed, Tim Mayotte, looked in trouble against Eddio Edwards of South Africa, losing the first set 7-6, but he recovered to take the remaining two sets 6-4, 6-3 and move into the quarter-finals of this

The only non-Americans to win through on Wednesday were Brad Drewett, of Australia, who disposed of Jay Lapidus, of the United States, in straight sets, and India's Vijay Amritaj, winner in three sets over Christo Van Rensburg, of South

# and in the British eight's fine victory on the opening day in the Lucerne interactional. Add to that the embarrasament of riches in owning two very fast fours. Since the isangural world championships in Nottingham in 1975, Great Britain has, was four gold, four allver and two bronze medals. The organizers of this weekend's national championships are praying, whatever their persuasions, for good weather and that simply means keeping the wind off Holme Pierrepont's waters. The schedule is more than 24 hours of racing covering three days and such an ambitious programme needs more New football league flexes

its million-dollar muscles

year, the United States Football League, a rogue gridiron troupe which proposed to upset the balance of nature by playing throughout the spring and summer.

With much of its impetus coming from the

south - New Orleans Breakers, Tampa Bay Bandits, Arizona Wranglers - traditionalists feared a new revolution, disguised in football padding the confederacy strikes back.

The league was branded a "circus" and a "scandal", and a New York Times columnist, outraged by its intusion on summer baseball, wrote: "It's indeed comparable to staging a rock

concert during a cathedral service". concert during a cathedral service."

But 12 months after its inception, via a conspicuous case of overspending, the parvenu bought itself a place in sporting history, 40 million dollars (£30m) over 43 years going to one player. That, incredibly, was the contract a college quarterback, Steve Young, aged 22, received from the Los Angeles Express for four years' work. Every cent has been quaranteed until he is 65, even if the league folds next week.

At a non-smoking, non-dripking Morgnon. As a non-smoking non-drinking Mormon, Young admitted the scale of his new-found wealth overawed him. "I just wanted enough to fix up the car and take my girlfriend out to

dinner", he said. But Young's on-field performance has not been so movest. In a game against the Chicago Blitx three weeks after his debut, he became the first quarterback in pro football history to ruch over 100 yards and throw for more than 300 yards. His coach, John Hadl, calls him a "phenonemon", and as if to endorse the toogood-to-be-true aura, the 141/st millionaire carries two books with him everywhere he goes: his football play book and the Bible. The National Football League, the established

league, whose matches are shown on British

but other USFL figures have provoked less awe.
Attendance figures are less than half of those of
the NFL last year, TV ratings equate with
afternoon soap operas and the overall standards
of play is just above college level.

Despite a publicity blitz by a New York real estate mogul, Donald Trump, who owns the New Jersey Generals, the fans are staying away He is not the only owner among the headstrong conglomerate of heart surgeons, in resument mogula, a former ambassador, novie producers and Burt Reynolds, who thinks he knows how to strengthen the league. The Washington Federals chief, Berl Bernard, a lawyer, sacked his coach after one defeat, londly berating his team as a pack of "untrained gerbils". Meanwhile, the NFL has been spectating

helplessly from the sidelines as the USFL snatched its top college draft choices. The college footballer of the year, Mike Rozier, is now a USFL mauler in Pittsburgh, and victims of the great Steve Young heist were the NFL's Cincinnati Bengals, who offered him a aderisory 3.5 million dollars over five years. The NFL wish their rivals to perdition, like

the World Football League before them, which sank without trace or a TV contract in 1976. The difference this time is as simple as ABC (network) - and the powerful buyy of millionaire owners who will not be intimidated by NFL superiority. But few armchair sports fans can remember

who won the championship last year (Michigan Panthers) and fewer still can guess at this year's play off contenders. All eyes instead are on the TV ratings. If they go down, so does the USFL, If they go up, the

Chief Singe remains on a collision course for another meeting with El Gran Schor in the Sussex States at Goodwood after gaining a breath-taking victory in the Noruros July Cup at Newmarket vesterday. Habibit, the Reigning European champion sprinter, dweit leaving the stalls. John Dunlop's flying filly was never galloping with her usual zest and could only finish eight better 10 lengths by the winner. "She was sever firing," and a disappointed Lester Piggon, "She just couldn't quicken."

The writing had been on the wall in the paddock before the race when Chief Singer had locked like a colt in the peak of condition. Habibet, on the other hand, had not been as bright in her cost as ahe was when carrying all before her last antumn.

Ray Cochrane settled the heavily-backed second favourise down at the state of the field. "You've get to book there is not much between Spark Chief and the recent So I go for Cree Bay in the hope that this prize will be a just reward for consistency. Cree Bay ran really well in a similar but, in my opinion, harder race at York in May and his latest performance at Warwick pointed to him visiting the winner's circle again before

Another

Ray Cochrane settled the heavily-backed second favourite down at the rear of the field. "You've got to drop him out or he spends his energy fighting you," he said afterwards. After launching a devastating run two furlongs from home, Chief Singer produced an authorizative burst of speed to pass. Committed and to hold the determined challenge of Never So. Rold at here to and a

At first sight it had looked as though Cochrane might have difficulty in obtaining a clear run, but the 27-year-old jockey was never in any doubt that he was about to Caballe, my selection for the July Handicap there, is nothing if not consistent. He has also PORMS Prince Resympt (9-10) about 77 fits of 18 to Committed (9-7) at Assoct (9), \$16,188, \$tm, Jon 27); Proviously Printed Revisio (7-8) 7-1 and and JOHACHER (9-13) 5-14 further away \$6, et al. ## De Wolf stays ahead of pack From John Wilcockson

**CYCLING** 

Lerogres, Aridche

Alfons De Wolf the enfant terrible of Belgian cycling, yesterday proved that he is more than a washed-up playboy. The elegant but fragile rider was the hero of a hot, humid and dangerous four-teenth stage of the Tour de France, winning by almost 18 minutes after a solo break of more than 80 miles. In the process, he shot from twenty-

third to fourth place overall.
While De Wolf was given the freedom of the road by overall leaders who did not believe the Belgian had the ability to stay clear, the rest of the 146-strong field were recuperating from a repid opening to a stage that traversed the spectacular Tarn gorges and the green hills of the

De Wolf raced in the style that won him the 1980 Tour of Lombardy and the 1981 Milan-San Remo; since those heady days, however he has failed to sors or his fans. Only last week he said that at the age of 28 he was thinking of retiring

When the Belgian's lead was at its maximum - 25 minutes, 30 miles from the finish - the Renault team of the race leader. Vincent Bartevau, and the third-place Laurent Figon began a chase that sowneezed the final ounces of sweat from weary

With 10 miles left, a break was made by seven riders, including Allan Peiper, of Australia, and one of the Renault men, Marc Madiot. They were brought to heel just as they began the finishing

circuit As the seven were caught, Phil Anderson made a ferocious counter-attack, chased by Bernard Hinault. This brought an immediate reply from Fignon, who was tagged by Anderson's Dutch team colleague, Peter Winnen. With the 2.75 mile lap to go, this quartet was 400 yards ahead of the pack, being led by a

fighting Sean Kelly. The Irishman had crashed 25 miles from the finish when a Colombian fell off in front of him. "I wasn't feeling that good when Anderson made his move," said Kelly, who had severe cuts down his left side. The chasers closed to eight seconds on the finish line, where Fignon again showed his strength to outsprint Hinault

and Anderson. Their battle is likely to be continued today on the first of the Alpine stages, when Robert Millar will be back in his element. The Scot yesterday gave a timely reminder of his form on the severe Côte des Vignes that climbs spectacularly out of the deep gorge of the

At the summit of this climb, where Millar was chased by Figuon and Anderson, De Wolf was aiready away in a small breakaway group. Once on the descent, the pace eased and De Wolf was allowed to begin his magnificent solo.

magnificent solo.

#### Welcome winner for Etherington Jimmy Etherington, whose horses

have been under a cloud most of the season with a suspected blood disorder, had a change of fortune when Grey Cree justified 7-4 favouritism with a convincing win in the Silver Birch Selling Stakes at Catterick yesterday.

Michael Wood had the grey filly smartly away, and she made all the running to score by two and a half lengths from Boldcott Tiger, Etherington has only had four winners this season — all two-year-

Over Your Shoulder, although sweating up before the race, outclassed her four opponents in the outcassed her tom opponents at the Spreading Chestnut Handicap, easily repeating her success on the course last month, Michael Hills made every yard of the running on the topweight 9-4 favourite, who came bome with five lengths to spare over Arguing.

Over Your Shoulder, bred by Edward Seitzer, provided the Newmarket trainer Jeremy Hindley with his 19th success this year.

Nissan catches up with European rivals over the past 10 years has been fascinating to follow, as designers first flirted with and finally em-

braced European standards of packaging and engineering.

When the Japanese first started selling cars in large numbers in Britain in the early 1970s, the overwhelming reason was a reputation, largely deserved, for mechanical reliability. ical reliability. Things just did not

seem to go wrong as they did on European, and particularly British, Which did not mean that the cars were necessarily fun to drive; on the contrary. They did not handle well, steering could be all over the place

But stage by stage the model picked up European ways. Indepen-TROEN MASERATI SM 1971 Immerciate condition, black, all extras. 12 mins MOT, 625,995 (even) 01-989 4728 (day) 01-791 1125, dent rear suspension came in and so Vital Statistics did rack and pinion steering, Model: Nissan Bluebird 2000SGL generally held to be more precise Price: £7,349 and responsive than the recirculat- Engine 1,973 cc, four cylinder to aerodynamics.

The latest Bluebird, which arrived mpg in Britain at the end of May, has one Length: 14ft 3.7in more very significant change, the Insurance group 6 switch from rear-wheel to frontwheel drive. It is now, on paper at least, as technically advanced as any

with carburettors and a 1.8 litre turbo. The engines are mounted Subjectively, the handling is sporty Green Cloverleaf model, has transversely, and the standard nimbler than before. There is only green cloverleaf model, has sporty Green Cloverleaf model, has grearbox has five ratios, of which moderate body-roll and the car can fourth and fifth can claim to be pushed hard into corners without being thrown off line. But the

Early next year the Alfa 90 comes to Britain. Only outline details have so far been released but the company says that the car will slot

into the range between the medium Alferta and the big Alfa 6. It is a Bertone-styled three box saloon which in Italy will be sold with a choice of five engines. These go from a four cylinder twin cam 1.8 litre to the 2.5 litre V6 and include the same turbo-diesel unit as that

one being developed as part of the Type Four project with Fiat, Lancia and Saab of Sweden,

Never a company to let models outstay their welcome. Volkswage-n/Audi has announced a revised version of its medium saloon, the Audi 80. The changes are mainly to the bodyshell and have been introduced partly to make the car more zerodynamically efficient helping performance and fuel economy - and partly to bring the styling closer to that of the larger 100/200 range. There are minor modifications

inside, including a redesigned fascia and enlarged front seats, but mechanically the car is much as before, with engines of 1.6 to 1.8 litres and including a turbodiesel. The revised Audi 80 should be on

Costing £3.865, or £165 more

than the current top model, the Mayfair, it offers features that Sir, A word first about accommo steering, while light enough (making bearing the Alfasud name, which is of velvet upholstery, reclining front the Alfa version of the car being seats with head restraints, a leather-space in the passenger compartment.

Did you anjoy playing Shakespearean women?"; "Are actressee born, or can they be made?"; "What was your favourite role?" in WOMEN OF THE CONTINEY (DROS & 250m) the lots CENTURY (BBC2, 9.25pm), the late Dame Flora Robson responds to Joanna Lumley's foolish questions with far more intelligence than they deserve. Throughout, we sense her strong-minded dedication to the acting craft; even when Robson worked during the Depression as welfare officer for the Streeded

Wheat factory in Welwyn Garden
City, she was staging the
employees' amateur productions.
She talks about technique, about Errol Flyran, Paul Robeson, and Charles Laughton (his advice on film acting was "Make your face a pudding"). If Lumley's questions seem injudicious, there is apt visual material to illustrate Robson's memories: tasty stage photos; a flery clip from the 1939 film Poison

CHOICE

Perr, julcy oddities like Laughton at an Old Vic party, beguiffully stawed in a paper hat. Towards the end Dame Flora notes her advancing years, and hopes for a quick, easy death; she also decigres her wish to be remembered as a stage actress. Live theatre being transitory, this may not happen, but she will certainly be remembered.

 At first sight THE MAN
UPSTAIRS (Channel 4, 11,20pm) appears to be just another bad British thriller propping up the summer schedules. But Don chaffey's film, made in 1958 by
ACT Films (formed by the
technicians' trades union for the
production of modest quality fare),
repays close attention. The man
upstairs is Richard Attenborough, a
lodger with a gas meter problem.

After he strikes a fellow lodger, the police are summoned; there is further violence, and Attenborough locks himself in his room. "Doesn't look like a splv," says Patricia Jassel's whisky-guzzling landlady; "do you think he's a writer? One of those angry young men you're always reading about?" He is, in fact, another Fifties archetype – a former scientist, depressed by his trade. But most of the talk in Alun

Falconer's forceful script centres on attitudes to authority and methods of handling society's problems. The film develops into a verbal battle between Bernard Lee's men in blue and Donald Houston's men in the duffle coat (the borough's Mental Welfare officer). Falconer, clearly, supports the duffle cost. Well-made, inteligent, and a marvellous historical specimen.

#### Rates rise bad news, says Prime Minister

Continued from page 1

Lawson's report to the Cabinet vesterday, is that interest rates have been forced up by the level of American rates, the weak-ness of the oil market and the uncertainties of hostilities in the Gulf, with the national dock strike as the colminating anxiety for the markets.

The Chancellor, at question time and in his Finance Bill speech, stressed that with profitability healthy, thanks to the Government's conduct of the economy, higher interest rates were much easier for companies to handle. Mr Lawson saw nothing in

the domestic monetary situation to justify a sustained period of interest rates at the present level. There was no

Mrs Thatcher acknowledge that investment would be in danger, particularly in small businesses, as a result of the rise in interest rates, and this was "one of the most worrying aspects". Mr Neill Kinnock, Leader of

Mr Neill Kinnock, Leader of the Opposition, said she was blaming everybody but herself, and that was really what was wrong with the Government.

The building societies are expected to raise the recommended markets are to be recommended to the recommended markets are to do. ommended mortgage rate today from 10 ¼ per cent to around 12 ½ to 12 ¾ per cent (Richard

Thomson writes).

The societies think interest rates are likely to fall again in the coming months, so the expected rise may not fully reflect this week's 234 percentage point rise in bank base

Shares slumped again yesterday as sterling remained under pressure (Derek Pain

writes).
The Financial Times 30-share Index was down 10.9 at 771.1 points at the close, its lowest level sicuce early January. At one time it had been 23.2 lower, but technical factors and some bargain buying prompted a limited recovery.

Yesterday's closing fall wiped £1.87 billion off share values, according to Datas-tream, the City information service. So far this week the FT-30 Index has fallen more than 38 points, reducing share values by £8.38 billion. The stock market is bewil-

dered that the savage interest rate advance has not fuelled a sterling revival. Yesterday the pound fell nearly a cent against a continuing strong US dollar

#### Lifeboat saves RAF men after iets collide

A board of inquiry has been convened into yesterday's colli-sion between two BAF jet fighters, a Tornado and a Jaguar, over Sheringham, Norfolk. The three crew ejected safely and were rescued by the Cromer lifeboat.
One of the aircraft crashed near the village of Bodham, and

the other went into the sea.

Mrs Dorothy Swift, of
Bodham, said: "I saw flames
coming out of the back of one of them, and saw it dive down. The Jaguar came from RAF Coltishall, and the Toruzde from RAF Honington, Suffelk.

Mondale makes historic choice

Continued from page 1 television, character, Archie Bunker, the American equiva-lent of Alf Garnett Mr Mondale is likely to come

in for some criticism for. succumbing to pressure from a special interest group, the National Organization of Women, which has been backing Mrs Ferraro and had threatened a floor fight at next week's convention here if a more was a special process.

woman was not chosen.
The choice of running mate was announced in Mr Mondale's home state of Minnesota. Mrs Ferraro flew there on Wednesday night after address-ing the World Affairs Council here. Mr Mondale told a joint press

conference that the journey from the Ferraro home to this moment was a story of a classic American dream. Mrs Ferraro said that in America anything was possible "if you work for it".

The Congresswoman was The Congresswoman was born on Angust 26 1935, in Newburgh, New York, the daughter of Italian immigrants. She earned a law degree at night school while teaching during the day and then went on to work in a private law firm. She married Mr John Zacca

ro, a real estate broker, immedi-ately after graduation but kept her maiden name in gratitude to her mother who helped pay for her studies. The couple cel-ebrate their twenty-fourth wedding anniversary on Monday, the day the convention begins. They have three chil-dren, aged 22, 20 and 17.

Mrs Ferraro entered Congress in 1978 since when she has been "on the first track", invariable supported by one of her greatest admirers. Mr Thomas "Tip"
O'Neill, the House Speaker, who lobbied hard for her She is a member of the

powerful House Budget Committee and Democratic Steering Committee, which makes her part of the House leadership. Although considered a liberal

on most domestic issues, she has been careful not to offend her predominantly conservative Her main weakness is thought to be her lack of experience in foreign policy and

arms control, two areas in which the Vice-President has played a leading role in the Carter and Reagan Administrations. However, she has recently made several foreign trips, including one to the Middle East.

#### Letter from Beirut

# Keeping phantoms alive in a garden

Ehsan Sakr has a kind face, enveloped by a white scarf. She is years old and she tells the story of her missing sons in a simple way, without rancour, as if she has already resigned herself to their

She smiles when she talks about them. They were taken away from the family home in Bourj Hammoud in east Beirut by the Phalangists in 1975, but when she holds up their photographs; her hus-band steps forward and makes a kind of snort, then weeps into his hands, swaying back-wards and forwards in delayed

The two young men stare out at us from the pictures, her son Muhammad and Ahmed, each with an adolescent moustache, but they look dead. Maybe it is their eyes that do it, the way they stare soulessly out of the photo-graphs as if trying to convey a

The Phalangists came to the house one day," she says.
"They said they wanted to
take the boys for investigation. But they didn't bring them back. The next day, I was walking in the street near ourhome and I saw a Phalangist. I
went up to him and asked for
help. I said I would pay
anything to find my sons.
"I said 'you have a watch

just like my son. Then I looked at his watch more closely and recognized the strap and realized it belonged to my son. I asked him where he got it. He said he was given it by some friends."

Neighbours told her to pay £L10,000 (£1,200) to Major Saad Haddad's militia for information on her sons. She did not pay. "Then we lost hope," she says. "As long as God is here, he will send them to us. And if they are dead -may God bless their souls." She pauses for a while. "What can I do? I will meet them in the next arould." the next world."

Ehsan sits in the Dar el-Fatwa, The Sunni Muslim religious centre in Beirut, where hundreds of relatives of Lebanon's kidnap victims meet each day. There are trees and a small flower-bed, a garden of heartbreak in which each story contains more pain than the one before because the people who gather there are fighting off the reality of death with the desperation of dreams. Up to 6,000 men, women and children have been kidnapped in Lebanon in the past nine years; perhaps 120 are still alive.

Wadad Halwani is con-vinced her husband Adnan is one of them. He was at home with her and her two sons Ziad, aged six and Ghassan three, on September 24: 1982, when two men with Lebanese Security Police identification papers called at their house in the Ras el-Nabah district of

west Beirut. They said they wanted Adnan for a brief interview about a traffic accident. But we were surprised because we had not been involved in an accident. They then put guns to both sides of Adnan's head and took him downstairs to a white Peugeot 504 in the street. I took the registration

number: 337540".

But when Wadad went to the Security Police head-quarters, they disclaimed all knowledge of Adnan. She says the Lebanese military tribunal never answered her questions. The car licence plates turned out to be false. She has never seen Adnan again;

them in the letters and post them to the children at our home. I have told them he is in Paris but now the airport has reopened, they look up at the planes and ask: 'Is Daddy coming home now?

Wadad Halwani is convinced the police took her Muslim husband, a high school history teacher, because he was a Communist. In the civil war that went on

in the Chouf during and after the Israeli occupation, Chris-tians and Druze were killed with butcher's knives and automatic weapons in ecution yards. Each side's women were raped then murdered. In 1976, hooded men, cut in the throats of Muslim and Christian motorists alike in front of their families on the Beirut ring road. Hundreds of Palestinian corpses were secretly buried near the Beirut golf course after Israel's Phalangist allies had finished their massacre at Sabra and Chatila in 1982. These graves have never been opened. The dead are still listed as "missing": which is why their phantoms will go on haunting the politics of Leba-
